Miroddi MF38

Miroddi MagSafe Wallet Instruction Manual

Model: MF38 | Brand: Miroddi

INTRODUCTION

This instruction manual provides detailed information on the setup, operation, maintenance, and troubleshooting of your Miroddi MagSafe Wallet. Designed for seamless integration with Apple iPhone 12 series and newer, this wallet combines secure card storage with advanced tracking capabilities.

SETUP GUIDE

1. Initial Pairing with Apple Find My

The Miroddi MagSafe Wallet is equipped with Apple Find My technology. To pair, ensure your iPhone or iPad is updated to the latest iOS version. Bring the wallet close to your device, and a one-click setup prompt will appear. Follow the on-screen instructions to connect the wallet to your Find My network.

Works with Full Find My

Global Reach, Accuracy & Security

Works with
Apple Find My

Kindly Note: Android devices
are not supported

2. Charging the Wallet

The wallet contains a rechargeable Lithium Ion battery. To charge, place the wallet on a compatible wireless charger. A full charge takes approximately 1.5 hours and provides up to 5 months of battery life. Note: A wireless charger is not included.

Slim & Lightweight

A good size fits comfortably in your pocket!

Image: The Miroddi MagSafe Wallet placed on a wireless charging pad, illustrating the wireless charging capability.

3. Attaching to iPhone

The wallet features a strong magnetic hold (up to 20 N) for secure attachment. Align the wallet with the MagSafe area on the back of your iPhone (iPhone 12 series and newer). It will snap firmly into place. For optimal magnetic connection, use a MagSafe-compatible case or no case. Non-magnetic cases are not supported.

Simple Life

OPERATING INSTRUCTIONS

1. Storing and Accessing Cards

The Miroddi MagSafe Wallet can comfortably store up to 7 cards and some cash. To access cards, use the thumb slot at the bottom to push them up. The integrated privacy flap ensures cards remain secure and prevents accidental exposure of private information, even if the wallet is inverted.

Ultra Strong Magnetic

Almost Treble as magnetic as others

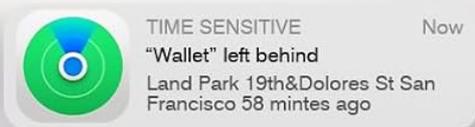

Image: A hand demonstrating how to easily access a card from the Miroddi MagSafe Wallet using the thumb slot.

2. Utilizing Find My Features

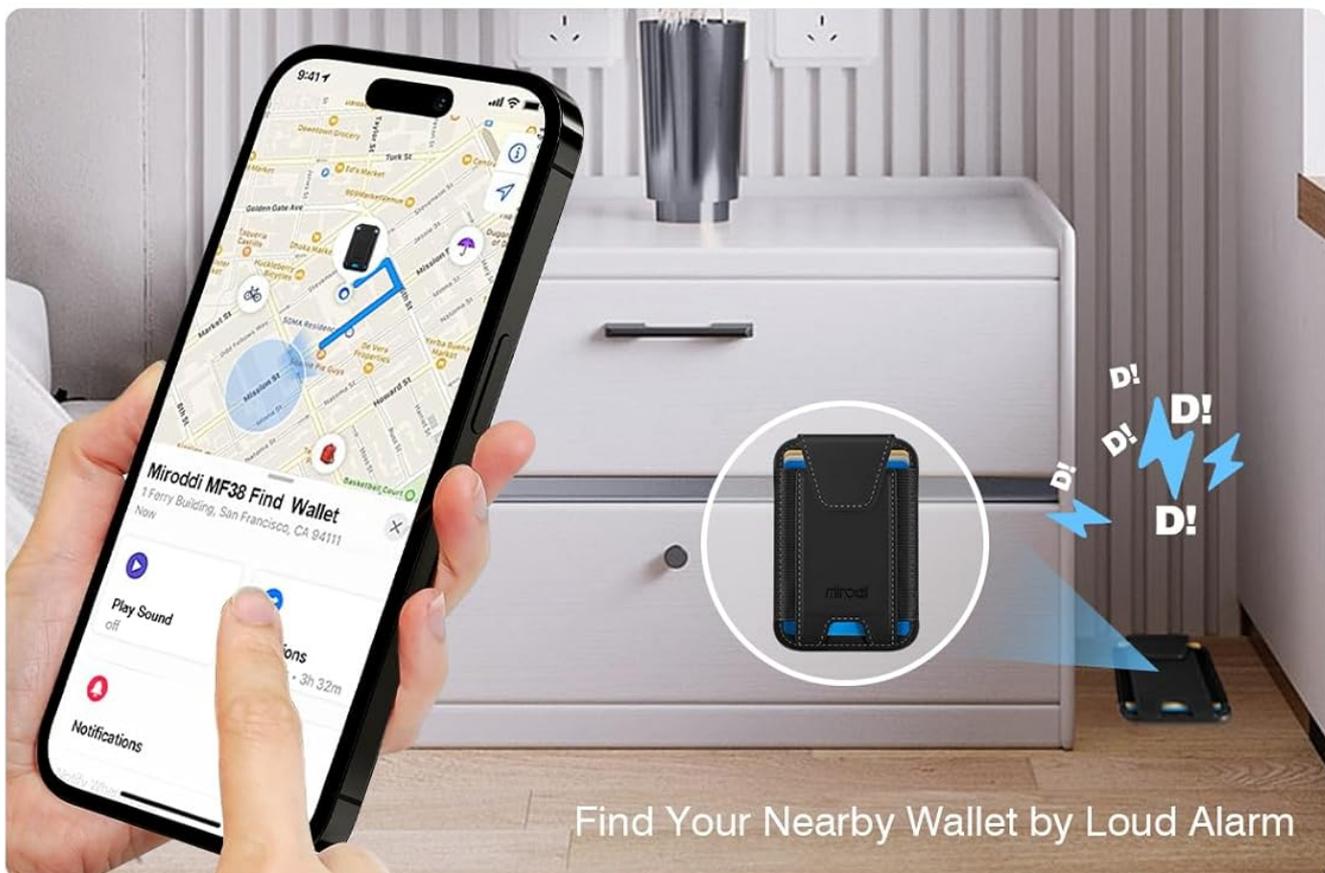

Once paired, the Find My app provides several functionalities to locate your wallet:

- **Left-behind alerts:** Receive immediate notifications on your iPhone if your wallet is separated from your device.
- **Play Sound:** Activate a sound from the wallet to help locate it when it's nearby.
- **Directions:** Obtain directions to the wallet's last known location on a map if it is out of range.

Left behind Remind

A notification card with a green circular icon on the left. The text reads: "TIME SENSITIVE" in all caps, "Now" on the right, "‘Wallet’ left behind" in quotes, and "Land Park 19th&Dolores St San Francisco 58 mintes ago" below.

Find Your Nearby Wallet by Loud Alarm

CARE AND MAINTENANCE

1. RFID Blocking Protection

The Miroddi MagSafe Wallet incorporates RFID blocking technology to safeguard your credit cards from unauthorized scanning and prevent demagnetization. This feature helps protect your personal and financial data.

Smart Card Storage

Conveniently holds up to 7 cards and cash

Image: The Miroddi MagSafe Wallet shown with a credit card, emphasizing its RFID blocking capability to keep cards safe from unauthorized scanning.

2. Cleaning Instructions

To maintain the appearance and longevity of your wallet, wipe it gently with a soft, slightly damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the leather material. Allow the wallet to air dry completely before use.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Wallet not attaching securely to iPhone.	Non-MagSafe compatible phone model or case. Weak magnetic connection.	Ensure your iPhone is an iPhone 12 series or newer. Use a MagSafe-compatible case or no case. The wallet's magnetic force is 20N, which is designed for a strong hold.
Find My feature not working or wallet not discoverable.	Wallet battery low or not charged. Incorrect pairing.	Charge the wallet using a wireless charger. Re-pair the wallet with your iPhone via the Find My app. Ensure Bluetooth is enabled on your iPhone.
Cards falling out of the wallet.	Wallet overloaded or privacy flap not properly closed.	Ensure no more than 7 cards are stored. Always close the privacy flap to secure cards.

Slim & Lightweight

Fits comfortably in your pocket.
