## Mirightone B0CY5HNZMF

# Mirightone Twin Size House Loft Bed Instruction Manual

Model: B0CY5HNZMF

## IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- **Weight Capacity:** The maximum weight capacity for this loft bed is **250 pounds**. Do not exceed this limit.
- **Mattress Thickness:** Use a mattress with a recommended thickness of **6 inches** to ensure proper guardrail height and user safety.
- **Guardrails:** The loft bed is equipped with full-length guardrails on the upper bunk to prevent accidental falls. Ensure they are securely installed at all times.
- **Stability:** Ensure all screws and fasteners are tightly secured during assembly and periodically check for tightness to maintain bed stability. A tightly screwed frame prevents shaking or wobbling.
- **Ladder Safety:** The built-in 4-step ladder is designed for safe access. Always use the ladder when entering or exiting the loft bed.
- **Supervision:** Young children should be supervised when using the loft bed.

## PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

- All necessary bed frame components (wood panels, slats, ladder, guardrails)
- Hardware pack (screws, bolts, nuts, etc.)
- Installation Manual

The product is shipped in **1 package**.

## SETUP AND ASSEMBLY

Assembly of the Mirightone Twin Size House Loft Bed is required. Follow the detailed instructions and diagrams provided

in the included Installation Manual for a smooth and correct setup.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in your Installation Manual to identify each component.
3. **Assemble Base Frame:** Begin by assembling the main base frame of the loft bed according to the manual's step-by-step instructions.
4. **Attach Playhouse Structure:** Secure the house-style window and wall sections to the bed frame.
5. **Install Ladder:** Attach the 4-step ladder firmly to the designated side of the bed. Ensure it is stable and does not wobble.
6. **Secure Guardrails:** Install the full-length guardrails on the upper bunk, ensuring all fasteners are tightened.
7. **Insert Slats:** Place the mattress support slats evenly across the bed frame.
8. **Final Check:** Before use, double-check all connections and fasteners to ensure they are tight and secure.

*Note: An additional person may be required for certain assembly steps.*

The Mirightone Twin Size House Loft Bed is designed for sleeping and imaginative play. Adhere to the following guidelines for safe and optimal use:

- **Sleeping Area:** The upper bunk is intended for sleeping. Ensure a mattress of the recommended thickness (6 inches) is used.
- **Play Area:** The space beneath the loft bed, enclosed by the house structure, can be used as a play area, study nook, or for storage.
- **Weight Distribution:** Distribute weight evenly on the bed. Avoid concentrated weight in one small area.
- **No Jumping:** Do not jump on the bed, especially the upper bunk, as this can compromise structural integrity and lead to injury.
- **Ladder Use:** Always use the ladder to access and exit the upper bunk. Do not climb on the guardrails or other parts of the bed.

## SIZE: INCH

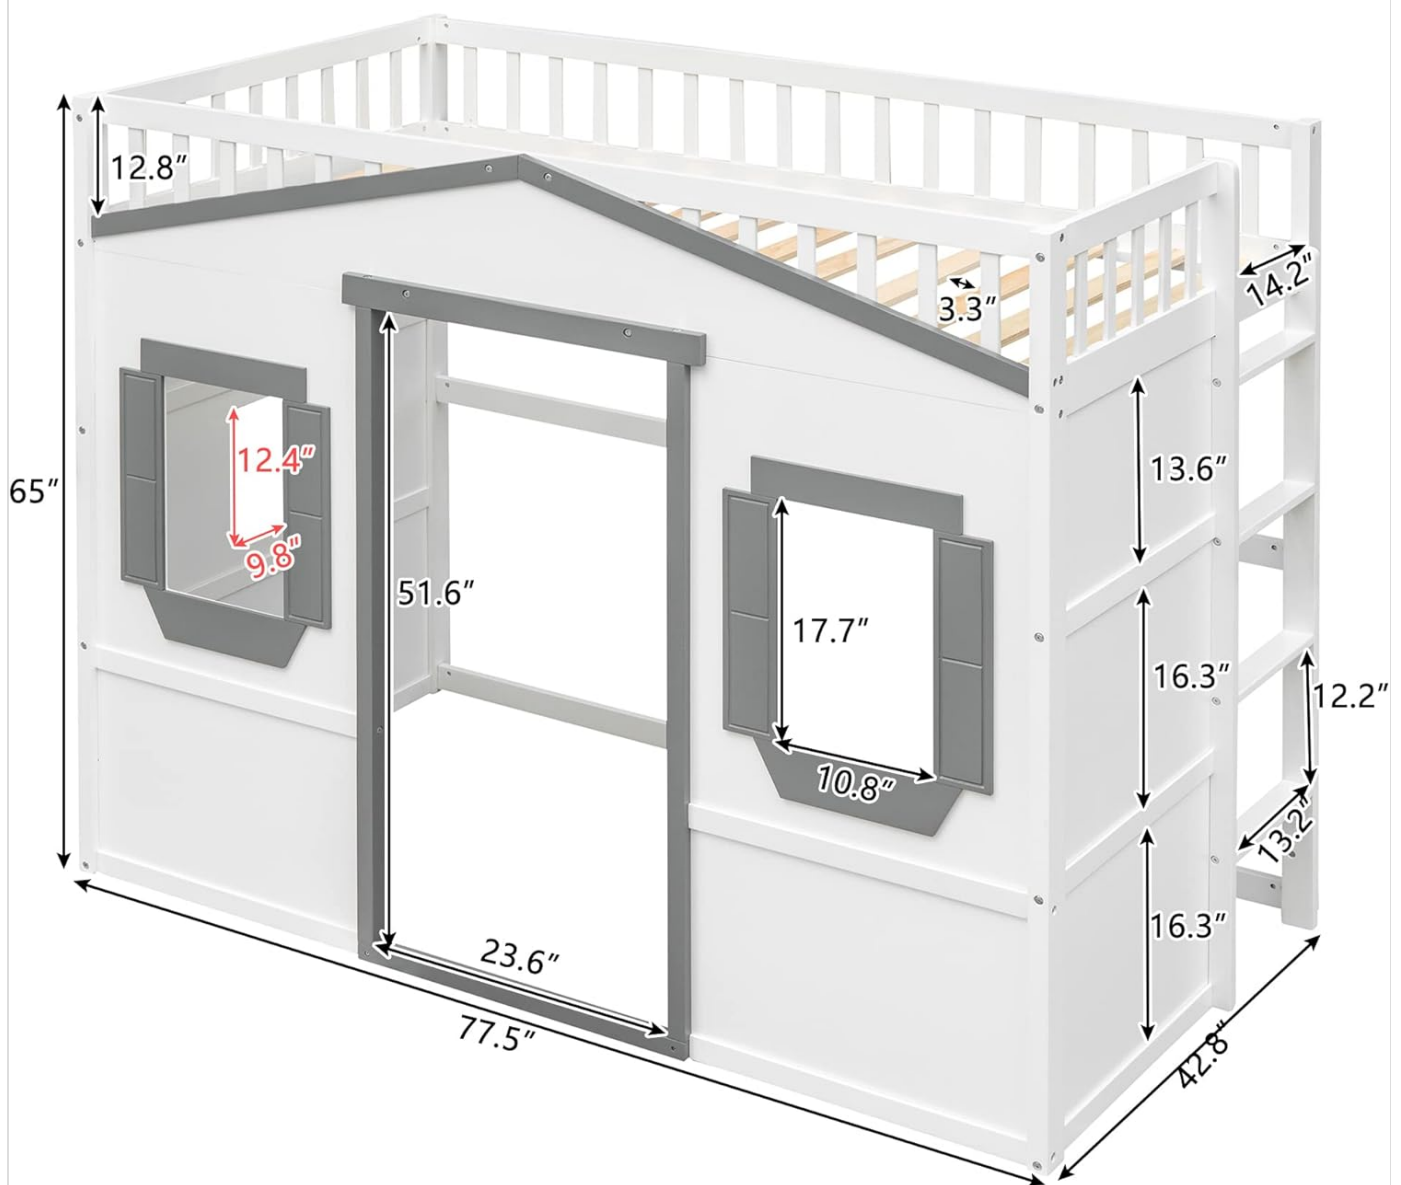

Image: A Mirightone Twin Size House Loft Bed set up in a child's bedroom, demonstrating its use as both a bed and a play space.

Regular maintenance will help prolong the life and appearance of your Mirightone Twin Size House Loft Bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Dusting:** Dust regularly with a dry, soft cloth.
- **Hardware Check:** Periodically check all bolts, screws, and fasteners to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.
- **Avoid Moisture:** Protect the bed from excessive moisture and direct sunlight to prevent warping or fading.

## TROUBLESHOOTING

If you encounter any issues with your Mirightone Twin Size House Loft Bed, refer to the following common solutions:

- **Wobbling or Instability:**
  - Ensure all assembly hardware (screws, bolts) is fully tightened.
  - Verify that the bed is placed on a flat, level surface.
- **Squeaking Noises:**
  - Re-tighten all hardware. Loose connections are a common cause of squeaking.
  - Check if the mattress is properly seated on the slats.
- **Missing or Damaged Parts:**
  - If you received any damaged or missing parts, please contact Mirightone customer support immediately for assistance.
