VersaCheck ONLINE Gold 1-Month License

VersaCheck ONLINE Gold 1-Month License User Manual

Your guide to managing finances and printing checks online.

1. INTRODUCTION

The VersaCheck ONLINE Gold 1-Month License provides a web-based platform for managing payments and finances. This software allows users to automate financial tasks, create and print secure checks, and handle payroll and receivables. It is designed for accessibility from various devices, offering flexibility in financial management.

2. PRODUCT OVERVIEW AND FEATURES

VersaCheck ONLINE Gold offers a suite of features to streamline your financial operations:

- **Automated Financial Management:** Automate bills, payroll, and receivables for efficient financial tracking.
- **Secure Check Printing:** Instantly create and print secure, bank-compliant check payments.
- **PDF/eChecks:** Generate, send, and receive bank-compliant PDF/eChecks.
- **Multi-Device Access:** Access your account and print checks from any device, including PC, Mac, Apple iOS, and Android web browsers.
- **Cost Savings:** Potential savings compared to traditional bank and mail-order checks.
- **Customization:** Easy setup with options to customize checks with logos and graphics.
- **Dynamic Information:** Ability to change check information as needed and print complete payments on demand.
- **Software Compatibility:** Compatible with finance software such as QuickBooks, Quicken, and other accounting applications.

4.3. User Management and Customization

VersaCheck ONLINE allows for setting up user workgroups and customizing check elements.

Your browser does not support the video tag.

Video: This video demonstrates key operational aspects of VersaCheck ONLINE, including sending checks via email from a mobile device, setting up user workgroups with different access levels (Admin, Power, Regular Users), customizing checks by adding logos and signatures, paying bills efficiently, and the process of receiving and printing checks immediately. It highlights the software's multi-device compatibility.

The video above illustrates:

- **Mobile Check Sending:** How to send checks via email directly from your mobile device.
- **User Workgroups:** Setting up different user roles such as Admin, Power Users (with total access to configure user groups, setup accounts, make changes, and manage profiles), and Regular Users (with limited access to view and initiate transactions).
- **Check Customization:** The process of easily setting up checks, including adding bank logos, background graphics, and signatures.

- **Bill Payment:** How to pay bills quickly by selecting contacts, categories, and entering amounts.
- **Instant Printing:** Receiving and printing checks immediately using a compatible printer.

5. SECURITY FEATURES

VersaCheck ONLINE incorporates security measures to help prevent fraud and tampering:

- **REALCheck Verification:** A system designed to validate payment authenticity.
- **Stealth UV Security:** Hidden security features visible under UV light.
- **Anti-Counterfeit DNA Biomarker:** An integrated biomarker for enhanced security.
- **RC-QR Option:** An optional tracking QR code that can be applied to checks, allowing recipients to verify check authenticity instantly via a mobile device.
