

AIBORS Cable for DT510

AIBORS DT510 Dog Training Collar Charger Cord User Manual

Model: Cable for DT510 | Brand: AIBORS

INTRODUCTION

This manual provides instructions for the AIBORS DT510 Dog Training Collar Charger Cord. This 2-in-1 charging cable features both magnetic and USB-C connectors, designed specifically for the AIBORS DT510 Dog Training Collar and its remote. It allows for simultaneous charging of both devices.

PRODUCT FEATURES

- Compatible exclusively with AIBORS DT510 Dog Training Collar.
- Dual charging capability: Magnetic connector for the collar and USB-C for the remote.
- USB-A plug for connection to various power sources (power bank, wall charger, car charger, laptop, PC).
- Cable length of 3 feet (approximately 0.9 meters) for convenient use.

SETUP AND CONNECTION

1. **Identify Components:** Locate the magnetic charging head and the USB-C charging head on the cable. The USB-A end connects to your power source.

Image: The AIBORS DT510 charger cord showing its Y-splitter design with a magnetic connector and a USB-C connector, both branching from a main cable with a USB-A plug.

2. **Connect to Power Source:** Insert the USB-A end of the charging cable into a compatible USB power adapter (e.g., wall charger, power bank, computer USB port).
3. **Connect to Collar:** Align the magnetic charging head with the charging port on your AIBORS DT510 Dog Training Collar. The magnetic connection will secure it in place. Ensure the charging indicator on the collar illuminates.

4. **Connect to Remote:** Insert the USB-C charging head into the USB-C port on your AIBORS DT510 remote control. Ensure the charging indicator on the remote illuminates.

OPERATING INSTRUCTIONS

Once connected, the collar and remote will begin charging automatically. The charging time may vary depending on the battery level of the devices and the power output of your USB adapter. Refer to your AIBORS DT510 Dog Training Collar manual for specific charging indicators and expected charging durations.

The cable is designed to charge both the collar and the remote simultaneously, providing convenience and efficiency.

MAINTENANCE AND CARE

- **Storage:** When not in use, store the cable in a dry place, away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.

Image: The AIBORS DT510 charger cord neatly coiled, demonstrating proper storage to prevent tangling and damage.

- **Cleaning:** Use a soft, dry cloth to clean the cable and connectors. Do not use liquid cleaners or abrasive materials.
- **Handling:** Always grasp the plug when disconnecting the cable, rather than pulling on the cord itself, to prevent internal wire damage.
- **Inspection:** Periodically inspect the cable for any signs of wear, fraying, or damage to the connectors. Discontinue use if damage is observed.

TROUBLESHOOTING

Device not charging:

- Ensure the USB-A end is securely plugged into a functional power source.
- Verify that the magnetic connector is properly aligned and attached to the collar's charging port.
- Confirm the USB-C connector is fully inserted into the remote's charging port.
- Check if the power source (e.g., wall adapter, power bank) is active and providing power.
- Inspect the cable for any visible damage. If damaged, replace the cable.

Slow charging:

- Ensure your USB power adapter provides sufficient current (e.g., 5V/1A or higher).
- Avoid charging through unpowered USB hubs or older computer USB ports, which may provide lower power.
