

FOHERE HB-B106K

FOHERE Nut Milk Maker HB-B106K User Manual

Model: HB-B106K | Brand: FOHERE

INTRODUCTION

Welcome to the FOHERE Nut Milk Maker HB-B106K user manual. This automatic appliance is designed to simplify the process of making fresh, homemade plant-based milks, juices, and other beverages. With its powerful motor, versatile functions, and user-friendly design, you can enjoy nutritious drinks with ease. Please read this manual thoroughly before first use to ensure safe and optimal operation.

IMPORTANT SAFETY PRECAUTIONS

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Read all instructions before operating the appliance.
- Ensure the machine is correctly installed and the lid is securely locked before turning it on. The safety protection device prevents operation if not properly assembled.
- Do not immerse the main unit (base with motor and electrical components) in water or other liquids. This appliance is not dishwasher safe.
- Keep hands and utensils out of the container while blending to prevent severe injury.
- Do not exceed the maximum fill line indicated on the container to prevent overflow, especially when processing hot liquids.
- The appliance features an overheat protection system. If the temperature exceeds 266°F (130°C), it will automatically power off. Allow it to cool before resuming use.
- Use only the power cord provided with the appliance.

- Unplug the appliance from the outlet when not in use, before cleaning, or when adding/removing parts.
- Keep the appliance out of reach of children.

PACKAGE CONTENTS

Upon unpacking, please verify that all items listed below are included and in good condition:

- 1 x FOHERE Nut Milk Maker (Main Unit)
- 1 x 0.8m Power Cord
- 1 x Recipe Book
- 1 x Instruction Manual
- 1 x Cleaning Brush
- 1 x Measuring Cup
- 1 x Filter Bag

PRODUCT FEATURES

The FOHERE Nut Milk Maker is designed for efficiency and convenience:

- **Powerful 800W Motor & 8 Stainless Steel Blades:** Equipped with a robust motor and 8 sharp blades for efficient pulverization of nuts and thorough grinding, ensuring smooth, grain-free results.
- **Multi-functional:** Offers various programs including Nut Milk, Oat Milk, Soy Milk, Milkshake, Rice Cereal, Juice, Warm (140°F), Boil (214°F), and Self-Clean.
- **Large Capacity:** Produces up to 35oz (1000ml) of milk per cycle, suitable for family use.
- **User-friendly Control Panel:** One-touch operation with a clear display for processing time and mode selection.
- **Delay Start Function:** Program the machine to start in 1-12 hours, allowing you to prepare ingredients in advance for fresh drinks when needed.
- **Safety Mechanisms:** Includes a safety protection device requiring correct installation to operate, and an overheat protection system for extended lifespan.
- **Stable Design:** Features silicone suction cups on the bottom to prevent sliding during operation.

- **Waterproof Seal:** A waterproof silicone ring inside the top cover prevents spills and splashes.

• **Solid 8-Blade
Multi-Angle Polishing**

**4-Edge Spoiler Pillar
Smooth and Delicate Taste**

**800W
High Power Motor
Faster, Two-Minute Juice**

SETUP AND FIRST USE

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, clean the interior of the pitcher and the lid with warm soapy water. Rinse thoroughly

and dry. Wipe the exterior of the main unit with a damp cloth.

3. **Placement:** Place the Nut Milk Maker on a stable, flat, and dry surface. Ensure it is away from heat sources and out of reach of children.
4. **Power Connection:** Connect the power cord to the appliance and then plug it into a suitable electrical outlet.

OPERATING INSTRUCTIONS

The FOHERE Nut Milk Maker offers various functions for different beverages. Follow these general steps for operation:

Image: Basic steps for operating the FOHERE Nut Milk Maker.

General Steps for Making Beverages:

1. **Add Ingredients:** Place your desired ingredients (e.g., nuts, soybeans, fruits) into the pitcher. Refer to the included recipe book for recommended quantities.
2. **Add Water:** Pour water into the pitcher, ensuring it is between the MIN and MAX fill lines. Do not exceed the MAX level.
3. **Secure Lid:** Place the lid on the pitcher and ensure it is properly aligned and securely locked. The machine will not operate if the lid is not correctly installed.
4. **Select Function:** Press the 'Menu/Cancel' button repeatedly to cycle through the available functions (Nut Milk, Soy Milk, Oat Milk, Milkshake, Rice Cereal, Juice, Warm, Boil). The selected function will be displayed on the LED screen.
5. **Start Operation:** Once your desired function is selected, press the 'Start/Stop' button to begin the process. The machine will beep when the cycle is complete.

Specific Functions:

- **Nut Milk / Soy Milk / Oat Milk:** These functions are designed for making various plant-based milks. The machine will automatically blend and heat the ingredients to the optimal temperature.
- **Juice / Milkshake:** For cold beverages, these functions will blend ingredients without heating.
- **Warm (140°F) / Boil (214°F):** Use these functions for heating water or other liquids to specific temperatures. The Boil function is also suitable for making complementary foods and soy milk that requires boiling.
- **Delay Start (1-12 hours):** Press the 'Delay Start' button after selecting your desired function. Use the 'Menu/Cancel' button to adjust the delay time (in hours). Press 'Start/Stop' to confirm. The machine will begin processing after the set delay.

MAINTENANCE AND CLEANING

Proper cleaning ensures the longevity and hygiene of your FOHERE Nut Milk Maker.

Self-Clean Function:

The machine features a convenient 'Self-Clean' function:

1. After use, rinse the pitcher to remove large food particles.
2. Fill the pitcher with water up to the MAX line.
3. Secure the lid.
4. Press the 'Menu/Cancel' button until 'Self-Clean' is selected.
5. Press 'Start/Stop' to begin the cleaning cycle.
6. Once complete, discard the water and rinse the pitcher.

Easy-to-Use & Self-Cleaning

No More Worries about Cleaning Your Machine

Image: Using the Self-Clean function for easy maintenance.

Manual Cleaning:

- **Pitcher and Lid:** Hand wash the interior of the pitcher and the lid with warm soapy water. Use the provided cleaning brush to reach all areas, especially around the blades. Rinse thoroughly and dry.
- **Exterior:** Wipe the exterior of the main unit with a damp cloth. Do not use abrasive cleaners or immerse the main unit in water.

- **Waterproof Ring:** The silicone waterproof ring inside the top cover can be removed for thorough cleaning if necessary. Ensure it is properly reinstalled before next use.

TROUBLESHOOTING

If you encounter any issues with your FOHERE Nut Milk Maker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Machine does not start	Lid not properly secured; Power cord not connected; Overheat protection activated.	Ensure lid is correctly installed and locked. Check power connection. Allow machine to cool down if it was recently used for a long cycle.
Overflow during operation	Ingredients/water exceeded MAX fill line.	Always ensure ingredients and water do not go above the MAX fill line. Reduce the amount of ingredients or water.
Milk/Juice is not smooth	Insufficient blending time; Too many ingredients.	Ensure correct function is selected. Reduce ingredient quantity. For tougher ingredients, consider pre-soaking or chopping into smaller pieces.
Soy milk tastes raw/weird	Soy milk not completely cooked.	Ensure the 'Boil' function is used for soy milk to ensure it is thoroughly cooked. Some users prefer to boil the precursor on a stove for a more robust flavor.
Machine is noisy	Normal operation for powerful motor/blades.	Some noise is expected during blending due to the powerful 800W motor and 8 blades. Ensure the machine is on a stable surface.

SPECIFICATIONS

- **Brand:** FOHERE
- **Model Name:** HB-B106K
- **Color:** Black
- **Material:** Stainless Steel (blades, inner pot)
- **Capacity:** 35oz (1000ml)
- **Wattage:** 800 watts
- **Power Source:** Corded Electric
- **Special Features:** Overheat Protection, Safety Protection Device, Silicone Suction Cups, Waterproof Silicone Ring
