

VIANIS V81521BK

VIANIS Outdoor Wall Light Instruction Manual

MODEL: V81521BK

Introduction

Thank you for choosing the VIANIS Outdoor Wall Light, Model V81521BK. This manual provides essential information for the safe installation, operation, and maintenance of your new outdoor lighting fixture. Please read these instructions thoroughly before installation and retain them for future reference.

Safety Information

- **WARNING:** To avoid electric shock, always disconnect power at the main circuit breaker or fuse box before beginning installation or performing any maintenance.
- All electrical connections must be in accordance with local codes, ordinances, or the National Electric Code (NEC). Consult a qualified electrician if you are unfamiliar with proper electrical wiring connections.
- Ensure the fixture is properly grounded.
- Do not exceed the maximum wattage specified for the bulb (E26, Max 100W).
- Handle glass components with care to prevent breakage.
- This fixture is designed for outdoor use and is waterproof. However, ensure all connections are sealed properly during installation to maintain its weather resistance.

Package Contents

Verify that all components are present before beginning installation:

- VIANIS Outdoor Wall Light Fixture (Model V81521BK)
- Mounting Hardware (screws, wire nuts)
- Shade (pre-assembled)
- Dusk to Dawn Sensor (integrated)

- **Note: Bulb is not included.**

Specifications

Feature	Detail
Model Number	V81521BK
Dimensions (L x W x H)	7.09" x 5.91" x 12.6"
Material	Aluminum, Tempered Seed Glass
Power Source	Hardwired
Voltage	120 Volts (AC)
Max Wattage	100 Watts
Bulb Base	E26
Special Features	Advanced Dusk to Dawn Sensor, Die-Cast Aluminum, Energy Efficient, Waterproof, Weather Resistant
Finish Type	Matte Black
Indoor/Outdoor Usage	Outdoor

Setup (Installation Instructions)

Tools Required: Screwdriver, Wire Strippers, Pliers, Electrical Tape, Safety Glasses.

1. **Prepare for Installation:** Turn off power at the circuit breaker or fuse box. Ensure the power is completely off before proceeding.
2. **Mounting Plate Installation:** Attach the mounting plate to the electrical junction box using the provided screws. Ensure it is securely fastened.
3. **Wiring Connections:** Connect the fixture's wires to your house wiring.
 - Connect the **green or bare copper ground wire** from the fixture to the **ground wire** from the junction box.
 - Connect the **white (neutral) wire** from the fixture to the **white (neutral) wire** from the junction box.
 - Connect the **black (live) wire** from the fixture to the **black (live) wire** from the junction box.

Secure all connections with wire nuts and wrap with electrical tape for added safety.
4. **Attach Fixture:** Carefully align the fixture with the mounting plate and secure it using the provided screws. Ensure no wires are pinched.
5. **Install Bulb:** Insert an E26 base bulb (Max 100W, not included) into the socket. We recommend LED or CFL bulbs for optimal performance and energy efficiency.
6. **Restore Power:** Turn the power back on at the circuit breaker.

Operating Instructions

The VIANIS Outdoor Wall Light features an integrated dusk-to-dawn sensor for automatic operation:

- **Automatic On/Off:** The light fixture will automatically turn on when ambient light levels fall below a certain threshold (at dusk) and turn off when sufficient light is detected (at dawn).
- **Energy Efficiency:** This feature ensures the light operates only when needed, contributing to energy savings.
- **Placement:** Ensure the sensor is not obstructed by objects or exposed to direct artificial light sources at night, as this may interfere with its proper function.

Dusk To Dawn Sensor

Day and night automatic switch, free your hands

Maintenance

Regular maintenance helps ensure the longevity and optimal performance of your outdoor light fixture.

- **Cleaning:** To clean the fixture, ensure power is off. Wipe with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish or glass. The innovative bottom opening design allows for easy cleaning and bulb changes.
- **Bulb Replacement:** Ensure power is off before replacing the bulb. Allow the old bulb to cool before removing. Install a new E26 base bulb (Max 100W).
- **Inspection:** Periodically inspect the fixture for any signs of wear, damage, or loose connections. Address any issues promptly.

Weather Resistance
