NOBO NTL4T 20 2000W Electric Heater User Manual

Model: NTL4T 20 (82440620)

[Introduction](#) [Safety](#) [Setup](#) [Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty](#)

1. INTRODUCTION

Thank you for choosing the NOBO NTL4T 20 2000W Electric Heater. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new electric heater. Please read this manual thoroughly before using the appliance and retain it for future reference.

The NOBO NTL4T 20 is a 2000W flat panel electric heater featuring an electronic thermostat and a top air outlet for effective heating. It is designed for silent operation and includes an electronic room sensor for precise temperature control.

Image 1.1: The NOBO NTL4T 20 Electric Heater seamlessly integrated into a living room environment, mounted on a wall beneath a window.

2. IMPORTANT SAFETY INFORMATION

To reduce the risk of fire, electric shock, or injury, always follow these basic precautions:

- Read all instructions before using this heater.
- Do not use this heater outdoors.
- This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.
- Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains at least 1 meter (3 feet) from the front of the heater and keep them away from the sides and rear.
- Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating and unattended.
- Do not operate any heater with a damaged cord or plug or after the heater malfunctions, has been dropped or damaged in any manner. Return heater to authorized service facility for examination, electrical or mechanical adjustment, or repair.
- Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Arrange cord away from traffic area and where it will not be tripped over.
- To disconnect heater, turn controls to off, then remove plug from outlet.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
- A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable vapors or liquids are used or stored.
- Use this heater only as described in this manual. Any other use not recommended by the manufacturer

may cause fire, electric shock, or injury to persons.

- Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).

3. PACKAGE CONTENTS

Upon unpacking your NOBO NTL4T 20 Electric Heater, please ensure all components are present and undamaged. If any items are missing or damaged, contact your retailer immediately.

- NOBO NTL4T 20 2000W Electric Heater Unit
- Wall Mounting Bracket(s)
- Mounting Screws and Wall Plugs
- User Manual (this document)

4. INSTALLATION AND SETUP

The NOBO NTL4T 20 heater is designed for wall mounting. Ensure the installation location complies with all safety regulations and provides adequate clearance from combustible materials.

4.1 Choosing a Location

- Select a wall location that is firm and can support the weight of the heater (approximately 8 kg).
- Ensure there is a suitable power outlet nearby.
- Maintain a minimum distance of 1 meter (3 feet) from curtains, furniture, and other flammable objects.
- Avoid installing directly below an electrical outlet.

4.2 Wall Mounting Steps

1. Carefully remove the heater from its packaging.
2. Attach the wall mounting bracket(s) to the rear of the heater according to the instructions provided with the bracket.
3. Hold the heater with the attached bracket against the wall at the desired height and mark the drilling points. Use a spirit level to ensure it is straight.
4. Drill holes at the marked points using an appropriate drill bit for your wall type. Insert wall plugs if necessary.
5. Secure the heater to the wall using the provided screws, ensuring it is firmly attached and level.
6. Once mounted, plug the heater into a grounded electrical outlet.

Image 4.1: The NOBO NTL4T 20 Electric Heater installed on a wall, demonstrating its compact and unobtrusive design.

5. OPERATING INSTRUCTIONS

The NOBO NTL4T 20 features an electronic thermostat for precise temperature control and silent operation.

5.1 Control Panel Overview

Image 5.1: A detailed view of the heater's electronic control panel, showing the digital display and control buttons.

The control panel typically includes:

- **Digital Display:** Shows the current temperature, set temperature, or operating mode.
- **Power Button:** Turns the heater on or off.
- **Temperature Adjustment Buttons (+/-):** Used to increase or decrease the desired room temperature.

- **Mode Button:** Cycles through different operating modes (if available, e.g., Comfort, Eco, Frost Protection).

5.2 Setting the Temperature

1. Ensure the heater is plugged in and the power is on.
2. Press the Power button to activate the heater. The display will show the current room temperature.
3. Use the + or - buttons to adjust the desired temperature. The display will show the set temperature as you adjust it.
4. The heater will automatically maintain the set temperature using its electronic room sensor. It will cycle on and off as needed to achieve and maintain the desired warmth.

5.3 Advanced Features (if applicable)

Your heater may include additional features such as:

- **Programmable Timer:** Allows you to set specific heating schedules. Refer to the detailed instructions for programming.
- **Open Window Detection:** Automatically reduces heating if a sudden drop in temperature (e.g., open window) is detected.
- **Child Lock:** Prevents accidental changes to settings.

Consult the specific instructions provided with your heater for details on these advanced functions.

6. MAINTENANCE

Regular maintenance ensures the longevity and efficient operation of your NOBO NTL4T 20 Electric Heater.

6.1 Cleaning

- Always unplug the heater and allow it to cool completely before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- Do not immerse the heater in water or allow water to drip into the interior.
- Periodically vacuum the air intake and outlet grilles to remove dust and lint buildup.

6.2 Storage

If storing the heater for an extended period, unplug it, clean it thoroughly, and store it in a cool, dry place, preferably in its original packaging.

7. TROUBLESHOOTING

If you experience issues with your NOBO NTL4T 20 heater, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Heater does not turn on.	No power supply. Power button not pressed.	Check if the heater is properly plugged into a working outlet. Check circuit breaker. Press the power button on the control panel.

Problem	Possible Cause	Solution
Heater is on but not heating.	Set temperature is lower than room temperature. Overheat protection activated.	Increase the set temperature using the '+' button. Unplug the heater, allow it to cool for 30 minutes, and check for any obstructions around air inlets/outlets. Plug back in.
Heater makes unusual noises.	Dust buildup. Loose components.	Unplug and clean the air grilles. If noise persists or is loud, discontinue use and contact customer support.
Display shows an error code.	Internal malfunction.	Note the error code and contact customer support for assistance.

If the problem persists after attempting these solutions, please contact NOBO customer support.

8. PRODUCT SPECIFICATIONS

Key technical specifications for the NOBO NTL4T 20 2000W Electric Heater:

Feature	Specification
Brand	Nobo
Model Number	82440620
Power Output	2000W
Color	White
Product Dimensions (D x W x H)	40D x 102W x 6H cm (approximate, based on 40D x 6G x 102Y cm)
Weight	8 Kilograms
Thermostat Type	Electronic, Changeable
Special Features	Silent operation, Electronic room sensor, Top air outlet

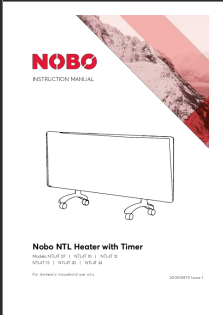

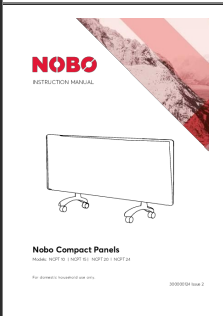

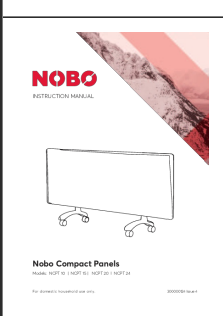

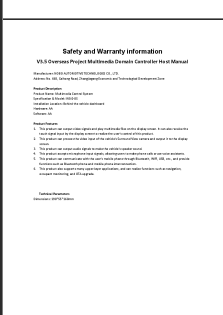

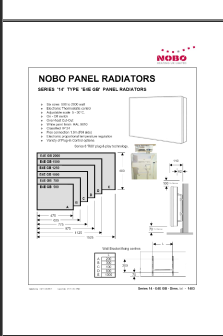

9. WARRANTY AND SUPPORT

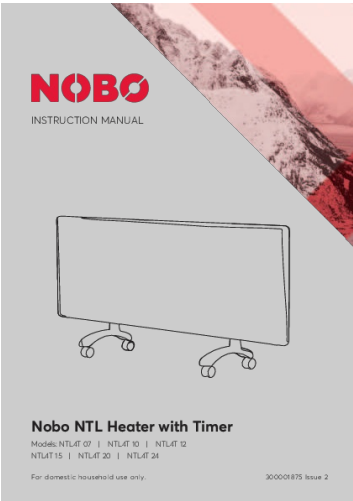

Your NOBO NTL4T 20 Electric Heater comes with a manufacturer's warranty. Please refer to the warranty card included with your purchase for specific terms and conditions, including the warranty period and coverage details.

For technical support, service, or warranty claims, please contact your retailer or the NOBO customer service department. Ensure you have your proof of purchase and the product model number (NTL4T 20 or 82440620) ready when contacting support.
