### Loboo BWB50T

# Loboo BWB50T 50L Motorcycle Travel Waterproof Bag User Manual

Model: BWB50T | Brand: Loboo

## 1. INTRODUCTION

Thank you for choosing the Loboo BWB50T 50L Motorcycle Travel Waterproof Bag. This manual provides essential information for the proper setup, operation, and maintenance of your new waterproof bag. Please read these instructions carefully before use to ensure optimal performance and longevity of the product.

Image 1.1: Front view of the Loboo BWB50T 50L Motorcycle Travel Waterproof Bag in yellow.

## 2. SAFETY INFORMATION

- Ensure the bag is securely fastened to your motorcycle or other vehicle before travel. Loose bags

can cause accidents.

- Do not overload the bag beyond its recommended capacity (50 liters).
- Distribute weight evenly to maintain vehicle balance.
- Regularly inspect straps and buckles for wear and tear. Replace damaged components immediately.
- The reflective warning strips enhance visibility; however, always use appropriate lighting and follow traffic laws, especially during nighttime riding.

### 3. PRODUCT FEATURES

---

The Loboo BWB50T bag is designed with several features to enhance its utility and durability. Refer to the diagram below for a visual overview of key components.

*Image 3.0: Labeled diagram highlighting key features of the Loboo BWB50T bag, including storage pocket, handle strap, air release valve, shoulder strap, and reflective warning strips.*

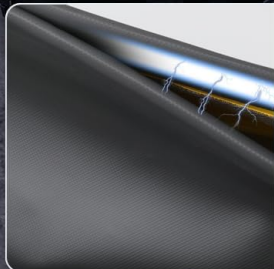

- **Magnetic Roll-Top Closure:** Features a patented magnetic suction opening technology for convenient and quick access, preventing clothing snagging. The magnetic strip provides stable suction, and the three-roll, two-buckle sealing mechanism ensures enhanced waterproofing.
- **Excellent Waterproof Performance:** Constructed from composite TPU waterproof fabric, offering IPX6 waterproof performance and strong weather resistance. This material maintains its flexibility at low temperatures, ensuring dry storage for your items.
- **Wet & Dry Separation Bag:** An internal compartment allows for the separation of wet and dry items, keeping your gear organized and protected.
- **Multi-Storage Space:** Includes an external storage net pocket and storage rope for additional items, increasing overall carrying capacity.
- **Multi-Directional Reflective Warning Strips:** High-brightness reflective design improves safety during nighttime travel.
- **Air Release System:** A front air release switch and valve allow for air expulsion from the bag, making bundling more secure and compact.
- **Anti-Slip Thickened Layer:** The bottom of the bag features a thickened layer to enhance hardness, anti-slip properties, and wear resistance.

## Loboo's patent—Magnetic rolltop closure

Excellent waterproof performance provides dry storage space.

Patent type: Patent for Utility Model  
Patent No.: ZL 2019 2 1740293.1

Loboo's motorcycle  
travel waterproof bag

### Built-in magnetic stripe

- Easier magnetic rolltop closure, avoid clothing hook injury.
- Stable magnetic strip suction, long-lasting.

**Anti-slip thickened layer**

*Image 3.4: Close-up of the anti-slip thickened bottom layer, designed for durability and stability.*

## 4. SETUP AND INSTALLATION

---

The Loboo BWB50T bag offers versatile carrying and mounting options:

### 4.1 Preparing the Bag

- Unpack the bag and all accessories, including the shoulder strap and quick-release straps.
- Familiarize yourself with the main compartment, the internal wet/dry separation bag, and the external mesh pocket.

## Product List Display-BWB50T

Shoulder Strap

Quick Release Strap

LOBOO Sticker

Vintage Keychain

### 4.2 Mounting on a Motorcycle

1. Place the loaded bag on the motorcycle's rear seat or luggage rack.
2. Use the provided quick-release straps to secure the bag firmly to the motorcycle. Thread the straps through the designated loops on the bag and around secure points on your motorcycle.
3. Tighten all straps to prevent movement during transit. Ensure the bag does not obstruct your view, controls, or passenger seating.
4. For optimal stability, utilize the external storage rope system to further secure the bag or additional items.

TPU Tail Bag

**TPU waterproof fabric  
No hardening at low  
temperature**

#### **4.3 Carrying Methods**

The bag supports multiple carrying methods for convenience off the motorcycle:

- **Hand Carry:** Use the reinforced web handles for easy transport.
- **Shoulder Carry:** Attach the adjustable shoulder strap to the D-rings on the bag for comfortable shoulder carrying.
- **Backpack Carry:** The design allows for carrying the bag vertically on your back, similar to a backpack, using the shoulder strap configuration.

## 5. OPERATION

---

### 5.1 Opening and Closing the Main Compartment

1. To open, unbuckle the two side buckles and unroll the top flap. The magnetic closure will release.
2. To close, roll the top edge down three times, ensuring a tight seal. Secure the two side buckles to compress and seal the bag.

### 5.2 Using the Air Release System

The air release valve allows you to compress the bag by expelling excess air, making it more compact and stable.

1. After loading and sealing the bag, locate the air release valve on the front.
2. Twist the valve cap to the "OPEN" position.
3. Gently press down on the bag to expel air.
4. Once the desired compression is achieved, twist the valve cap to the "CLOSE" position to seal.

### 5.3 Utilizing Wet & Dry Separation

The internal separation bag helps organize your items and protect dry contents from wet ones.

- Place wet items (e.g., damp clothes, muddy gear) into the designated wet compartment.
- Store dry items in the main compartment or the dry section of the internal bag.

# Wet & Dry separation

New wet and dry pocket inside, can separate dry and wet clothes.

*Image 5.1: View of the internal wet and dry separation compartment.*

## 6. MAINTENANCE

- **Cleaning:** Wipe the bag with a damp cloth and mild soap. Do not use harsh chemicals or abrasive cleaners. Rinse thoroughly and allow to air dry completely before storage.
- **Storage:** Store the bag in a cool, dry place away from direct sunlight when not in use. Ensure it is clean and dry to prevent mold or mildew.
- **Inspection:** Periodically check all straps, buckles, and seams for signs of wear, damage, or degradation. Address any issues promptly to maintain the bag's integrity and waterproof performance.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bag contents are damp.	Improper roll-top closure, damaged fabric, or open air valve.	Ensure the roll-top is rolled down at least three times and buckles are secured. Check for punctures or tears in the fabric. Confirm air valve is closed.
Bag feels unstable on motorcycle.	Straps not tightened sufficiently, uneven weight distribution.	Re-tighten all mounting straps. Redistribute contents for better balance. Use additional bungee cords if necessary.
Difficulty expelling air.	Air valve is closed or obstructed.	Ensure the air valve is twisted to the "OPEN" position. Check for any debris blocking the valve.

8. SPECIFICATIONS

Feature	Detail
Brand	Loboo
Model	BWB50T Motorcycle Travel Waterproof Bag
Capacity	50 Liters
Color	Yellow (also available in Black)
Material	Composite TPU waterproof fabric
Waterproof Rating	IPX6

Feature	Detail
Closure Type	Magnetic Roll-Top with Buckles
Special Features	Wet/Dry Separation, External Mesh Pocket, Air Release Valve, Reflective Strips, Anti-slip Bottom
50L Dimensions (Approx.)	54cm x 29cm x 32cm (21.26in x 11.42in x 12.6in)

Note: Errors in manual measurement are unavoidable, please refer to the actual product.

50L Dimensions

54cm × 29cm × 32cm/21.26in × 11.42in × 12.6in

80L Dimensions

65cm × 32cm × 38cm/25.59in × 12.6in × 14.96in
