2.2 Connecting Your Soundbar

Follow these steps to connect your Fire TV Soundbar Plus to your television:

1. **Position the Soundbar:** Place the soundbar on a flat, stable surface in front of your TV, or mount it on the wall using the included kit. Ensure there are no obstructions in front of the soundbar.
2. **Connect HDMI Cable:** Connect one end of the included HDMI 2.0 cable to the HDMI eARC/ARC port on your TV. Connect the other end to the HDMI (eARC/ARC) port on the back of your Fire TV Soundbar Plus.
3. **Connect Power:** Plug the AC cord into the power port on the soundbar, then plug the other end into a wall outlet.
4. **Optional Connections:**
 - **Optical:** If your TV does not have an HDMI eARC/ARC port, you can use an optical cable (not included) to

connect the soundbar to your TV's optical audio output.

- **USB-A:** The USB-A port is for service and diagnostics only.

5. **Power On:** The soundbar will power on automatically once connected to power.

Plug and play to instantly upgrade your sound

Ensure your TV's audio output settings are configured to output sound through the connected HDMI eARC/ARC or Optical port.

3. OPERATING INSTRUCTIONS

3.1 Power On/Off

The soundbar typically powers on automatically when connected to a power source. To turn it off or on, use the power button on the included remote control or the power button on the soundbar itself.

3.2 Audio Modes (EQ Modes)

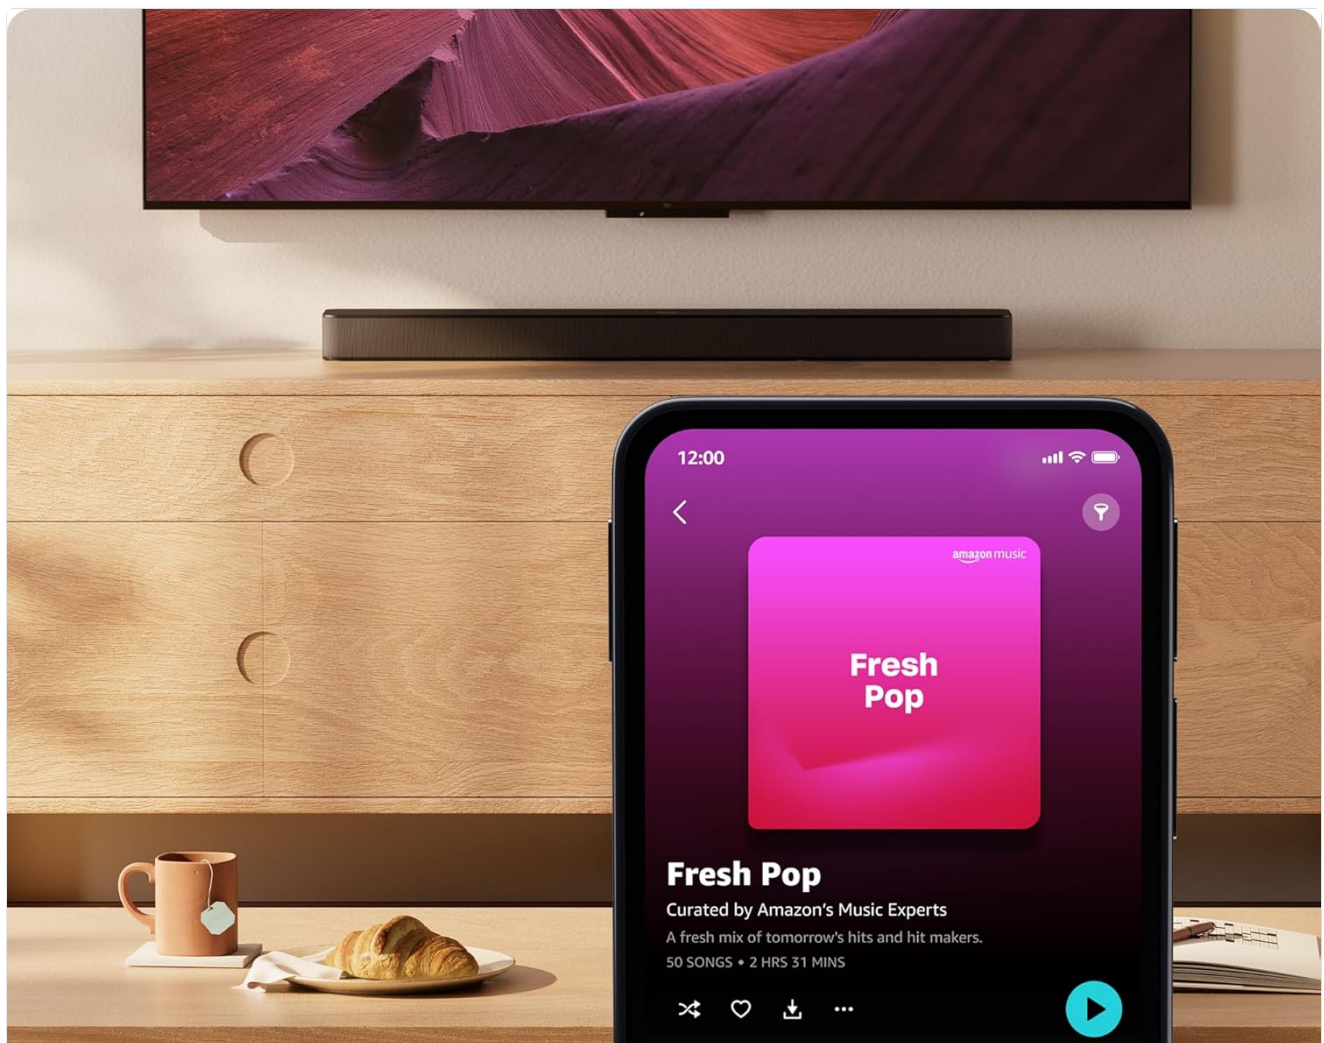

The Fire TV Soundbar Plus offers optimized audio modes to suit different content types. Use the remote to switch between these modes:

- **Movie Mode:** Enhances cinematic soundscapes, making explosions more impactful and dialogue clearer.
- **Music Mode:** Optimizes audio for music playback, providing a balanced and rich sound profile.
- **Sports Mode:** Boosts crowd noise and commentary for an immersive sports viewing experience.
- **Night Mode:** Reduces dynamic range to prevent sudden loud sounds, ideal for late-night listening without disturbing others.

3.3 Bluetooth Audio Streaming

You can stream audio wirelessly from your smartphone, tablet, or other Bluetooth-enabled devices to the soundbar.

1. **Enable Bluetooth:** On the soundbar remote, press the Bluetooth button to put the soundbar into pairing mode. The indicator light on the soundbar will flash.
2. **Pair Device:** On your mobile device, go to Bluetooth settings and select "Fire TV Soundbar Plus" from the list of available devices.
3. **Start Streaming:** Once paired, you can play audio from your device, and it will output through the soundbar.

Connect via Bluetooth to play
your favorite songs or podcasts

3.4 Fire TV Integration

For select models, the Fire TV Soundbar Plus is designed to work seamlessly with your Fire TV device. This allows you to:

- **Control with One Remote:** Use your Fire TV remote to control both your TV and the soundbar's volume and power.
- **Customize Sound:** Adjust sound settings directly within the Fire TV audio settings menu for a personalized listening experience.

4. ADVANCED AUDIO FEATURES

The Fire TV Soundbar Plus delivers a premium audio experience through its advanced technologies:

- **Dolby Atmos:** Experience three-dimensional sound that moves around you, creating an incredibly immersive audio environment. This technology adds height to the soundstage, making you feel like you're inside the action.
- **DTS:X:** Provides multi-dimensional audio, delivering lifelike sound that adapts to your speaker layout, enhancing realism and immersion.
- **Clear Dialogue:** A dedicated center dialogue channel ensures that conversations are sharp and distinct, preventing important lines from being lost amidst background effects.

An audio trifecta of clear dialogue, Dolby Atmos, and DTS:X

Image: The Fire TV Soundbar Plus integrated into a modern living room setup, with visual representations of sound waves expanding from the soundbar, emphasizing its immersive audio capabilities with Dolby Atmos and DTS:X support.

The soundbar's 3.1 channel configuration, including a built-in subwoofer, provides a balanced audio profile with powerful bass and clear highs, suitable for a wide range of content.

5. CARE AND MAINTENANCE

To ensure the longevity and optimal performance of your Fire TV Soundbar Plus, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the exterior of the soundbar. Do not use liquid cleaners, aerosols, or abrasive solvents, as they may damage the finish or internal components.
- **Ventilation:** Ensure the soundbar's vents are not blocked to prevent overheating. Do not place the soundbar in an enclosed space without adequate airflow.
- **Placement:** Avoid placing the soundbar in direct sunlight, near heat sources, or in areas with high humidity or extreme temperatures.
- **Handling:** Handle the soundbar with care. Avoid dropping it or subjecting it to strong impacts.

6. TROUBLESHOOTING GUIDE

If you encounter issues with your Fire TV Soundbar Plus, refer to the following common problems and their solutions:

Problem	Possible Solution
No sound from the soundbar.	<ul style="list-style-type: none">• Ensure the soundbar is powered on.• Verify the HDMI cable is securely connected to the TV's eARC/ARC port and the soundbar.• Check your TV's audio output settings to ensure sound is directed to the HDMI eARC/ARC or Optical output.• Increase the volume on both the soundbar and your TV.• Try a different audio source or input.
Sound is distorted or unclear.	<ul style="list-style-type: none">• Check for loose cable connections.• Ensure the soundbar is not placed too close to other electronic devices that may cause interference.• Adjust the EQ mode to suit the content.• Reduce the volume if it's too high.
Remote control is not working.	<ul style="list-style-type: none">• Replace the AAA batteries in the remote.• Ensure there are no obstructions between the remote and the soundbar.• Point the remote directly at the soundbar's sensor.
Bluetooth device won't pair.	<ul style="list-style-type: none">• Ensure the soundbar is in Bluetooth pairing mode (indicator light flashing).• Make sure the Bluetooth function is enabled on your mobile device.• Move your device closer to the soundbar.• Forget the soundbar from your device's Bluetooth list and try pairing again.

If the problem persists after trying these solutions, please refer to the Warranty and Support section for further assistance.
