Bellemave Twin Size House Bed Frame Instruction Manual

Model: FST00089-T-AN1 | Brand: Bellemave

INTRODUCTION

Thank you for choosing the Bellemave Twin Size House Bed Frame. This floor bed features a unique playhouse design with a roof and fence, providing a comfortable and engaging sleeping environment for children. Constructed from sturdy pinewood, it offers stability and durability. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure safe and proper use of your new bed frame.

SAFETY INFORMATION

WARNING: This bed frame has a maximum weight capacity of 400 pounds. It is equipped with 7 slats, which may present pinch points if not handled carefully. Proper assembly is crucial to prevent instability or collapse. Always follow the assembly instructions precisely and regularly inspect the bed frame for any potential hazards, loose screws, or damaged parts. Ensure all connections are tight before use. This product is intended for children aged 6 and above. Keep small children away during assembly. Do not allow children to play on or under the bed frame during assembly.

PACKAGE CONTENTS

Before beginning assembly, please ensure all parts are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.

- Wood Bed Frame Components (posts, rails, roof beams)

- Guardrails
- Bed Slats (7 pieces)
- Hardware Pack (screws, bolts, nuts, Allen wrench)
- Instruction Manual

Tools Required (not included): Phillips head screwdriver, Hammer (optional, for dowels if applicable).

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly should be performed by two adults. Clear a spacious area for assembly. Do not overtighten screws until all parts are loosely connected, then tighten fully.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent scratches. Refer to the included parts list to identify each piece.
2. **Assemble the Base Frame:** Connect the long side rails to the headboard and footboard posts using the provided hardware. Ensure all connections are secure but do not fully tighten yet.
3. **Install Guardrails:** Attach the guardrails to the designated sides of the bed frame. Pay attention to the orientation of the opening for entry/exit.
4. **Attach Bed Slats:** Place the 7 bed slats across the support beams within the frame. Secure them using the provided screws. Ensure even spacing for proper mattress support.
5. **Construct the Roof Frame:** Assemble the roof beams according to the diagrams, connecting them to the top of the bed posts.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all screws and bolts. Do not overtighten to avoid stripping the wood.
7. **Inspect:** Double-check all connections for tightness and stability. Ensure there are no sharp edges or protruding hardware.

OPERATING INSTRUCTIONS

This bed frame is designed for use with a standard Twin size mattress. No box spring is needed as the bed slats provide adequate support.

- **Mattress Placement:** Carefully place a Twin size mattress onto the bed slats. Ensure the mattress fits snugly within the frame without large gaps.
- **Weight Limit:** Do not exceed the maximum weight recommendation of 400 pounds.
- **Supervision:** Always supervise young children when they are using the bed, especially during initial use.

MAINTENANCE

Regular maintenance will prolong the life and safety of your bed frame.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically check all screws and bolts to ensure they remain tight. Retighten as necessary.
- **Damage Inspection:** Regularly inspect the wood frame and slats for any signs of cracks, splinters, or damage. Replace damaged parts immediately.

TROUBLESHOOTING

If you encounter issues with your Bellemave Twin Size House Bed Frame, refer to the following common solutions:

- **Bed feels unstable or wobbly:** Ensure all screws and bolts are fully tightened. Re-check assembly steps to confirm all parts are correctly aligned.
- **Mattress does not fit properly or has a large gap:** Verify that you are using a standard Twin size mattress. Some mattresses may vary slightly in dimensions. If the gap is significant, ensure the bed frame was assembled squarely.
- **Squeaking noises:** Tighten all hardware. If squeaking persists, apply a small amount of lubricant (e.g., paraffin wax) to the joints where wood meets wood or wood meets metal.
- **Damaged parts:** Do not attempt to repair severely damaged structural components. Contact customer support for replacement parts.

SPECIFICATIONS

Model Number	FST00089-T-AN1
Size	Twin
Material	Wood (Pinewood)
Product Dimensions (L x W x H)	79.5" x 41.8" x 62.9"
