WLJBIDET B0CY1VL8Z4

WLJBIDET Smart Bidet Toilet Seat User Manual

Model: B0CY1VL8Z4

INTRODUCTION

Thank you for choosing the WLJBIDET Smart Bidet Toilet Seat. This manual provides detailed instructions for the safe and efficient use, installation, and maintenance of your new bidet toilet seat. Please read this manual thoroughly before installation and use, and keep it for future reference.

This smart bidet toilet seat is designed to enhance your bathroom experience with features such as warm water washing, a heated seat, warm air drying, and adjustable nozzle positions.

IMPORTANT SAFETY INFORMATION

To reduce the risk of burns, electrocution, fire, or injury to persons, please observe the following:

- Read all instructions before using.
- Do not place or store product where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for a product that has fallen into water. Unplug immediately.
- Close supervision is necessary when this product is used by, on, or near children or invalids.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this product if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged into water.
- Keep the cord away from heated surfaces.
- Never block the air openings of the product or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.

- Never use while sleeping or drowsy.
- Never drop or insert any object into any opening or hose.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Connect this product to a properly grounded outlet only. See grounding instructions.
- Disconnect this product before filling. Fill with water only.
- This product is for household use only.

PRODUCT OVERVIEW

The WLJBIDET Smart Bidet Toilet Seat offers a range of features designed for comfort and hygiene.

MULTI-FUNCTIONAL SMART BIDET TOILET SEAT

Stainless Steel Nozzle

Soft Close Toilet Lid

Warm Air Drying

AUTOMATIC

Heated Toilet Seat

Real Time Data Display

Toilet Night Light

Multi-functional Smart Bidet Toilet Seat: This image illustrates the various features of the bidet seat, including the stainless steel nozzle, warm air drying, heated toilet seat, real-time data display, automatic functions, and toilet night light.

Bidet Seat with Remote Control: A top-down view of the smart bidet toilet seat, showcasing its sleek design and the accompanying remote control for easy operation.

Key Features:

- **Warm Water Bidet:** Adjustable water temperature (92°F to 102°F) for posterior, feminine, and one-touch automatic cleaning. Self-cleaning nozzle before and after each use.
- **Heated Toilet Seat:** Soothing warmth with adjustable temperature settings for comfort, especially in colder conditions.
- **Warm Air Drying:** Gentle drying feature to reduce toilet paper usage and enhance hygiene.
- **Adjustable Nozzle Position:** Customizable nozzle positions and oscillating wash functionality. The system remembers your last setting.
- **Quiet and Undisturbed Operation:** Soft-closing lid and seat, with a switchable beeping sound for silent

operation.

- **Soft-Glow Nightlight:** Convenient illumination for nighttime use without harsh overhead lighting.
- **Smart Display Screen:** High-resolution LED screen displays real-time water and seat temperatures.

SETUP AND INSTALLATION

Before beginning installation, ensure you have an electrical outlet near the toilet. The bidet seat requires a 120V AC power source.

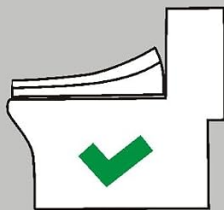

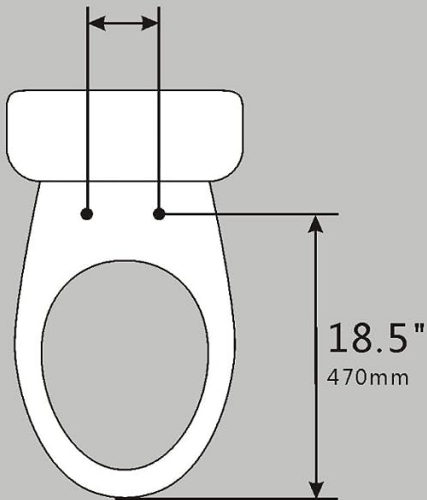

Pre-Installation Checklist:

- Verify toilet shape: This model is designed for **Elongated** toilets. Please measure your toilet size before installation.
- Ensure a power outlet is available.
- Gather necessary tools: Screwdriver, wrench.

PLEASE MEASURE YOUR TOILET SIZE BEFORE PLACING AN ORDER

ELONGATED

4.7" ~ 8.0"
120mm ~ 205mm

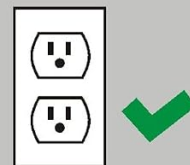

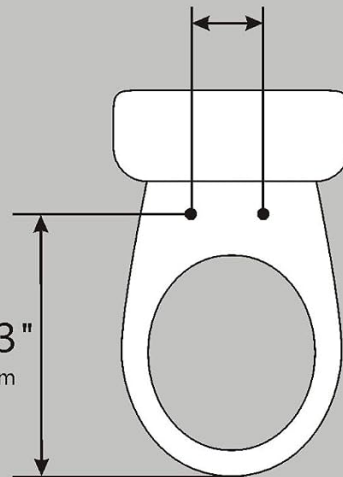

FITS

MAY NOT FIT

OVAL

4.7" ~ 8.0"
120mm ~ 205mm

OUTLET REQUIRED

Toilet Size Measurement: This diagram provides crucial measurements for both elongated and oval toilets, indicating compatibility and the necessity of an electrical outlet for installation.

Installation Steps:

1. Remove Existing Toilet Seat:

Unscrew and remove your current toilet seat. Clean the toilet bowl area thoroughly.

2. Install Fixing Plate:

Installation Overview: This image provides a visual guide to the installation process, from removing the fixing plate to securing it on the toilet and attaching the bidet seat.

- a. Hold down the side buckle on the smart bidet toilet seat to remove the fixing plate.
- b. Secure the fixing plate to the toilet using the provided screws and adjustment sheets. Ensure it is firmly in place.

3. Attach Bidet Seat:

- a. Push the smart toilet seat onto the fixing plate by holding down the side buckle until it clicks into place.

4. Water Connection:

Important: Turn off the main water supply valve to your toilet before proceeding.

Water Connection Diagram: This diagram illustrates how to connect the 3-way valve to the toilet tank inlet and the filter, ensuring proper water flow to the bidet seat.

- a. Attach the three-way valve to the threads of the toilet tank.
- b. Connect the DMT pipe and filter as shown in the diagram.
- c. Once connections are secure, slowly open the water supply valve.
- d. Wait 3-5 minutes for the bidet to fill with water.

5. Power Connection:

After the bidet is filled with water, plug the power cord into a properly grounded 120V AC outlet.

Do not operate any functions while the blue light is blinking. The blue light will stop blinking in approximately 1 minute, indicating it is ready for use.

Heated Toilet Seat Bidet Installation Guide - Series V7B: This official video from WLJBIDET provides a step-by-step visual guide for installing the bidet toilet seat, covering all necessary connections and initial setup.

OPERATING INSTRUCTIONS

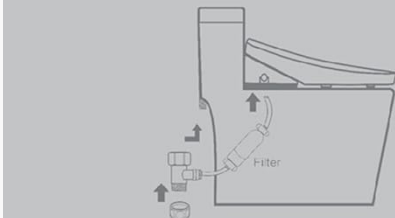

The WLJBIDET Smart Bidet Toilet Seat is operated via the side control panel and the remote control.

Control Panel and Display:

Smart Display Screen and Night Lights: This image highlights the high-resolution LED screen that displays real-time water and seat temperatures, and the LED night lights for convenience.

Attention!

Ensure that you connect the 3-way valve to the tank by referring to the page diagram and installation video. The installation instructions for the 3-way valve included in the package only apply to certain toilets.

When installation, please make sure to open the water supply valve first, wait 3-5 minutes for the water to fill the bidet, then plug it. Do not operate any functions while the blue light is blinking. The blue light will stop blinking in 1 minute.

Multi-functional Overview: An animated image showcasing the various features of the bidet seat, including the remote control, stainless steel nozzle, night light, warm air drying, heated seat, smart display, and automatic functions.

- The LED screen on the bidet seat displays current water and seat temperatures.
- All functional buttons are conveniently located on the side control panel.
- The seat sensor minimizes accidental sprays by activating functions only when a user is seated.

Washing Functions:

Multiple Hygiene Cleaning Modes: This image demonstrates the different washing modes available, including female cleaning, oscillating cleaning, and rear cleaning, all performed by the stainless steel nozzle.

Animated Cleaning Modes: A dynamic visual representation of the bidet's multiple hygiene cleaning modes, highlighting the stainless steel nozzle's spray patterns for female, oscillating, and rear cleaning.

- **Posterior Wash:** For general cleansing.
- **Feminine Wash:** Gentle wash for feminine hygiene.
- **Oscillating Wash:** The nozzle moves back and forth for a wider cleaning area.
- **Adjustable Water Pressure:** Use the remote control to increase or decrease water pressure.
- **Adjustable Nozzle Position:** Use the remote control to adjust the nozzle's forward or backward position.
- **Instant Warm Water:** The water spray is ready for immediate use, reducing waiting time.

Drying and Seat Heating:

High-resolution LED screen display real-time water and seat temperatures.

WARM DRYING

Comfortable temperature and large area drying

NIGHT LIGHTS

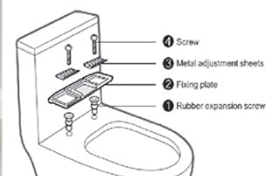

LED night lights enhance more luxury for toilets

Heated Seat and Slow Closing: This image highlights the hybrid heating technology that provides consistent warmth for the seat and the silent damping slow-closing mechanism of the lid.

B

B. Install the accessories according to the diagram.

Animated Heated Toilet Seat: A visual representation of the heated toilet seat function, showing the warmth spreading across the seat for user comfort.

- **Warm Air Drying:** Activate the drying function after washing. Adjustable air temperature for comfort.
- **Heated Seat:** Adjust the seat temperature to your preference using the remote control.

Additional Features:

- **Night Light:** The soft-glow nightlight can be turned on/off for convenience during nighttime use.
- **Slow Closing Lid:** The lid and seat close gently and quietly, preventing slamming.
- **Self-Cleaning Nozzle:** The nozzle automatically cleans itself before and after each use.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and hygiene of your bidet toilet seat.

Cleaning the Bidet Seat:

- Use a soft, damp cloth and mild detergent to clean the exterior of the bidet seat.
- Avoid abrasive cleaners, brushes, or chemical solvents, as these can damage the surface.
- The bidet seat supports bathroom shower rinsing for easy cleaning.

Nozzle Cleaning:

- The self-cleaning nozzle function automatically cleans the nozzle before and after each use.
- For deeper cleaning, you can manually extend the nozzle (refer to the remote control instructions for specific button). Use a soft brush and mild soap to clean the nozzle.

Filter Maintenance:

- The bidet seat includes a water filter. Periodically check the filter for debris and replace it if necessary to maintain optimal water flow and hygiene.

TROUBLESHOOTING

If you encounter any issues with your WLJBIDET Smart Bidet Toilet Seat, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No power/Unit not turning on	Power cord unplugged, circuit breaker tripped, seat sensor not activated.	Ensure power cord is securely plugged in. Check your home's circuit breaker. Ensure you are properly seated on the bidet.
No water spray	Water supply valve closed, water filter clogged, nozzle blocked.	Open the water supply valve fully. Check and clean/replace the water filter. Inspect the nozzle for any blockages.
Water temperature not warm	Water heating function off, temperature setting too low.	Activate the water heating function via the remote control. Increase the water temperature setting.
Heated seat not working	Seat heating function off, temperature setting too low.	Activate the seat heating function via the remote control. Increase the seat temperature setting.
Weak air drying	Air drying function off, air temperature setting too low.	Activate the air drying function. Increase the air temperature setting.
Blue light blinking continuously	Initial water filling in progress or system reset.	Wait for approximately 1 minute for the light to stop blinking. Do not operate functions during this time. If it persists, unplug for 30 seconds and plug back in.

If the problem persists after trying these solutions, please contact WLJBIDET customer support for assistance.

SPECIFICATIONS

Feature	Detail
Brand	WLJBIDET
Model	B0CY1VL8Z4
Color	White
