6. MAINTENANCE

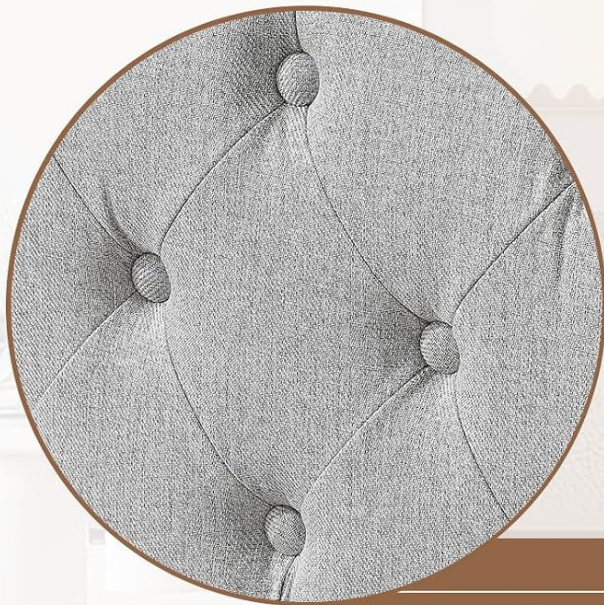

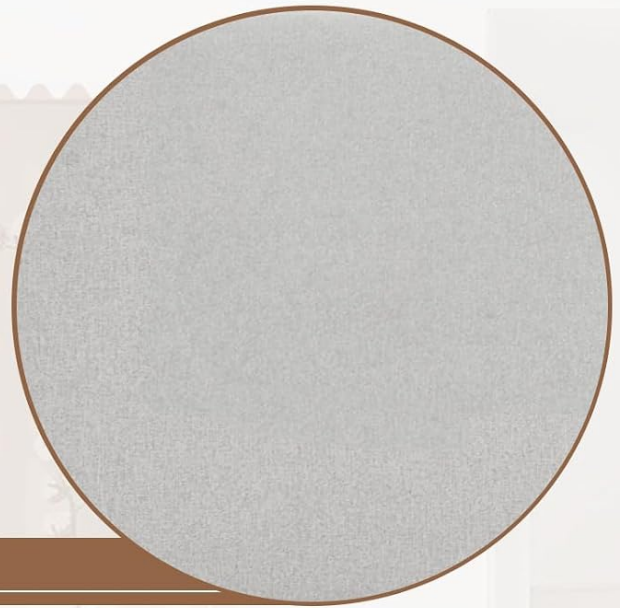

6.1. Cleaning the Upholstery

- For general cleaning, vacuum the linen fabric regularly using an upholstery attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain.
- For tougher stains, use a mild fabric cleaner specifically designed for linen upholstery. Test on an inconspicuous area first.

- Avoid using harsh chemicals or abrasive cleaners, as these can damage the fabric.

The daybed is made of high-quality linen fabric, which is breathable and skin-friendly. Filled with high-density sponge, soft and comfortable.

- Wipe the wooden and metal components with a soft, damp cloth. Avoid excessive moisture.
- Keep the bed away from direct sunlight and heat sources to prevent fading or material degradation.

7. TROUBLESHOOTING

If you encounter any issues with your day bed, please refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all bolts and screws. Ensure all components are correctly assembled.
Trundle or drawers are difficult to pull out/push in.	Obstruction, misaligned tracks, or dirty wheels.	Check for any items blocking the path. Clean wheels and tracks. Ensure the trundle/drawers are properly aligned in their runners.
Squeaking noises.	Loose connections or friction between parts.	Tighten all hardware. Apply a small amount of lubricant (e.g., silicone spray) to metal-on-metal contact points if necessary, avoiding upholstery.

If the issue persists after attempting these solutions, please contact customer support.
