

WolfLawS KM-5

WolfLawS KM-5 Wireless Gaming Mouse Instruction Manual

Model: KM-5

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your WolfLawS KM-5 Wireless Gaming Mouse. Designed for versatility and performance, this mouse offers multiple connectivity options, adjustable DPI settings, and an ergonomic design for extended use.

SETUP

The WolfLawS KM-5 mouse supports three connection modes: 2.4GHz wireless, Bluetooth, and wired. Choose the mode that best suits your needs.

1. 2.4GHz Wireless Mode

1. Locate the 2.4G switch on the bottom of the mouse.
2. Switch the mouse to 2.4G mode.
3. Connect the USB receiver to an available USB port on your device. The mouse will automatically connect.
4. **Note:** If the mouse cursor moves slowly, is unstable, or stops moving, it indicates a low battery. Please charge the mouse promptly.

2. Bluetooth Mode

1. Locate the Bluetooth switch on the bottom of the mouse.
2. Switch the mouse to Bluetooth mode.
3. On your device, search for Bluetooth signals and select the WolfLawS KM-5 mouse to pair.

3. Wired Mode

1. Connect the provided Type-C charging cable to the mouse and to a USB port on your device.
2. The mouse can be used and charged simultaneously in wired mode.

Button Functions

The KM-5 mouse features six programmable buttons for enhanced control:

- **Left Button:** Standard left-click function.
- **Right Button:** Standard right-click function.
- **Scroll Wheel:** Scrolls content up/down; clickable for middle-click function.
- **DPI Button:** Cycles through DPI settings.
- **Forward Button:** Navigates forward in web browsers or applications.
- **Back Button:** Navigates backward in web browsers or applications.

Adjustable DPI Settings

The mouse offers five adjustable DPI settings to customize sensitivity for different tasks or games. Press the DPI button to cycle through the following settings:

- 1200 DPI
- 1600 DPI
- 2000 DPI
- 2400 DPI
- 3600 DPI

No additional drivers or software are required to change DPI settings.

MAINTENANCE

Charging the Mouse

The KM-5 mouse is equipped with a rechargeable battery. To ensure continuous performance:

- When the mouse cursor becomes slow, unstable, or stops moving, it indicates a low battery.
- Connect the provided Type-C charging cable to the mouse and a power source (e.g., computer USB port, USB wall adapter).
- A full charge will restore normal functionality. The mouse can be used while charging in wired mode.

Figure 5: Battery and charging information.

General Care

- Keep the mouse clean by wiping it with a soft, dry cloth.
- Avoid exposing the mouse to extreme temperatures or moisture.
- Do not attempt to disassemble the mouse, as this may void the warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Mouse cursor moves slowly or is unstable.	Low battery.	Charge the mouse using the provided Type-C cable.
Mouse not connecting in 2.4GHz mode.	USB receiver not properly inserted or mouse not in 2.4G mode.	Ensure the USB receiver is fully inserted into a working USB port. Verify the switch on the bottom of the mouse is set to 2.4G.
Mouse not connecting in Bluetooth mode.	Mouse not in Bluetooth pairing mode or device Bluetooth is off.	Ensure the switch on the bottom of the mouse is set to Bluetooth. Activate Bluetooth on your device and search for the mouse to pair.
Mouse not responding in wired mode.	Cable not properly connected or faulty cable/port.	Ensure the Type-C cable is securely connected to both the mouse and the device. Try a different USB port or cable.
