Product Overview

The Frigidaire EFIC128AMZBLK Compact Countertop Ice Maker is designed for convenience and efficiency, producing up to 26 lbs of ice per day. Its compact size makes it ideal for various settings, including kitchens, offices, and for entertaining.

Figure 1: Front view of the Frigidaire EFIC128AMZBLK Compact Countertop Ice Maker.

- **Modern Design:** Features a large transparent window to monitor ice production.
- **Compact & Portable:** Dimensions of 12"D x 11"W x 14.5"H for easy transport and use.
- **Efficient Ice Production:** Produces 9 ice cubes per 5-6 minute cycle, with a total capacity of 26 lbs in 24 hours.
- **Water Recycling:** Unused ice melts and the water is recycled for a fresh batch.
- **Intelligent Indicators:** Alerts for "Ice Full" and "Add Water" conditions.
- **Drain Plug:** For easy cleaning and emptying.

Figure 2: Key features of the ice maker, including the stylish viewing window, drain plug, large 1.3 lbs ice basket, and included ice scoop.

Figure 3: The intelligent control panel allows selection of ice size and provides notifications for water and ice levels.

Setup

1. **Unpacking:** Carefully remove the ice maker from its packaging. Ensure all packing materials are removed.
2. **Placement:** Place the unit on a flat, stable surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker with a soft cloth and mild detergent. Rinse thoroughly and wipe dry.
4. **Add Water:** Open the lid and fill the water reservoir with clean, potable water up to the MAX fill line. Do not overfill.
5. **Power Connection:** Plug the ice maker into a grounded electrical outlet (120V).

Operating Instructions

1. **Power On:** Press the "ON/OFF" button on the control panel to turn on the ice maker. The Power indicator light will illuminate.
2. **Select Ice Size:** Press the "SELECT" button to choose between small (S) or large (L) ice cubes. The corresponding indicator light will illuminate.
3. **Ice Production:** The ice maker will begin its first cycle. Ice production typically starts within 5-6 minutes.
4. **Ice Collection:** As ice is produced, it will drop into the ice basket. When the ice basket is full, the "ICE FULL" indicator light will turn on, and the unit will pause production. Remove ice from the basket to resume production.
5. **Add Water:** If the water level in the reservoir is low, the "ADD WATER" indicator light will turn on. Add more water to the reservoir to continue ice production.
6. **Storing Ice:** This ice maker is designed to produce ice, not store it long-term. For best results, transfer produced ice to your freezer promptly to prevent melting.

Figure 4: The ice maker produces bullet-shaped ice cubes, with options for two sizes.

Maintenance

Cleaning the Ice Maker

1. **Drain Water:** Unplug the unit. Locate the drain plug at the bottom of the unit. Place a basin or towel underneath and remove the plug to drain any remaining water.
2. **Clean Interior:** Use a soft cloth with a mild detergent to clean the interior water reservoir, ice basket, and ice-making components.
3. **Rinse:** Rinse all cleaned parts thoroughly with clean water.
4. **Dry:** Wipe all surfaces dry. Leave the lid open for a period to allow for air drying and to prevent mold or mildew.
5. **Exterior Cleaning:** Wipe the exterior with a soft, damp cloth.

Storage

If storing the ice maker for an extended period, ensure it is completely drained and dry. Store it in a cool, dry place away from direct sunlight.

Troubleshooting

Problem	Possible Cause	Solution
"ADD WATER" indicator is on.	Water reservoir is empty or low.	Add clean, potable water to the reservoir up to the MAX fill line.
"ICE FULL" indicator is on.	Ice basket is full.	Remove ice from the basket. The unit will automatically resume production.
Ice maker is not producing ice.	No water, ice full, or unit not powered.	Check water level, empty ice basket, ensure unit is plugged in and powered on.
Ice melts quickly.	Ice maker is not a freezer.	Transfer ice to a freezer for long-term storage immediately after production.
