shovel.

Safety Information

Your child's safety is paramount. Always supervise children during operation. This product is designed for children over 3 years old with a maximum weight capacity of 110 lbs. Ensure all safety belts are fastened before use.

- **US. CPSIA & ASTM Approved:** Made of non-toxic materials without any odor, FREE from BPA, PVC, Phthalates, Lead, Latex, and Formaldehyde. No sharp points or edges. Passed the tests of stability, asphyxiation, load, and shear.
- **DOE & CEC Certification Approved:** Complies with the Department of Energy and California Energy Commission's electrical energy efficiency regulations to improve the efficiency of electricity products, save energy, reduce gas emissions, and greenhouse effects.
- Equipped with a soft start function and 2-wheel spring suspension for a smoother and safer ride.
- Always use the remote control for younger children or when additional supervision is required.

Package Contents

Upon unpacking, please verify that all components are present and undamaged:

- OLAKIDS 2-Seater UTV Electric Ride-On Car
- 2.4GHz Remote Control
- Extra Shovel
- 12V Battery (pre-installed or separate, refer to quick start guide for exact location)
- Charger
- Instruction Manual

Assembly Instructions

Detailed assembly steps are provided in the separate quick start guide. Generally, assembly involves attaching the wheels, steering wheel, seats, and connecting the battery. Ensure all connections are secure and all screws are tightened before first use.

Image: Product dimensions and capacity details, important for assembly and usage planning.

Charging the Battery

The vehicle is powered by a 12V battery. Before initial use, fully charge the battery for 8-12 hours. Subsequent charges should be 8-12 hours, or until the battery indicator shows full. Do not overcharge the battery.

- Locate the charging port (refer to the quick start guide for exact location).
- Connect the charger to the charging port and then to a standard wall outlet.
- The battery indicator on the dashboard will show charging status.

Operating Instructions

Driving Modes

The OLAKIDS UTV offers two primary driving modes:

- **Kids Driving:** Children can operate the vehicle using the foot pedal and steering wheel.
- **Parent Control:** Parents can manually control the vehicle using the 2.4GHz remote control. This mode overrides

child control for safety.

Image: Demonstrating the dual driving modes: child-operated and parent-controlled via remote.

Dashboard Controls

The dashboard features various controls for an enhanced driving experience:

- **Power Button:** Turns the vehicle on/off.
- **Speed Switch:** Adjusts between low and high speeds (3 to 8 km/hr).
- **Music/MP3/USB/AUX:** Built-in music and ports to play your own audio.
- **Horn Buttons:** Activates the vehicle's horn.
- **Battery Indicator:** Displays the current battery level.
- **Headlights:** Turn on/off the bright LED headlights.

Dump Bed Operation

The electric auto-lifting dump bed adds a realistic play experience:

- Use the dedicated one-push button on the dashboard to activate the electric dump bed.
- The tailgate can be opened manually for easy loading and unloading.
- An extra shovel is included for interactive play.

Image: Features of the dump bed, including the control button, open tailgate, and tipper function.

Rocking Function

Engage the rocking mode for a fun, stationary rocking motion, ideal for younger riders or when the vehicle is not in motion.

Maintenance

Regular maintenance ensures the longevity and safe operation of your ride-on car:

- **Cleaning:** Wipe the vehicle with a damp cloth. Do not use harsh chemicals or abrasive cleaners. Keep electronics dry.
- **Battery Care:** Charge the battery after each use. If storing for extended periods, charge monthly to maintain battery health.
- **Storage:** Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Periodically check all screws, connections, and moving parts for tightness and wear.

Troubleshooting

If you encounter issues, refer to the following common solutions:

Problem	Possible Cause	Solution
Vehicle does not move.	Low battery; loose connection; motor issue.	Charge battery; check all wiring connections; contact support if motor issue suspected.
Remote control not working.	Remote batteries dead; not paired correctly.	Replace remote batteries; re-pair remote (refer to quick start guide for pairing instructions).
Dump bed not operating.	Power issue; mechanism jammed.	Check battery level; ensure no obstructions in the dump bed mechanism.
Short battery life.	Insufficient charging; old battery.	Ensure full charge (8-12 hours); consider battery replacement if old.

Specifications

- **Model Number:** TQ10130
- **Product Dimensions:** 27 x 26 x 48 inches
- **Item Weight:** 57.9 pounds
- **Battery:** 1 x 12V (included)
- **Recommended Age:** 36 months - 8 years
- **Maximum Weight Capacity:** 110 lbs
- **Speed:** 3 to 8 km/hr (adjustable)
