HiSpyCam S53

Hidden Camera Clock Instruction Manual

Model: S53

1. PRODUCT OVERVIEW

The HiSpyCam Hidden Camera Clock (Model S53) is a discreet, full HD 1080P wireless secret camera designed for home indoor security. It features strong night vision, motion detection, and remote access capabilities, making it ideal for monitoring children, family, and property without being noticed.

Figure 1: The HiSpyCam Hidden Camera Clock, showing its discreet design and a smartphone displaying its live video feed.

Figure 2: Key features of the Hidden Camera Clock, including Privacy Mode, FHD 1080P resolution, 140-degree viewing angle, 3000mAh battery, AI Motion Sensor, Instant Alerts, Remote Access, Night Vision, Video/Snapshot capability, and Local Storage.

2. PACKAGE CONTENTS

Please verify that all items are present in the package:

- 1 x Hidden Camera Clock (Model S53)
- 1 x Charging Cable

3. SETUP AND INSTALLATION

The Hidden Camera Clock is designed for easy installation and connection. Follow these steps to set up your device.

3.1 Initial Setup

1. **Charge the Device:** Before first use, fully charge the camera using the provided charging cable.
2. **Insert Micro SD Card (Optional):** For local recording, insert a Micro SD card (up to 256GB, not included) into the designated slot.
3. **Download the App:** Download the free companion app to your mobile phone. Refer to the packaging or a quick start guide for the specific app name or QR code.

3.2 Connection Methods

The camera supports multiple connection methods to suit your needs:

Three Connection Methods

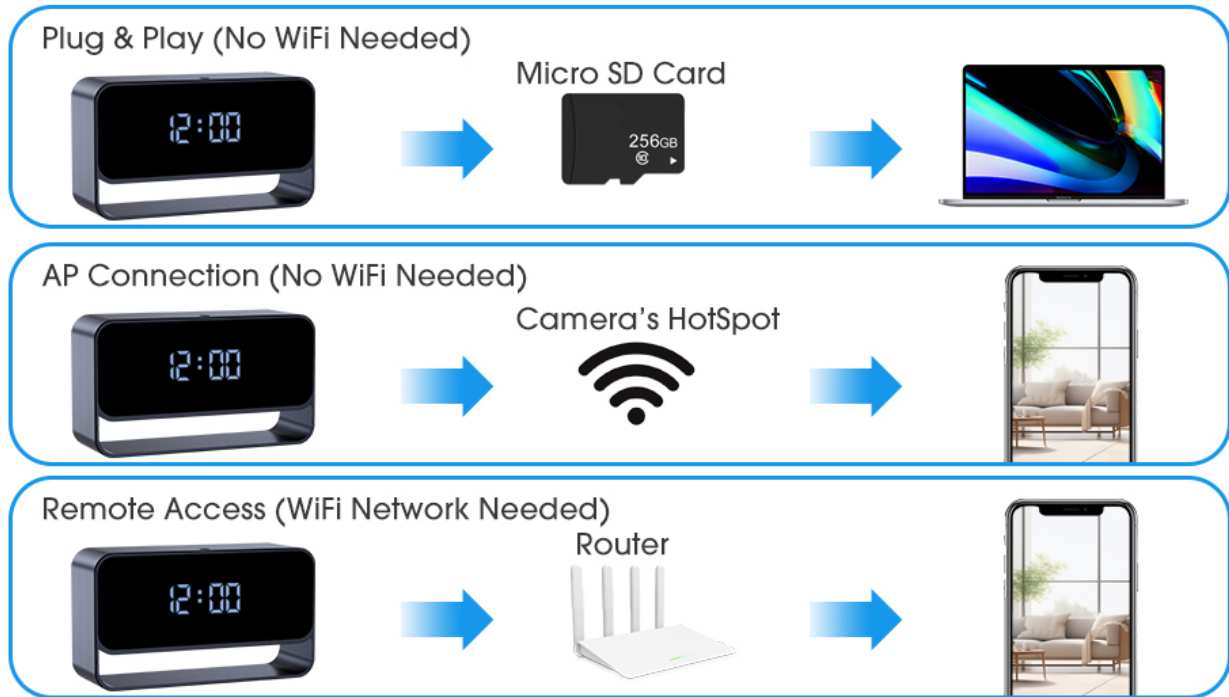

Figure 3: Three primary connection methods: Plug & Play (Micro SD Card), AP Connection (Camera's Hotspot), and Remote Access (WiFi Network).

- **Plug & Play (No WiFi Needed):** Insert a Micro SD card to record video directly to the card. Footage can be viewed by connecting the card to a computer.
- **AP Connection (No WiFi Needed):** Connect your phone directly to the camera's built-in Wi-Fi hotspot for local viewing within a short range.
- **Remote Access (WiFi Network Needed):** Connect the camera to your home's 2.4GHz Wi-Fi network. This allows you to live stream footage and access features from anywhere in the world via the app.

For remote access, ensure your Wi-Fi network is 2.4GHz. The camera does not support 5GHz networks.

4. OPERATING INSTRUCTIONS

Learn how to use the various features of your Hidden Camera Clock.

4.1 Live Streaming and Remote Viewing

Once connected to your Wi-Fi network, you can view live footage from your smartphone.

Remote Access and Live Video Viewing through the App

Figure 4: Remote access allows live video viewing through the dedicated mobile application, providing real-time monitoring from any location.

Figure 5: The camera's live feed can be accessed and viewed remotely on your smartphone, whether you are at home, in the office, or on the go.

4.2 Video Quality and Night Vision

The camera provides high-definition video and robust night vision capabilities.

- **1080P High-Definition:** Enjoy clear and detailed video footage.
- **Exceptional Night Vision:** The camera is equipped with invisible infrared lights for clear black and white video recording in low-light conditions, up to 15 feet.

Crystal Clear HD 1080P Image

Figure 6: The camera delivers crystal clear HD 1080P images, ensuring high-quality video capture.

Super Clear Night Vision

Invisible Infrared Lights

Figure 7: The camera provides super clear night vision through invisible infrared lights, allowing for discreet monitoring in dark environments.

4.3 Motion Detection and Alerts

The camera features intelligent motion detection to alert you to activity.

- **Motion Detection Alarm & Record:** The camera automatically records video when motion is detected in its field of view.
- **Instant Alerts:** Receive automatic alerts and snapshots via the app when motion is detected.

1080P HD Video with AI Motion Tracking Analysis

Figure 8: The camera captures 1080P HD video and utilizes AI motion tracking analysis to identify and highlight movement within its surveillance area.

Motion Notifications

Get automatic alerts and snapshots via the app when the camera detects motion.

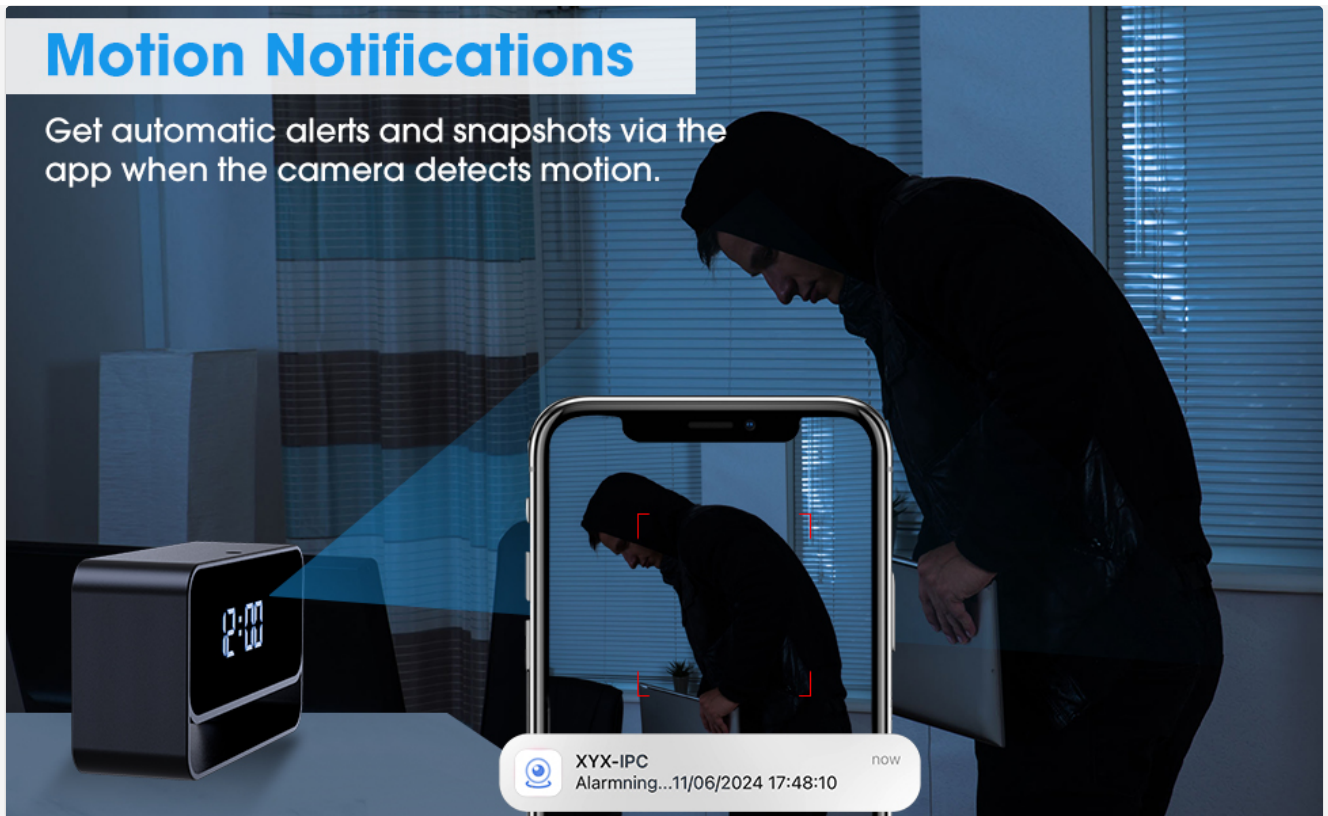

Figure 9: When motion is detected, the camera sends automatic alerts and snapshots directly to your mobile application, keeping you informed in real-time.

4.4 Versatile Applications

The discreet design makes this camera suitable for various indoor monitoring needs.

Figure 10: The Hidden Camera Clock is discreet and versatile, suitable for various indoor monitoring applications such as nursing home monitoring, nanny monitoring, home surveillance, and office surveillance.

- **Home Surveillance:** Monitor your living spaces.
- **Office Surveillance:** Keep an eye on your workspace.
- **Nanny Cam:** Discreetly monitor caregivers.
- **Baby Monitoring:** Check on your baby from another room.
- **Pet Monitoring:** Observe your pets' activities.

5. MAINTENANCE

To ensure optimal performance and longevity of your Hidden Camera Clock, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the device. Avoid using liquid cleaners or abrasive materials.
- **Placement:** Place the camera in a stable location, away from direct sunlight, extreme temperatures, and high humidity.
- **Software Updates:** Periodically check the companion app for firmware updates to ensure your device has the

latest features and security enhancements.

- **Battery Care:** If the device is not used for an extended period, charge it at least once every three months to maintain battery health.

6. TROUBLESHOOTING

If you encounter issues with your Hidden Camera Clock, refer to the following common solutions:

- **Camera Not Connecting to Wi-Fi:**
 - Ensure your Wi-Fi network is 2.4GHz. The camera does not support 5GHz.
 - Check that the Wi-Fi password entered in the app is correct.
 - Move the camera closer to the Wi-Fi router to improve signal strength.
 - Restart both the camera and your router.
- **No Live View in App:**
 - Verify the camera is powered on and connected to Wi-Fi.
 - Check your internet connection on your smartphone.
 - Close and reopen the app, or reinstall it if necessary.
- **Motion Detection Not Working:**
 - Ensure motion detection is enabled in the app settings.
 - Adjust the motion detection sensitivity settings.
 - Check for any obstructions in the camera's field of view.
- **SD Card Not Recording:**
 - Ensure the Micro SD card is inserted correctly.
 - Format the Micro SD card through the app settings.
 - Check if the SD card is full; if so, back up data and format it.
 - Ensure the SD card is a supported type (up to 256GB).

If these steps do not resolve your issue, please contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Name	Clock Camera
Indoor/Outdoor Usage	Indoor
