### Cleaning:

- **General Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner.

- **Spills:** Wipe up spills immediately to prevent moisture damage, especially on engineered wood surfaces.

### Care:

- **Humidity Control:** Maintain a consistent humidity level in your bathroom to prevent warping or cracking of wood components.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Tighten if necessary.
