## Bennett Read KBD203

# Bennett Read 1000W Nutrition Extractor User Manual

Model: KBD203

## 1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and care of your Bennett Read 1000W Nutrition Extractor, Model KBD203. Please read all instructions carefully before first use and retain this manual for future reference.

### Important Safety Information

- Always ensure the appliance is unplugged before assembly, disassembly, or cleaning.
- Do not immerse the motor base in water or any other liquid.
- Keep hands and utensils out of the container while blending to reduce the risk of severe personal injury.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is for household use only.
- Ensure the lid is securely locked in place before operating.
- Do not overfill the blending cups.

## 2. PRODUCT COMPONENTS

Familiarize yourself with the parts of your Bennett Read Nutrition Extractor:

- Motor Base (1000W)
- Extraction Blade Assembly (6 uniquely designed blades)
- Large Blending Cup (Tritan Copolyester, BPA-free)
- Small Blending Cup (Tritan Copolyester, BPA-free)
- Sip & Seal Lids
- Storage Lid

Figure 2.1: Exploded view of the Bennett Read 1000W Nutrition Extractor showing the motor base, two blending cups, blade assembly, and various lids.

### 3. SETUP AND ASSEMBLY

---

- 1. Unpack:** Carefully remove all components from the packaging.
- 2. Clean:** Wash the blending cups, lids, and blade assembly in warm, soapy water before first use. Rinse thoroughly and dry. The motor base should only be wiped with a damp cloth.
- 3. Prepare Ingredients:** Add your desired ingredients to one of the blending cups. Do not exceed the MAX fill line.
- 4. Attach Blade:** Screw the extraction blade assembly onto the open end of the blending cup until securely tightened.
- 5. Place on Base:** Invert the blending cup and place it onto the motor base, aligning the tabs on the cup with the slots on the base.
- 6. Secure:** Press down firmly and twist the cup clockwise until it locks into place.

Figure 3.1: The Bennett Read Nutrition Extractor assembled and ready for use, demonstrating a cup filled with fruit on the base and a prepared smoothie in another cup.

## 4. OPERATING INSTRUCTIONS

The Bennett Read 1000W Nutrition Extractor is designed for simple, one-touch operation.

- 1. Power On:** Ensure the appliance is plugged into a suitable power outlet.
- 2. Blend:** Once the cup is securely locked onto the motor base, the extractor will begin blending automatically. The 1000W motor and 6-blade assembly will pulverize ingredients using Tornado-tech cyclonic action.
- 3. Observe:** Blend until your desired consistency is achieved. For best results, blend in short bursts if

needed, or continuously for up to 60 seconds.

4. **Stop:** To stop blending, simply twist the cup counter-clockwise and lift it off the motor base. The motor will stop immediately.
5. **Serve:** Unscrew the blade assembly from the cup. You can then attach a Sip & Seal lid for on-the-go consumption or a storage lid.

## Blending Tips:

- For smoother results, add liquids first, then soft ingredients, and finally harder ingredients or ice.
- Do not blend hot liquids as pressure buildup can cause the cup to burst.
- If the motor stalls, unplug the unit, remove the cup, and shake the contents to redistribute. Reduce the amount of ingredients if necessary.
- The appliance features adjustable speed control, which is automatically managed by the unit for optimal extraction.

Figure 4.1: The Bennett Read Nutrition Extractor actively blending ingredients, showcasing its compact design and ease of use.

## 5. MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity and optimal performance of your Nutrition Extractor.

1. **Unplug:** Always unplug the motor base from the power outlet before cleaning.
2. **Clean Cups and Lids:** Wash blending cups and lids in warm, soapy water. They are also top-rack dishwasher safe.
3. **Clean Blade Assembly:** Carefully rinse the blade assembly under running water immediately after use. Use a brush to remove any stubborn residue. **Exercise extreme caution when handling the blades as they are sharp.**
4. **Clean Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid.
5. **Dry:** Ensure all parts are completely dry before storing or reassembling.

## 6. TROUBLESHOOTING

If you encounter issues with your Bennett Read Nutrition Extractor, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; cup not properly assembled/locked.	Ensure the power cord is securely plugged into a working outlet. Verify the blending cup is twisted clockwise and locked onto the motor base.
Motor stops during operation.	Overheating; ingredients too thick/frozen.	Unplug the unit and allow it to cool for 15-20 minutes. Reduce the amount of ingredients or add more liquid.
Leaking from the blade assembly.	Blade assembly not tightened; seal damaged.	Ensure the blade assembly is securely screwed onto the cup. Check the rubber gasket for damage and ensure it is properly seated.
Loud noise or burning smell.	Motor overload; foreign object.	Immediately unplug the unit. Remove the cup and inspect for any obstructions. If the smell persists after cooling, discontinue use and contact customer support.

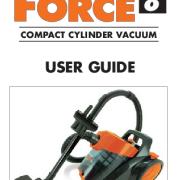

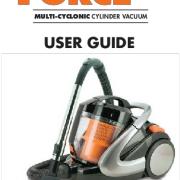

## 7. SPECIFICATIONS

Feature	Detail
Model Number	KBD203
Power	1000W
Capacity	1 Liters (total capacity, individual cups may vary)
Material	Plastic (BPA-free Tritan Copolyester for cups)
Dimensions (Product)	45.3D x 34W x 25H centimetres
Item Weight	2.48 kg
Special Features	Adjustable Speed Control (automatic), Tornado-tech cyclonic action, 6-blade extraction
Power Source	Corded Electric
