Ascher YX-240102

Ascher Small Cordless Table Lamp Instruction Manual

Model: YX-240102

Brand: Ascher

1. PRODUCT OVERVIEW

The Ascher Small Cordless Table Lamp is a versatile lighting solution featuring 3 adjustable color temperatures, 7 RGB color modes, and stepless dimming control. Designed for portability and convenience, it includes a built-in rechargeable battery, making it ideal for various indoor and outdoor settings where a power outlet may not be readily available.

This image displays the sleek, minimalist design of the lamp, highlighting its compact size and the soft, ambient light it emits.

2. KEY FEATURES

- **Three Color Temperatures:** Easily switch between 3000K (Warm Light), 4500K (Neutral Light), and 6500K (White Light) to suit your mood or activity.
- **Seven RGB Color Modes:** Explore 7 vibrant RGB colors for ambient lighting, including a dynamic cycle breathing mode.
- **Brightness Dimmable:** Stepless dimming from 8% to 100% allows for precise light intensity adjustment.
- **Cordless & Portable:** Built-in 5000mAh rechargeable battery provides 8 to 100 hours of use (depending on brightness), offering ultimate flexibility.
- **Memory Function:** The lamp automatically restores the last used mode and brightness setting upon reactivation.
- **Touch Control:** Intuitive touch-sensitive controls located on the top of the lamp for easy operation.

- **Durable Design:** Constructed with a full aluminum alloy body for a low-key, elegant, and robust build.

This image provides a visual representation of the lamp's compact dimensions and highlights its primary features, including touch control and long battery life.

3. SETUP

3.1 Initial Charging

Before first use, fully charge the lamp. The lamp features a built-in 5000mAh rechargeable battery. A USB Type-C charging cable is included.

- Locate the USB Type-C charging port on the side of the lamp's base.
- Connect the provided USB Type-C cable to the lamp and to a compatible USB power adapter (not included) or a computer USB port.

- The indicator light will turn **red** while charging.
- Once fully charged (approximately 8 hours), the indicator light will turn **green**.

Video 1: Rechargeable Cordless Table Lamp Overview

This video demonstrates the lamp's features, including its touch controls for power, color temperature, RGB modes, and brightness adjustment, as well as the charging process.

4. OPERATING INSTRUCTIONS

4.1 Touch Control Overview

The lamp is operated via touch-sensitive buttons located on its top surface:

- **Power Button ():** Tap to turn the lamp ON/OFF.
- **CCT Button:** Controls color temperature and brightness for white light modes.
- **RGB Button:** Controls RGB color modes.

4.2 Color Temperature Adjustment (White Light)

The lamp offers three white light color temperatures:

- **Short Press CCT Button:** Tap the CCT button to cycle through the three color temperatures: 3000K (Warm Light), 4500K (Neutral Light), and 6500K (White Light).
- **Long Press CCT Button:** Press and hold the CCT button to adjust the brightness continuously (stepless dimming) from 8% to 100% for the currently selected white light mode. Release to set the brightness.

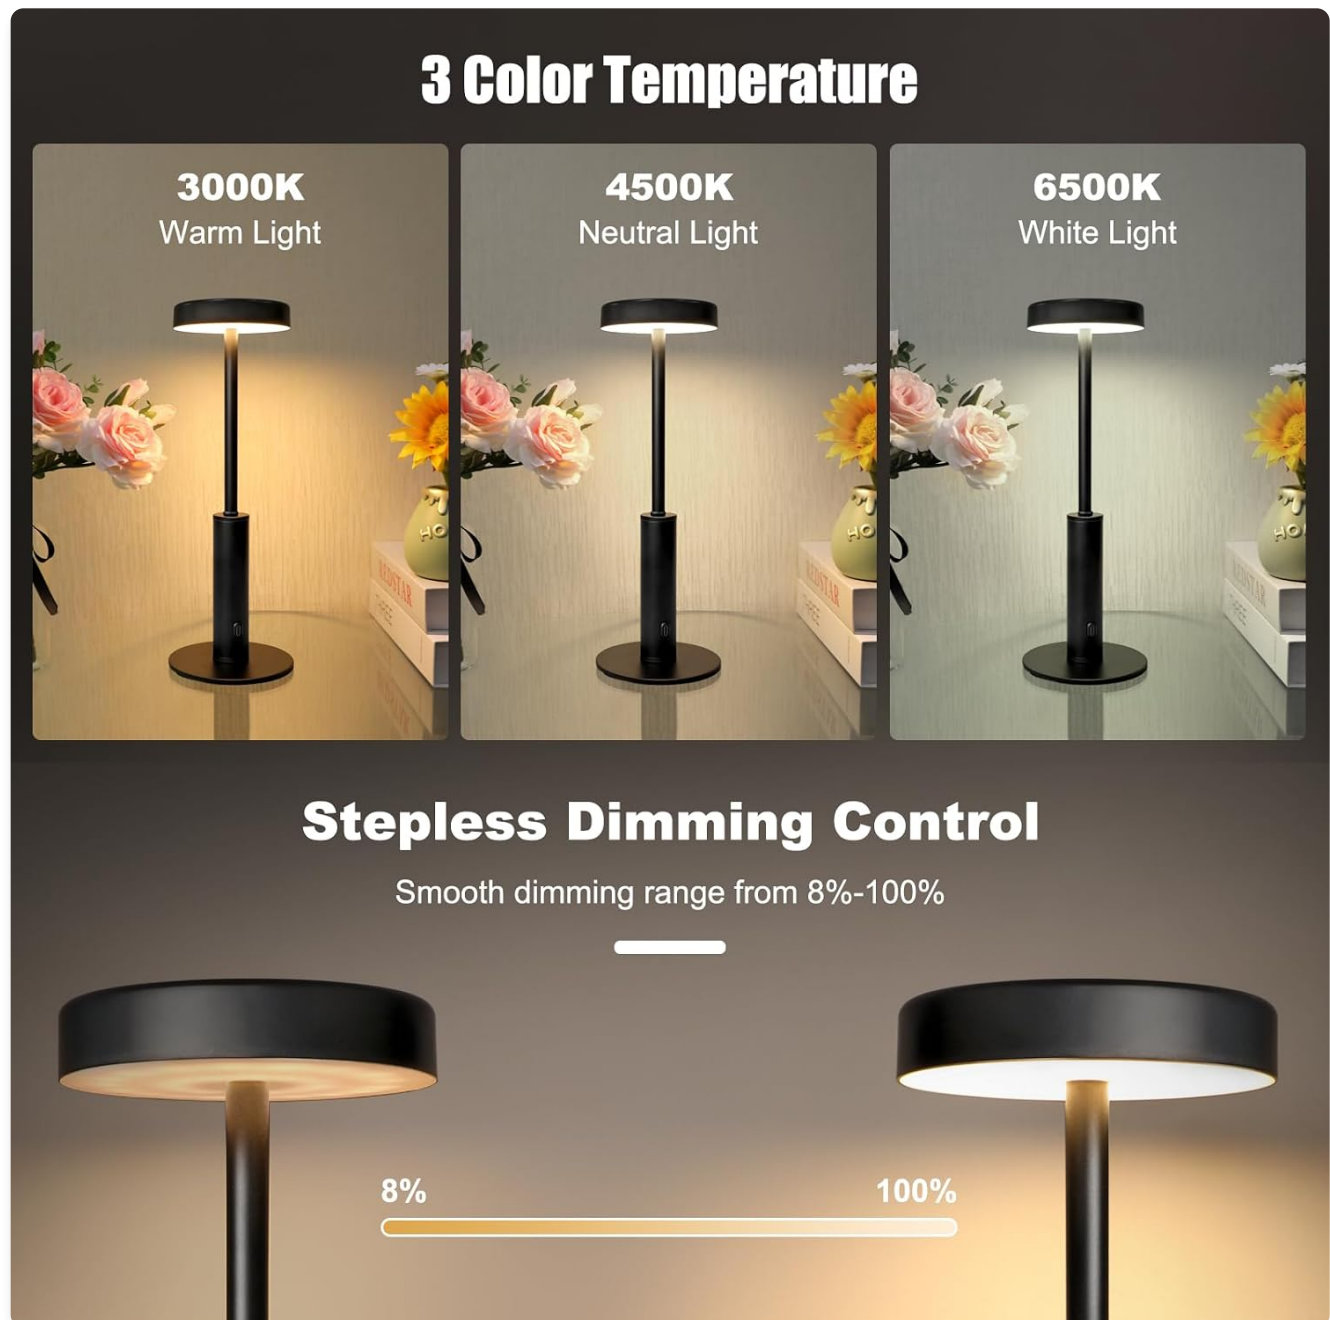

Figure 4: 3 Color Temperatures and Stepless Dimming

This visual guide demonstrates the three distinct white light color temperatures and the lamp's ability to smoothly adjust brightness levels.

4.3 RGB Color Modes

The lamp features 7 vibrant RGB colors for atmospheric lighting:

- **Short Press RGB Button:** Tap the RGB button to cycle through the 7 individual RGB colors.
- **Long Press RGB Button:** Press and hold the RGB button to activate the 7-color cycle breathing mode, where colors smoothly transition automatically.

Figure 5: Color Changing RGB Table Lamp

This image showcases the lamp's capability to produce a spectrum of RGB colors, creating various lighting moods.

Video 2: Ascher Rechargeable Cordless Table Lamp with 3 Color Temperatures and 7 RGB Colors

This comprehensive video demonstrates the full range of lighting options, including switching between white light temperatures, adjusting brightness, and cycling through RGB colors and modes.

4.4 Memory Function

The lamp is equipped with a memory function. When you turn the lamp off and then back on, it will automatically resume the last used color temperature (for white light) or RGB color/mode, and brightness level.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the lamp. Avoid abrasive cleaners or solvents that may damage the finish.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the lamp regularly, even if not in constant use.
- **Storage:** If storing the lamp for an extended period, ensure it is fully charged and store it in a cool, dry place. Recharge every 3-6 months to maintain battery health.
- **Water Resistance:** This lamp is **not waterproof**. Avoid exposure to water or high humidity to prevent damage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted.	Charge the lamp fully.
Lamp does not charge.	Charging cable or adapter issue.	Ensure the charging cable is securely connected. Try a different USB power adapter or USB port.
Brightness cannot be adjusted.	Not holding the CCT button long enough.	Press and hold the CCT button for continuous dimming.
RGB colors are not cycling.	Not holding the RGB button long enough.	Press and hold the RGB button to activate the cycle breathing mode.
Light flickers or is unstable.	Low battery or internal issue.	Charge the lamp fully. If the problem persists, contact customer support.

7. SPECIFICATIONS

Attribute	Value
