# uaue T60 Smartwatch Instruction Manual

Model: T60

Brand: uaue

## INTRODUCTION AND OVERVIEW

The uaue T60 Smartwatch is a versatile and stylish smart device designed for both men and women, emphasizing both fashion and functionality. It features a vibrant 1.91-inch HD TFT color screen, offering clear visuals and extensive customization options for watch faces. Stay connected effortlessly with Bluetooth 5.3 for direct calls and instant message notifications from your favorite apps. Beyond communication, the T60 is a comprehensive health companion, providing 24/7 monitoring of heart rate, blood oxygen levels, and detailed sleep analysis. It also includes a dedicated menstrual cycle tracking feature for women.

Designed for an active lifestyle, this smartwatch supports over 110 sports modes, accurately tracking your steps, distance, and calories burned. Its IP68 waterproof rating ensures durability against rain, sweat, and hand washing, making it suitable for various environments. Enjoy extended use with its long-lasting battery, offering 5-7 days of typical usage and up to 30 days on standby from a quick 2-hour magnetic charge. The uaue T60 is compatible with all iOS and Android smartphones, delivering a seamless and enjoyable user experience.

## SETUP

Before initial use, please ensure your uau T60 Smartwatch is fully charged using the provided magnetic charger. Simply align the charger with the magnetic points on the back of the watch until it snaps into place. A full charge typically takes about 2 hours.

To unlock the full potential of your smartwatch, download the "GloryFit" app on your iOS or Android smartphone. You can usually find a QR code in the included user manual to quickly access the app store page. Once installed, open the app and follow the on-screen instructions to pair your watch via Bluetooth. Ensure Bluetooth is enabled on your phone and keep the watch close during the pairing process. The app will guide you through connecting the "T60" device and enabling necessary permissions for calls and notifications.

*Smart Notification feature, showing app icons for various messaging and social media platforms.*

### Additional Functions

The smartwatch includes several convenient features accessible through its interface:

- **Voice Assistant:** Interact with your phone's voice assistant directly from the watch.
- **Music Control:** Play, pause, skip tracks, and adjust volume for music playing on your connected smartphone.
- **Weather:** Get real-time weather updates.
- **Alarm Clock:** Set alarms directly on your watch.

- **Remote Camera:** Use your watch as a remote shutter for your phone's camera.

*Voice Assistant and Music Play features on the uauw T60 Smartwatch.*

## HEALTH MONITORING

The T60 activity fitness tracker is equipped with a high-precision LC10A sensor for powerful and accurate infrared monitoring of key health metrics.

- **24/7 Heart Rate Monitor:** Continuously track your heart rate rhythm to better understand your cardiovascular health.
- **Blood Oxygen Saturation:** Monitor your SpO2 levels throughout the day.
- **Comprehensive Sleep Monitoring:** Track your full-night sleep cycles, including deep sleep, light sleep, and awake time, to analyze your sleep patterns.
- **Menstrual Cycle Tracking:** A dedicated function designed for women to help maintain a healthy life.

## SPORTS MODES

The uau T60 Smartwatch supports more than 110 sports modes, allowing you to track a wide range of activities. It measures real-time steps, distance, calories, heart rate, and blood oxygen during your workouts, helping you adjust training intensity for optimal results.

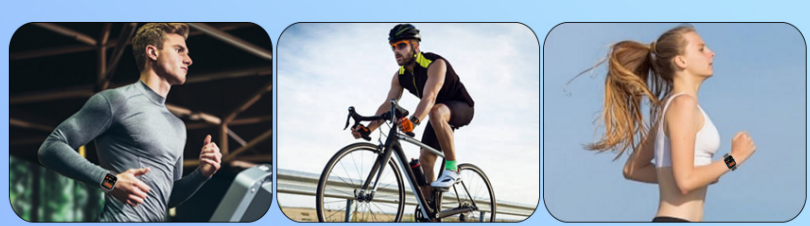

Examples of supported modes include running (outdoor/indoor), cycling, hiking, skipping, dancing, yoga, skiing, badminton, table tennis, tennis, mountaineering, and swimming. The IP68 waterproof design ensures the watch can withstand these activities without concern for water damage.

## 110+ Sports Mode

Say goodbye to the boredom of your workouts and explore a wide array sports modes, offering exciting new challenges for your fitness journey.

Over 110 Sports Modes available on the uau T60 Smartwatch.

## CUSTOMIZATION

Personalize your uauue T60 Smartwatch with its extensive customization options. The 1.91-inch HD screen allows for clear viewing of your chosen watch face.

- **200+ Online Watch Faces:** Choose from a wide variety of pre-designed watch faces available in the "GloryFit" app.
- **Custom DIY Dials:** Upload your favorite photos from your phone to use as personalized smartwatch backgrounds.

*Customized Watch Dial options for the uauue T60 Smartwatch.*

## BATTERY & WATERPROOFING

The T60 men's smartwatch is equipped with a high-performance Seiko battery, offering impressive endurance. With a fast magnetic charging system, a 2-hour charge provides 5-7 days of worry-free use under normal conditions, and up to 30 days of standby time, minimizing the need for frequent recharging.

The watch boasts an IP68 waterproof rating, ensuring it can withstand daily water exposure. This means you can wear it confidently while washing your hands, in the rain, or during sweaty workouts without concerns about water damage.

*Magnetic Charging and IP68 Waterproof features of the uauu T60 Smartwatch.*

## MAINTENANCE

To ensure the longevity and optimal performance of your uauu T60 Smartwatch, follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the screen and strap with a soft, dry, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive materials, or cleaning sprays, as these can damage the watch's finish and sensors.
- **Drying:** After exposure to water (e.g., rain, sweat, hand washing), ensure the watch is completely dry before charging to prevent corrosion of the charging contacts.
- **Storage:** When not in use for extended periods, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.
- **Strap Care:** If the strap becomes dirty, clean it with mild soap and water, then rinse thoroughly and allow it to air dry completely before reattaching to the watch.

## TROUBLESHOOTING

If you encounter issues with your uauu T60 Smartwatch, try the following solutions:

- **Connectivity Issues:** If the watch disconnects or fails to pair, ensure Bluetooth is enabled on your phone and the watch is within range. Try restarting both your phone and the smartwatch, then attempt to re-pair through the GloryFit app.
- **Call/Contact Sync Problems:** Some users have reported issues with contacts not working or calls not syncing. Ensure all necessary permissions are granted to the GloryFit app on your phone, especially for contacts and phone access. Try disabling and re-enabling Bluetooth call functionality within the app.
- **Inaccurate Pedometer/Activity Tracking:** If step counts or other activity metrics seem inaccurate, ensure the watch is worn snugly on your wrist. Calibrate the pedometer if the app offers this option. Note that some variations between watch and phone tracking can occur due to different sensor technologies and algorithms.

- **No Vibration for Alerts:** If you're not receiving vibration alerts for notifications, check the sound and vibration settings on your smartwatch and within the GloryFit app to ensure vibration is enabled for the desired alerts.
- **Battery Life Concerns:** If battery life is shorter than expected, review your usage. Frequent use of features like continuous heart rate monitoring, calls, and screen-on time can reduce battery duration. Adjust settings to optimize battery life if needed.
