## SETUP AND ASSEMBLY

Assembly of the iPormis dining set is designed to be straightforward. All necessary tools and detailed instructions are included in the packaging. It is recommended to have two people for table assembly.

## General Assembly Steps:

1. Unpack all components from both boxes and verify against the parts list in the included instruction manual.
2. Assemble the table frame first, ensuring all bolts are securely tightened.
3. Attach the table top sections, paying attention to the extendable mechanism.
4. Assemble each chair individually, ensuring all connections are firm.
5. Place anti-slip foot pads on the bottom of all table and chair legs to prevent floor scratches.

## Assembly Tips:

- Lay out all parts on a soft, clean surface to prevent scratches during assembly.
- Do not overtighten screws until all components are loosely fitted, then tighten fully.
- Ensure all parts are correctly oriented before fastening.

## OPERATING INSTRUCTIONS

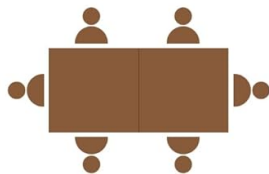

### Table Extension Mechanism:

The iPormis dining table features an extendable design, allowing it to transition from a compact 47.3 inches to an expanded 63 inches in length. This adjustment can be performed by a single person.

1. To extend: Gently pull the two main table sections apart. The central leaf will slide out smoothly on its track.
2. To shrink: Push the two main table sections back together until they meet the central leaf, ensuring a snug fit.

Shrink

Expanded

### Space-Saving Design:

The dining chairs are designed to fit perfectly under the dining table when not in use, maximizing space in smaller areas.

# SPACE SAVING

Dining chairs can fit perfectly under the dining table, saving you space.

## MAINTENANCE

### Cleaning:

The table and chairs are made with MDF board, which is designed for easy cleaning. For general cleaning, wipe surfaces with a dry cloth. For spills, promptly wipe with a damp cloth and then dry thoroughly. Avoid using harsh chemicals or abrasive cleaners that may damage the finish.

### General Care:

- Regularly check and tighten all bolts and screws to ensure stability.
- Avoid placing hot items directly on the table surface; use coasters or placemats.
- Do not drag the table or chairs across the floor; lift them when moving to prevent damage to both the

furniture and your flooring.

- Ensure anti-slip foot pads are intact and replace if worn to protect floors.

## SAFETY INFORMATION

---

- **Weight Capacity:** Do not load more than 330 lbs on the table or any individual chair. Exceeding this limit may cause damage or injury.
- **Sharp Edges:** Exercise caution around sharp edges during assembly and use. The table is designed with corner protection, and chairs have an arc design for safety.
- **Stability:** Always ensure the table and chairs are placed on a flat, stable surface. Uneven surfaces can lead to wobbling and potential tipping.
- **Children:** Supervise children around the dining set to prevent accidents.
- **Assembly:** Always follow the provided assembly instructions for safe and correct setup.

## TROUBLESHOOTING

---

### Common Issues and Solutions:

- **Wobbly Chairs/Table:** Check all bolts and screws. Tighten any loose fasteners. Ensure the furniture is on a level surface.
- **Difficulty Extending/Shrinking Table:** Ensure the sliding mechanism is clear of debris. Apply a small amount of silicone lubricant to the tracks if movement is stiff.
- **Corner Protectors Detaching:** If the included corner protectors do not adhere sufficiently, stronger adhesive tape may be used to secure them.
- **Wood Grain Misalignment (Extended Table):** The wood grain on the central extension panel may run in a different direction than the main table sections. This is a cosmetic characteristic of the design and does not affect functionality or durability.

## WARRANTY AND SUPPORT
