Instruction Manual

HTLNUZD 1/18 FERRARI 499P #50 DIECAST MODEL

Model: 1:18 499p#50

Product Overview

The HTLNUZD 1/18 Ferrari 499p #50 Diecast Model is a meticulously crafted replica designed for collectors. This static model features a high-simulation interior and is constructed from a combination of alloy for the body, rubber for the tires, and environmentally friendly ABS plastic for other components. Some parts are made using die-casting for enhanced detail and realism.

Key Features:

- **Scale:** 1/18 scale, accurately replicating the Ferrari 499p #50 racing car.
- **Dimensions:** Approximately 32cm x 11cm x 6cm (12.6 x 4.3 x 2.3 inches).
- **Material Composition:** Body made of alloy, rubber tires, and other parts from ABS environmentally friendly plastic. Features die-cast components for specific details.
- **Interactive Elements:** The left and right car doors can be opened, and the wheels are designed to rotate.
- **Interior Detail:** High-simulation interior design for realistic representation.
- **Packaging:** Securely packaged in sturdy, thickened cartons with bubble pads to ensure product safety during transit.

Setup and Unboxing

Upon receiving your HTLNUZD 1/18 Ferrari 499p #50 Diecast Model, carefully remove it from its packaging. The model is secured within a color box and protected by bubble pads. Exercise caution when opening the box and handling the model to prevent any damage to its delicate components.

1. **Unpack:** Gently open the outer shipping carton and remove the product's color box.
2. **Inspect:** Carefully take the model out of its protective bubble pads and inspect it for any visible damage from shipping.
3. **Placement:** Place the model on a stable, flat surface, preferably on its included display base, away from direct sunlight, extreme temperatures, and high humidity.

Operating Features

This model is primarily a static display piece, but it incorporates a few interactive elements for enhanced realism and appreciation.

- **Opening Doors:** The left and right car doors can be gently opened to reveal the detailed interior. Use a soft touch to avoid stressing the hinges or paintwork.
- **Rotating Wheels:** The wheels are designed to rotate freely. This allows for minor repositioning or display adjustments, but the model is not intended for rolling play.

Note: This is a static collector's model and not a toy. It is not designed for rough handling or extensive play.

Maintenance and Care

Proper care will preserve the appearance and integrity of your diecast model for years to come.

- **Cleaning:** To remove dust, gently wipe the model with a soft, dry, lint-free cloth. For more stubborn marks, a slightly damp cloth (water only) can be used, followed immediately by a dry cloth. Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the paint and plastic components.
- **Handling:** Always handle the model by its main body or base. Avoid touching delicate parts like mirrors, antennas, or spoilers, as they can be fragile.
- **Display Environment:** Keep the model away from direct sunlight, which can cause paint fading over time. Avoid extreme temperature fluctuations and high humidity, which can affect materials.
- **Storage:** If storing the model, keep it in its original packaging or a protective display case to prevent dust accumulation and accidental damage.

Troubleshooting

As a static display model, significant troubleshooting is rarely required. However, here are some common observations and their resolutions:

Issue	Possible Cause	Resolution
Dust accumulation	Exposure to open air.	Gently wipe with a soft, dry, lint-free cloth. Consider a display case for long-term protection.
Doors or wheels feel stiff	Newness of the model or slight manufacturing tolerance.	Apply gentle, consistent pressure. Do not force movement. If persistent, contact support.
Minor scratches or imperfections	As an imported product, minor imperfections may occur during manufacturing or transit.	These are generally part of the product's nature and not considered defects unless severe.

Specifications

Attribute	Detail
Product Dimensions	12.6 x 4.3 x 2.3 inches (32cm x 11cm x 6cm)
Item Weight	2.23 pounds
ASIN	B0CYH4MLLP
Item Model Number	1:18 499p#50
Manufacturer	HTLNUZD
Material	Alloy (body), Rubber (tires), ABS environmentally friendly plastic (other parts), Die-cast components
Recommended Age	Not suitable for children under 15 years old (static model, not a toy)
