## COMHOMA CH219-BIFMA

# COMHOMA Office Chair Instruction Manual

Model: CH219-BIFMA

This manual provides essential information for the setup, operation, and maintenance of your COMHOMA Office Chair.

### 1. SETUP AND ASSEMBLY

Your COMHOMA Office Chair is designed for easy assembly. All necessary tools and an illustrated manual are included in the package. Assembly can typically be completed by one person within 30 minutes.

#### Included Components:

- Backrest (1)
- Seat (1)
- Armrests (2)
- Gas Lift (1)
- Base (1)
- Wrench (1)
- Casters (5)
- Mechanism (1)
- Armrest Covers (2)
- Fixed Knobs (2)
- Various Screws (as per illustrated manual)

# AVOID SWEATY BACK

Breathable mesh back keeps you dry during long time sitting

Image: All components of the COMHOMA office chair laid out for assembly, showing the backrest, seat, armrests, gas lift, base, casters, mechanism, and tools.

## Assembly Steps:

1. **Attach Casters to Base:** Insert the five casters firmly into the holes at the end of each leg of the chair base.
2. **Install Gas Lift:** Place the gas lift cylinder into the central hole of the assembled base.
3. **Install Armrests to Backrest:** Secure the armrests to the backrest using the provided screws (M6\*25). Ensure they are firmly attached.
4. **Install Armrests to Seat:** Attach the armrests to the underside of the seat using the provided screws (M6\*30).
5. **Install Mechanism to Seat:** Secure the chair mechanism to the underside of the seat using the appropriate screws (M6\*20). Ensure the front of the mechanism aligns with the front of the seat.
6. **Connect Seat Assembly to Gas Lift:** Carefully place the assembled seat (with armrests and mechanism attached) onto the gas lift cylinder. Press down firmly to secure.
7. **Install Armrest Covers:** Attach the decorative armrest covers to complete the assembly.

## 2. OPERATING INSTRUCTIONS

The COMHOMA Office Chair is designed with multiple adjustable features to provide ergonomic comfort and adaptability for various users and tasks.

### Ergonomic Comfort:

The chair features an ergonomic design with curves that conform to your back, providing adaptive lumbar support. The breathable mesh back promotes airflow, preventing discomfort during extended use. The high-density foam cushion ensures comfortable seating for long periods.

## Adjustable Features:

- **90° Flip-up Armrests:** The armrests can be flipped up by 90 degrees, allowing the chair to be stowed under a desk to save space or to provide an armless seating option.

## 90° FLIP-UP Armrests

Flip-up armrests help to save room space for you

*Video: Demonstration of the flip-up armrests on the office chair, showing their functionality for space-saving and user preference.*

- **Height Adjustment:** Utilize the gas lift lever to adjust the seat height by 3.93 inches, accommodating various user heights and desk setups.
- **Tilt and Rocking Function:** Unlock the tilt function and adjust the rocking tension between 90° to 120° using the bottom knob. This allows for comfortable reclining.

## 30° Rocking

Relax during your downtime.

### 3. MAINTENANCE

Proper maintenance will extend the life and performance of your COMHOMA Office Chair.

- **Cleaning:** Wipe clean with a damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these may damage the mesh or fabric.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability and safety.
- **Caster Care:** Keep the casters free of debris (hair, dust, etc.) to ensure smooth rolling. Clean them regularly with a soft brush or cloth.

- **Gas Lift:** The SGS class-3 gas lift is designed for long-term safety and smooth operation. If you experience issues with height adjustment, ensure the lever is fully engaged.

#### 4. TROUBLESHOOTING

Here are some common issues and their solutions:

| Problem                           | Possible Cause                               | Solution                                                                                                                                          |
|-----------------------------------|----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Chair is wobbly or unstable.      | Loose screws or connections.                 | Tighten all assembly screws, especially those connecting the seat to the mechanism and the armrests.                                              |
| Difficulty adjusting seat height. | Gas lift not engaging properly or faulty.    | Ensure the height adjustment lever is fully pulled up or pushed down. If the issue persists, the gas lift may need replacement (contact support). |
| Casters not rolling smoothly.     | Debris caught in casters or worn out.        | Remove any hair or debris from the caster wheels. If still an issue, consider replacing the casters.                                              |
| Chair makes squeaking noises.     | Loose connections or friction between parts. | Tighten all screws. Apply a small amount of silicone-based lubricant to moving parts if necessary.                                                |

#### 5. SPECIFICATIONS

| Feature                       | Detail                                           |
|-------------------------------|--------------------------------------------------|
| Brand                         | COMHOMA                                          |
| Model Name                    | CH219-BIFMA                                      |
| Color                         | Pink Light                                       |
| Product Dimensions            | 21"D x 21"W x 39.37"H                            |
| Seat Size                     | 17.7" x 17.7"                                    |
| Seat Height                   | Adjustable, up to 21.25 Inches                   |
