VINGLI pet gate 3e

VINGLI 30" Tall Freestanding Pet Gate

MODEL: PET GATE 3E

Introduction

Thank you for choosing the VINGLI 30" Tall Freestanding Pet Gate. This manual provides essential information for the proper setup, operation, and maintenance of your pet gate. Designed to restrict pet access to certain areas of your home, this 3-panel gate offers a flexible and stylish solution without requiring permanent installation.

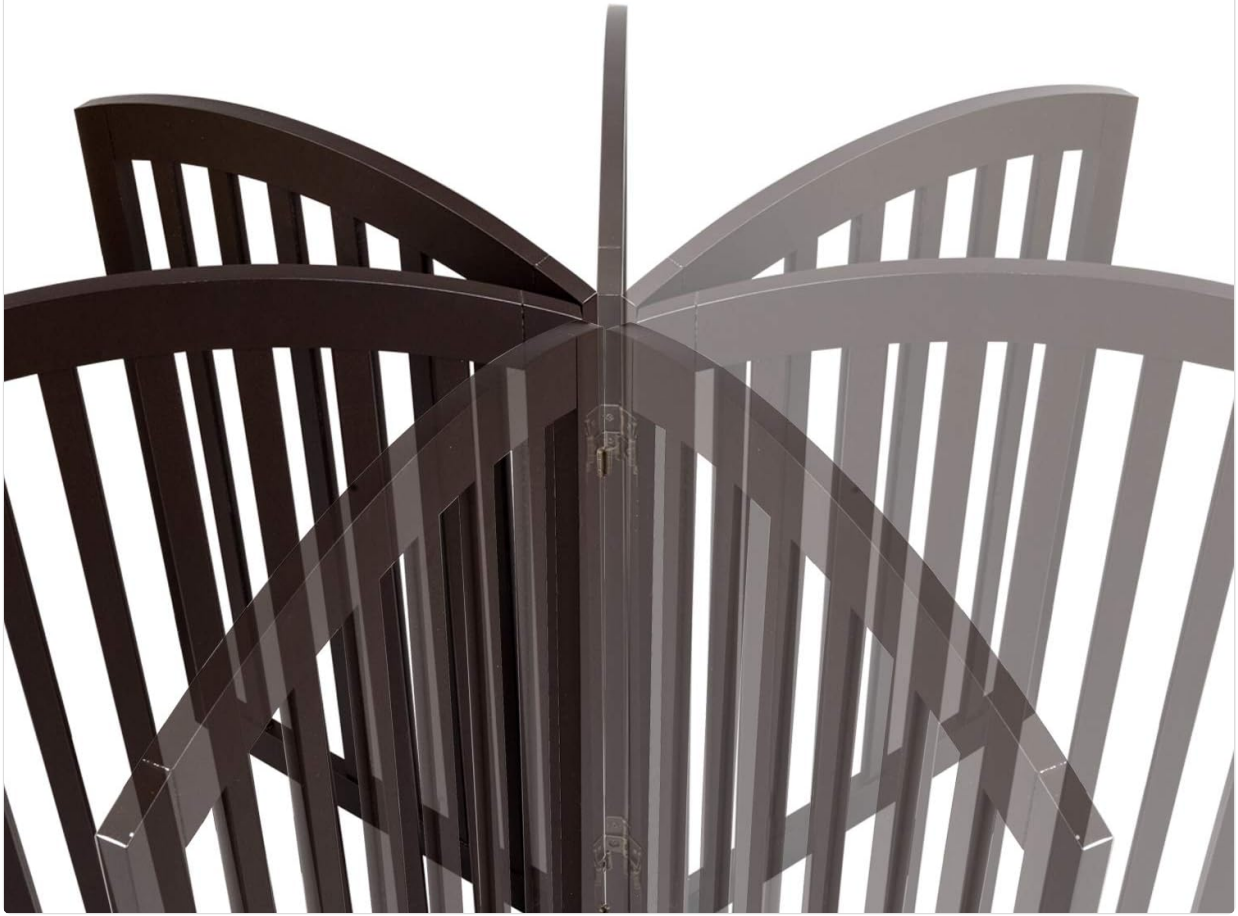

The VINGLI 3-panel freestanding pet gate in its brown wood finish, ready for use.

Setup Instructions

Your VINGLI pet gate comes pre-assembled, requiring no tools for initial setup. Simply unpack and position it in your desired location.

1. **Unpack the Gate:** Carefully remove the gate from its packaging.
2. **Unfold the Panels:** Gently unfold the three panels to create the desired configuration. The hinges allow for 360-degree rotation, offering flexibility in shaping the gate.

360 Degree Swivel

This image displays the VINGLI pet gate in a folded position, demonstrating its compact design for easy storage when not in use.

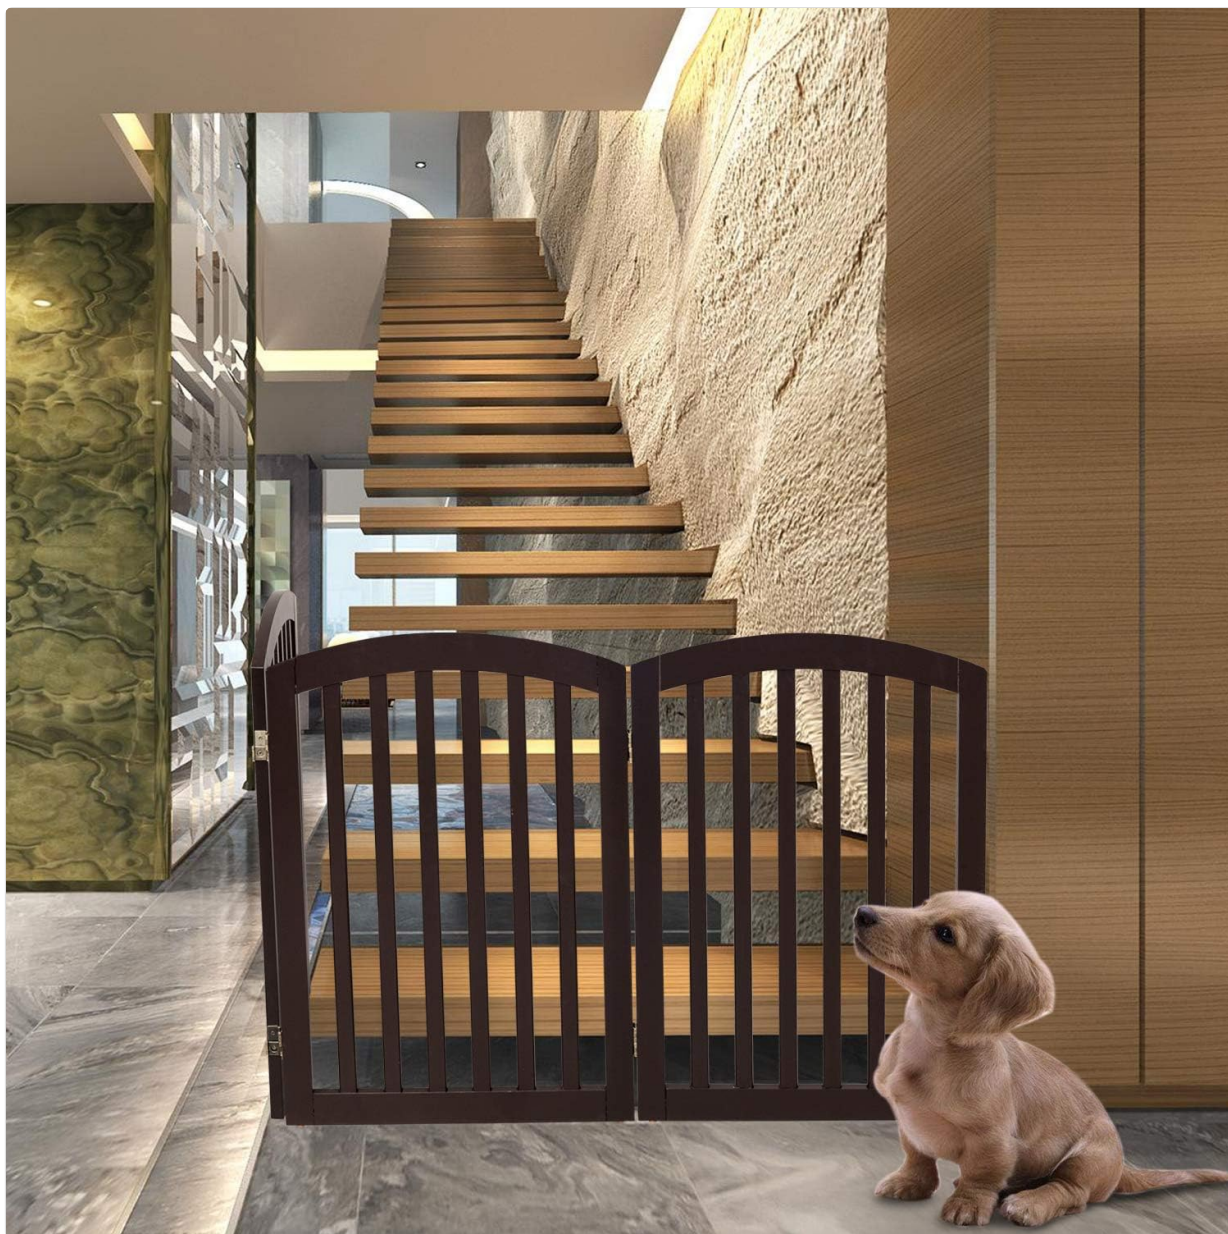

3. **Position the Gate:** Place the gate in the doorway, hallway, or area you wish to restrict. Angle the panels slightly to ensure stability. The gate is designed to be freestanding.
4. **Attach Foot Supporters (Optional):** The gate includes three foot supporters for enhanced stability. Attach these to the bottom of the gate panels as needed, ensuring they are flat on the floor.

Antique Hinge & Rubber Pad

Equipped with durable double-open hinge with antique color and anti-slip rubber pads on the bottom protect your floors from scratches

A detailed view of the gate's durable double-open hinges and the anti-slip rubber pads located at the bottom, designed to protect floors from scratches and enhance stability.

The VINGLI pet gate is shown effectively blocking access to a staircase, demonstrating its use as a barrier to restrict pet movement within the home. A small puppy is visible next to the gate.

Operating Instructions

The VINGLI pet gate is designed for ease of use and flexibility.

- **Adjusting Width and Shape:** The 360-degree swivel hinges allow you to adjust the gate's width and shape to fit various openings or create enclosed spaces. Simply pivot the panels to achieve the desired angle.

The pet gate is arranged in a corner configuration, showcasing its flexibility to adapt to different room layouts and create enclosed spaces for pets.

- **Moving the Gate:** As a freestanding gate, it can be easily moved from one location to another without disassembly. Lift and reposition as needed.
- **Storage:** When not in use, fold the panels flat for compact storage.

This image shows the VINGLI pet gate fully extended, demonstrating its maximum width coverage for wider doorways or openings.

Maintenance

To ensure the longevity and appearance of your VINGLI pet gate, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the gate with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Material Care:** The gate is constructed from Medium Density Fiberboard (MDF). MDF is not suitable for outdoor use or prolonged exposure to water. Keep the gate dry and indoors to prevent damage.
- **Hinge Inspection:** Periodically check the hinges for any signs of wear or looseness. Tighten screws if necessary.

Troubleshooting

If you encounter any issues with your VINGLI pet gate, refer to the following common solutions:

- **Gate Instability:** Ensure the panels are angled correctly to create a stable, freestanding structure. Verify that the optional foot supporters are properly attached and flat on the floor. Uneven surfaces can affect stability.
- **Pet Pushing Through:** If your pet is able to push the gate, ensure it is positioned snugly against walls or furniture, or configured in a more enclosed shape (e.g., a 'Z' or 'U' shape) to increase resistance. For larger or more determined pets, a freestanding gate may not be sufficient.
- **Damaged Finish:** Minor scratches can sometimes be touched up with a wood repair marker matching the gate's brown finish. For significant damage, contact customer support.

Specifications

Model Number	pet gate 3e
Material	Medium Density Fibreboard (MDF)
Color	Brown
Product Dimensions	61 inches (Width) x 30 inches (Height)
Item Weight	18.2 Pounds (8.26 kg)
