Note: A wall charger/power adapter is not included and must be purchased separately.

SETUP

1. Inserting the SIM Card and MicroSD Card

To begin using your phone, you will need to insert a Nano-SIM card. The device also supports a MicroSD card for expandable storage up to 1TB.

1. Locate the SIM card tray on the side of your device.

2. Insert the provided SIM ejector tool into the small hole next to the tray and push gently until the tray pops out.
3. Place your Nano-SIM card(s) and/or MicroSD card into the designated slots on the tray, ensuring they are correctly oriented.
4. Carefully slide the tray back into the device until it clicks into place.

2. Powering On/Off

To power on your device, press and hold the Power/Lock button (located on the side) until the Samsung logo appears. To power off, press and hold the Power/Lock button, then select 'Power off' from the options on the screen.

3. Initial Setup

Upon first powering on your device, follow the on-screen prompts to complete the initial setup. This includes selecting your language, connecting to a Wi-Fi network, signing in with your Google account, and setting up security features.
