INTRODUCTION

This manual provides essential information for the Hot Wheels 2024 #110 Chevrolet Silverado EV RST die-cast mini car. This 1:64 scale model is designed for collectors and enthusiasts, replicating the Chevrolet Silverado EV RST in a compact, durable form. Please read these instructions carefully to ensure proper handling and care of your model.

Image: The Hot Wheels 2024 #110 Chevrolet Silverado EV RST die-cast mini car, blue in color, displayed in its original blister packaging. The packaging features the Hot Wheels logo and "NEW FOR 2024" text, with a larger image of the truck's front on the card. The actual die-cast model is visible through the clear plastic blister, showcasing its detailed design and wheels.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts.

This product is not suitable for children under 36 months (3 years) due to small parts that may be generated or detached, posing a choking hazard. Adult supervision is recommended for all children playing with this product. Keep packaging materials away from children to prevent suffocation risks.

SETUP

- 1. Unpackaging:** Carefully remove the die-cast mini car from its blister packaging. Use scissors to cut around the edges of the plastic blister to avoid damaging the model.
- 2. Initial Inspection:** Examine the model for any visible defects or damage from shipping. While Hot Wheels models are

- generally robust, minor paint variations or decal imperfections can occur during manufacturing.
3. **Display or Play:** Once unpackaged, the model is ready for display or play. No assembly or batteries are required.

OPERATING INSTRUCTIONS

The Hot Wheels Chevrolet Silverado EV RST is a manual die-cast toy. Its operation is straightforward:

- **Movement:** Push the vehicle manually across flat surfaces. The wheels are designed for smooth rolling.
- **Compatibility:** This model is compatible with most Hot Wheels tracks and playsets. Ensure the track width is appropriate for 1:64 scale vehicles.
- **Display:** For collectors, the model can be displayed on shelves, in display cases, or as part of a diorama.

MAINTENANCE

- **Cleaning:** To clean the die-cast model, gently wipe it with a soft, dry cloth. For stubborn dust or grime, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause paint fading. Consider storing in a display case or original packaging to protect from dust and damage.
- **Handling:** Handle the model by its body rather than its wheels or delicate parts to prevent accidental damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Wheels do not roll smoothly.	Dust or debris in the axle, minor manufacturing imperfection.	Gently blow air into the wheel axles to dislodge debris. Avoid applying lubricants. If the issue persists, it may be a manufacturing variation.
Paint or decal imperfections.	Standard manufacturing variations for mass-produced die-cast models.	These are common and generally not considered defects. No specific solution is available for minor cosmetic variations.
Model appears damaged upon arrival.	Shipping damage or rare manufacturing defect.	Contact the retailer or manufacturer's customer support with proof of purchase and images of the damage for assistance.
