4. Setup and Assembly Instructions

Assembly is required for this product. It is recommended that two adults perform the assembly. All necessary tools are included. Please follow the steps carefully.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the included parts list to identify each piece.
2. **Assemble Main Daybed Frame:** Connect the upholstered headboard and side panels using the provided hardware. Ensure all connections are snug but do not overtighten until all parts are aligned.
3. **Install Main Daybed Slats:** Place the wooden slats across the main daybed frame. Secure them according to the instructions, typically by screwing them into the side rails or using pre-drilled holes.
4. **Assemble Trundle Frame:** Construct the trundle bed frame, including its side panels and wheels, using the designated hardware.
5. **Install Trundle Slats:** Secure the wooden slats onto the trundle frame.
6. **Position Trundle:** Carefully slide the assembled trundle bed under the main daybed frame. Ensure the wheels move freely and the trundle can be easily extended and retracted.

5. Operating Instructions

This daybed is designed for both seating and sleeping purposes, with an integrated trundle for additional accommodation.

- **Mattress Requirements:** The main daybed accommodates a Full-size mattress. The trundle bed accommodates a Twin-size mattress. Ensure mattresses are within the recommended dimensions to fit properly and allow the trundle to retract.
- **Extending the Trundle:** To use the trundle bed, gently pull the front panel of the trundle outwards from under the main daybed. The wheels will allow it to roll out smoothly.
- **Retracting the Trundle:** To store the trundle, push it back under the main daybed until it is fully nested.
- **Weight Capacity:** The main daybed has a weight limit of 600 pounds. The trundle bed has a separate weight limit, typically lower than the main bed. Do not overload either bed.

6. Maintenance

Proper care and maintenance will extend the life of your daybed.

- **Cleaning Upholstery:** The velvet upholstery can be spot cleaned with either a solvent-based cleaner (S) or a water-based cleaner (W). Test any cleaning solution on an inconspicuous area first. Do not saturate the fabric.
- **General Cleaning:** Vacuum the upholstery regularly using a soft brush attachment to remove dust and debris.
- **Frame Care:** Wipe the frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.

7. Troubleshooting

If you encounter any issues with your daybed, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose hardware. Check and tighten all bolts and screws on both the main daybed and the trundle frame.
- **Trundle Not Moving Smoothly:** Ensure the trundle wheels are free of debris. Check for any obstructions under the daybed that might impede the trundle's movement. Verify that the trundle frame is assembled correctly and not warped.
- **Stability Issues:** If the daybed feels unstable, re-check all connections and ensure they are fully tightened. Confirm that the daybed is placed on a flat, level surface.
- **Missing Parts:** If you find any parts missing during assembly, do not attempt to force assembly. Contact customer support immediately for replacement parts.
