

## ADEKO Kids MBW

# ADEKO MBW 100x180 Kids Cabin Bed Instruction Manual

Model: MBW | Size: 100x180 cm

## 1. PRODUCT OVERVIEW

The ADEKO MBW 100x180 Kids Cabin Bed is a house-shaped bed frame designed to provide a comfortable and imaginative sleeping space for children. Constructed from durable pine wood, this bed combines functionality with an ecological design approach. Its unique structure encourages creativity and provides a sense of privacy and security, enhancing the sleeping experience.

## 2. SAFETY INFORMATION

---

Child safety is a primary concern in the design of the ADEKO MBW bed. Please adhere to the following safety guidelines:

- The wood used is robust, smooth, sanded, and brushed to prevent splinters.
- All edges are rounded to minimize the risk of injury.
- The bed is designed to support up to 90 kg (approximately 198 lbs).
- Suitable for children aged 3 years and older.
- Ensure all assembly components are securely fastened before use.
- Regularly check all screws and fittings to ensure they remain tight.

## 3. PACKAGE CONTENTS

---

Upon unpacking, please verify that all components listed below are present:

- Bed Frame Components (Pine Wood)
- Slatted Base (included)
- Assembly Kit (bolts, dowels, and necessary hardware)
- QR Code for Online Assembly Instructions

*Note: The mattress is not included.*

## 4. SETUP AND ASSEMBLY

---

The ADEKO MBW bed is designed for easy assembly. For environmental reasons, printed instructions are not included in the package. Detailed assembly instructions are available online.

1. **Access Instructions:** Locate the QR code included in your package. Scan this QR code with your smartphone or tablet to access the detailed online assembly instructions.
2. **Prepare Workspace:** Clear a spacious area for assembly. Ensure you have any basic tools required (e.g., screwdriver, if not included in the kit).
3. **Identify Components:** Refer to the online instructions to identify all bed frame components and hardware from the assembly kit.
4. **Follow Steps:** Carefully follow the step-by-step instructions provided online to assemble the bed frame.
5. **Install Slatted Base:** Once the frame is assembled, install the robust slatted base. This base provides essential support and balanced weight distribution for optimal comfort.
6. **Final Check:** After assembly, ensure all bolts and dowels are securely tightened. The bed should be stable and free from wobbling.

**Image 4.1:** The ADEKO MBW 100x180 Kids Cabin Bed fully assembled in a child's room, demonstrating its house-like structure.

## 5. OPERATING INSTRUCTIONS (GENERAL USE)

The ADEKO MBW bed is designed for daily use as a child's sleeping area. To ensure proper function and longevity:

- **Mattress Requirements:** The bed requires a mattress measuring 100x180 cm. The mattress thickness should not exceed 12 cm and is recommended to have a minimum thickness of 8 cm.
- **Weight Limit:** Do not exceed the maximum weight capacity of 90 kg.
- **Placement:** Place the bed on a flat, stable surface. Avoid placing it near heat sources or windows where cords or blinds could pose a strangulation hazard.
- **Supervision:** Always supervise young children when they are using the bed, especially during play.

## 6. MAINTENANCE

Regular maintenance will help preserve the quality and appearance of your ADEKO MBW bed:

- **Cleaning:** Wipe the wooden surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the wood finish.
- **Dusting:** Regularly dust the bed frame to prevent buildup.
- **Hardware Check:** Periodically check all screws, bolts, and connections to ensure they are tight. Retighten if necessary to maintain structural integrity.
- **Avoid Moisture:** Protect the bed from excessive moisture and direct sunlight to prevent warping or fading of the wood.

## 7. TROUBLESHOOTING

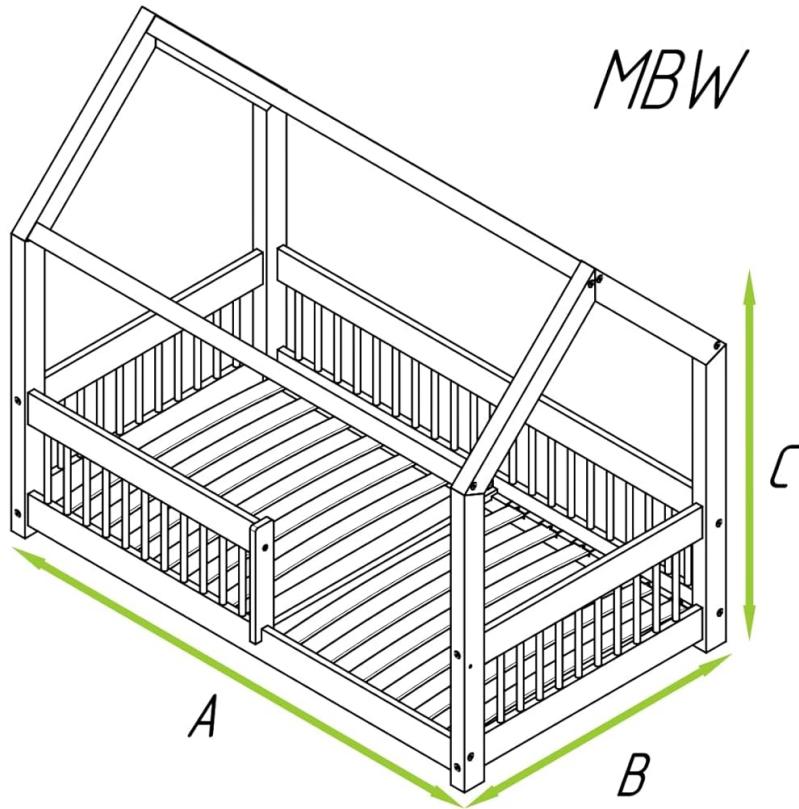

If you encounter any issues with your ADEKO MBW bed, consider the following common solutions:

- **Wobbling Bed:** If the bed feels unstable, re-check all assembly connections. Ensure all bolts and screws are fully tightened. Uneven flooring can also cause wobbling; try repositioning the bed or using furniture pads.
- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all hardware. Applying a small amount of furniture wax or silicone spray to joints can also help.
- **Missing Parts:** If you believe parts are missing from your package, refer to the online assembly instructions for a complete parts list. Contact ADEKO Kids customer support with details of the missing components.

## 8. SPECIFICATIONS
