One Car Stereo CarPlay Ai Box Ultra

OneCarStereo CarPlay Ai Box Ultra User Manual

Model: CarPlay Ai Box Ultra

Brand: One Car Stereo

INTRODUCTION

The OneCarStereo CarPlay Ai Box Ultra is an advanced wireless adapter designed to integrate Android 13.0, wireless CarPlay, wireless Android Auto, and wireless mirroring into your vehicle's existing wired CarPlay system. Featuring a Qualcomm 8-core 6225 high-performance processor, this device offers seamless navigation, multimedia streaming, and hands-free communication, transforming your driving experience with enhanced intelligence and comfort.

IMPORTANT SAFETY INFORMATION

- Ensure the device is securely installed and does not obstruct your view or interfere with vehicle controls.
- Do not attempt to disassemble or modify the device. This may void the warranty and pose a safety risk.
- Avoid exposing the device to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- Operate the device responsibly. Distracted driving can lead to accidents. Always prioritize road safety.
- Only use the provided cables and accessories to prevent damage to the device or your vehicle.

WHAT'S IN THE BOX

- OneCarStereo CarPlay Ai Box Ultra (1 unit)
- USB to Type-C cable (1 unit)
- Type-C to Type-C cable (1 unit)
- Instructions manual (1 unit)
- USB Female to USB Male cable (1 unit)

PRODUCT OVERVIEW

The OneCarStereo CarPlay Ai Box Ultra, showcasing its compact design and the Android 13 interface on a car display.

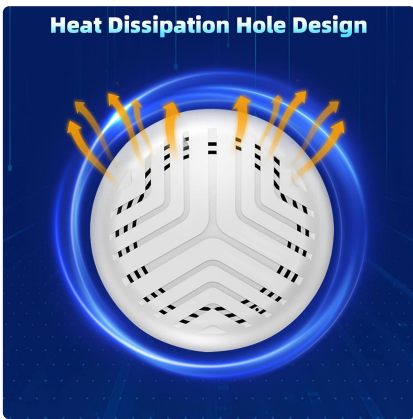

Overview of the intelligent 4-in-1 system, including Android 13, wireless CarPlay, wireless Android Auto, and wireless mirroring.

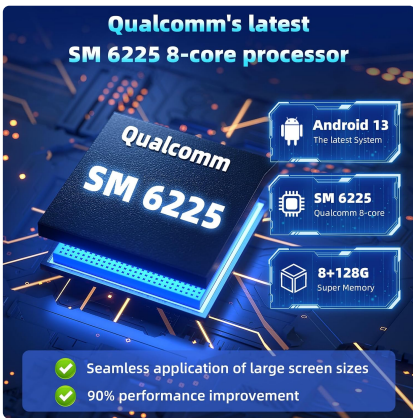

The device features LED ambient lighting and slots for SIM and TF cards for expanded connectivity and storage.

Access to Google Play Store and APKPure allows downloading various applications directly to your vehicle's screen.

The device incorporates a heat dissipation hole design on the back to ensure optimal performance and prevent overheating.

Powered by Qualcomm's latest SM 6225 8-core processor with Android 13 and 8GB RAM + 128GB ROM for high performance.

Detailed product information including dimensions (88 x 88 x 22mm), OS, CPU, memory, internet, GPS, Bluetooth, and interfaces.

SETUP INSTRUCTIONS

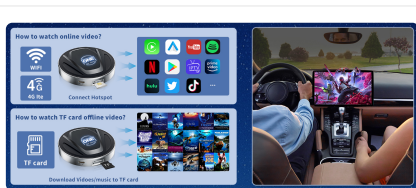

Compatibility Note:

The Ai Box Ultra is compatible only with vehicles that have OEM wired CarPlay or both wired and wireless CarPlay. It is not compatible with vehicles that only have OEM wireless CarPlay (e.g., BMW).

Initial Connection:

1. Connect the Ai Box Ultra to your car's USB port using the provided USB to Type-C or Type-C to Type-C cable.
2. On your car's infotainment screen, select the USB port or the 'INCAR LINK' icon to access the device interface.

Wireless CarPlay & Android Auto Connection:

Visual guide for connecting wireless CarPlay and Android Auto.

1. On your car's screen, select the USB port to connect the Ai Box Ultra. Click the "INCAR LINK" icon.
2. On your iPhone or Android phone, turn on Bluetooth and Wi-Fi.
3. Search for the Bluetooth name of the Ai Box Ultra (e.g., BT:INCARLINK Max) on your phone and tap to pair.
4. Confirm the pairing request on both your phone and the car screen.
5. Once connected, your wireless CarPlay or Android Auto display will appear.

Note: You need to disconnect your phone's hotspot first to connect Wireless CarPlay & Android Auto. Before using Android Auto, ensure the latest Android Auto app is installed on your smartphone and enable "Wireless Android Auto" in Android Auto app settings.

Video Guide: How to connect wireless CarPlay and Android Auto?

This video demonstrates the step-by-step process for connecting your smartphone to the Ai Box Ultra for wireless CarPlay and Android Auto functionality.

OPERATING INSTRUCTIONS

Multimedia Streaming:

Instructions for watching online videos via Wi-Fi/hotspot and offline videos from a TF card.

The device supports various apps from Google Play Store and APKPure, including streaming services like YouTube and Netflix.

The Magic CarPlay Box comes with Android 13.0 and pre-installed apps such as YouTube, Netflix, and TikTok. You can also download more apps from Google Play and APK Pure.

- **Online Streaming:** Connect the Ai Box Ultra to Wi-Fi or a mobile hotspot to stream online audio and video content.
- **Offline Playback:** Insert a TF card (up to 256GB) with pre-downloaded audio or video content for offline entertainment.

Navigation:

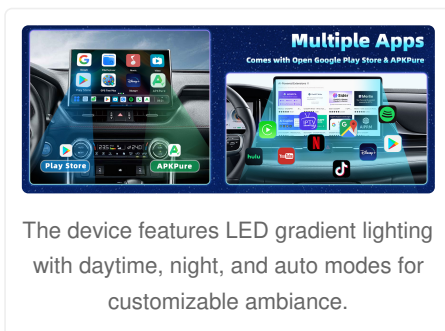

The Ai Box Ultra features built-in GPS with support for three major positioning systems (GPS from the United States, Glonass from Russia, and Beidou from China), ensuring accurate and reliable navigation.

Split Screen Functionality:

Utilize the split-screen feature to run two applications simultaneously, such as navigation and a video streaming app, enhancing convenience and multitasking capabilities.

LED Ambient Light Settings:

The Ai Box Ultra includes a unique LED color light design. You can adjust the LED color settings through the device's interface to match your car's interior or personal preference. Options typically include Daytime Mode, Night Mode, and Auto Mode.

MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.
- Ensure proper ventilation around the device to prevent overheating.
- Regularly check for and install online updates to ensure optimal performance and access to the latest features. The device supports online upgrades with a single button action.

TROUBLESHOOTING

Problem	Possible Solution
Device does not power on.	Ensure the USB cable is securely connected to both the device and the car's USB port. Verify the car's USB port is active.
Wireless CarPlay/Android Auto fails to connect.	1. Ensure your car has OEM wired CarPlay. 2. Turn off your phone's personal hotspot. 3. Verify Bluetooth and Wi-Fi are enabled on your phone. 4. Forget previous Bluetooth connections and re-pair. 5. For Android Auto, ensure the app is updated and wireless Android Auto is enabled in settings.
Slow performance or app crashes.	1. Close unnecessary background applications. 2. Check for and install system updates for the Ai Box Ultra. 3. Ensure adequate ventilation to prevent overheating.
No internet connection.	1. If using a SIM card, ensure it is properly inserted and has an active data plan. 2. If using Wi-Fi, verify the hotspot or Wi-Fi network is active and providing internet access. 3. Check Wi-Fi settings on the device.
LED lights not functioning as expected.	Access the LED color settings in the device's interface and adjust modes or colors.

If you encounter any problems not listed here, please refer to the Warranty and Support section for assistance.
