Neproch Neprock-9Black

Neproch 9-Cube Closet Organizer Instruction Manual

Model: Neprock-9Black

PRODUCT OVERVIEW

The Neprock 9-Cube Closet Organizer is a versatile and customizable storage solution designed to help you organize various items such as clothes, books, yarn, crafts, and toys. Its DIY modular design allows for flexible configuration to suit your specific storage needs. Constructed with high-quality ABS plastic panels and reinforced metal frames, this organizer offers stability and durability, with each cube capable of holding up to 22 pounds.

PACKAGE CONTENTS

Before beginning assembly, please verify that all components are present and undamaged. If any parts are missing or damaged,

contact customer support.

- ABS Plastic Panels (for sides, top, bottom, and back of cubes)
- Metal Frames (for structural support)
- Connectors (for joining panels and frames)
- Elevated Foot Connectors (for base stability and moisture protection)
- Cable Zip Ties (for added stability)
- Additional Hooks (if included in your package)
- Assembly Tool (Hammer/Mallet)
- Instruction Manual

SETUP AND ASSEMBLY

Assembly of the Neprock 9-Cube Closet Organizer is designed to be straightforward. Follow these steps carefully to ensure a stable and secure structure.

1. **Unpack Components:** Lay out all panels, connectors, and frames on a clean, flat surface. Separate them by type.

2. Assemble Base Cubes:

- Attach four panels to a connector to form the sides of a cube. Ensure the panels are fully inserted into the connector slots.
- Use the included hammer/mallet to gently tap the panels into the connectors until they are securely seated and no gaps are visible.
- Repeat for the desired number of base cubes.

3. **Add Elevated Foot Connectors:** For the bottom row of cubes, attach the elevated foot connectors to the bottom corners. These provide stability and protect against moisture.

4. **Connect Cubes Horizontally:** Use connectors to join assembled cubes side-by-side, ensuring a tight fit.

5. **Build Upwards:** Once the base layer is complete, add panels and connectors to build additional layers of cubes on top of the existing structure.

6. **Customize Configuration:** The modular design allows for various shapes (e.g., staircase, rectangular). Plan your desired layout before connecting all sections.

7. **Secure with Zip Ties:** For enhanced stability, use the provided cable zip ties to secure panels to frames, especially at critical connection points.

8. **Final Check:** Once fully assembled, gently push on the structure to ensure all connections are firm and the organizer is stable.

OPERATING AND USAGE

The Neproch 9-Cube Closet Organizer is designed for versatile storage in various settings. Consider the following guidelines for optimal use:

- **Weight Distribution:** Distribute weight evenly across the cubes. Each cube has a maximum weight capacity of 22 pounds. Avoid placing excessively heavy items in a single cube.
- **Recommended Items:** Suitable for storing clothes, books, yarn, crafts, toys, shoes, plants, and other household items.
- **Placement:** Ideal for bedrooms, closets, dorm rooms, garages, laundry rooms, hallways, living rooms, and offices. Ensure the organizer is placed on a flat, stable surface.
- **Storage Bins:** For smaller items or a tidier appearance, use storage bins that fit within the 11.8" x 10.5" x 10.5" cube dimensions.

MAINTENANCE AND CARE

To maintain the appearance and longevity of your Neprock 9-Cube Closet Organizer, follow these simple care instructions:

- **Cleaning:** Wipe with a dry cloth to remove dust and light dirt. For more stubborn marks, a damp cloth can be used, followed by drying with a clean, dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these may damage the finish of the panels.
- **Moisture Protection:** The elevated foot connectors help protect the base from moisture. However, avoid prolonged exposure to excessive moisture or direct water contact.
- **Regular Checks:** Periodically check all connections to ensure they remain tight and secure. Re-tap with the mallet if any connections feel loose.

TROUBLESHOOTING

If you encounter any issues during assembly or use, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Organizer feels unstable or wobbly.	Connections are not fully seated. Uneven surface.	Ensure all panels are fully inserted into connectors using the mallet. Place the organizer on a flat, level surface. Use zip ties for added reinforcement.
Panels do not fit into connectors.	Incorrect orientation of panels or connectors. Not enough force applied.	Verify panel orientation. Apply firm, even pressure and use the mallet to tap panels into place. Ensure connectors are facing the correct direction.
Cube collapses under weight.	Exceeded weight limit. Improper assembly.	Do not exceed the 22-pound weight limit per cube. Re-check all connections for tightness. Ensure zip ties are used where necessary.
Missing parts.	Packaging error.	Contact Neprock customer service with your purchase details for replacement parts.

SPECIFICATIONS

Feature	Detail
Model Name	Neprock-9Black
Number of Cubes	9
Product Dimensions (Overall)	11.8"D x 37.4"W x 47.2"H
