6. MAINTENANCE

6.1 Upholstered Headboard and Frame

- **Cleaning:** For general cleaning, gently vacuum the upholstered areas with a soft brush attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product instructions, testing on an inconspicuous area first.
- **Avoid:** Do not use harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the fabric and foam.

6.2 Metal Frame and Slats

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Dry immediately to prevent rust.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
