BESHON BS104

BESHON Flat Extension Cord Power Strip User Manual

Model: BS104

INTRODUCTION

Thank you for choosing the BESHON Flat Extension Cord Power Strip. This manual provides essential information for the safe and effective use of your new power strip. Please read it thoroughly before operation and retain it for future reference.

PRODUCT FEATURES

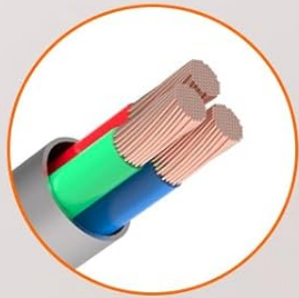

Overall Product View: A white BESHON flat extension cord power strip with a braided cord and a flat plug, shown plugged into a wall outlet.

6 FT

Braided Extension Cord

Not easy to deform, durable and more safety

6FT Braided Cord: This image highlights the 6-foot braided extension cord, emphasizing its durability and resistance to deformation, along with a visual of the pure copper wiring.

- **Ultra-Thin Flat Plug:** Features a 0.35-inch ultra-thin, 45° right-angle plug designed to fit snugly against walls and behind furniture.
- **Durable 6ft Cord:** The 6-foot extension cord is made of pure copper, providing better current carrying capacity (15A) and a durable, braided design.
- **7-in-1 Power Solution:** Converts one wall socket into 4 AC outlets, 2 USB-C ports (5V/3A Max), and 1 USB-A port

(5V/2.4A Max), allowing simultaneous charging of up to 7 devices. Total USB output is 5V/3.1A.

- **Wide-Spaced Outlets:** Outlets are spaced 2.3 inches apart, accommodating larger adapters without blocking adjacent ports.
- **Compact and Portable:** With dimensions of 4.5 x 1.1 x 1.8 inches, this power strip is space-saving and ideal for travel, dorm rooms, home, and office use.
- **No Surge Protection:** Designed without surge protection, making it suitable for use on cruise ships where surge protectors are often prohibited.
- **Multi-Safety Protection:** Certified by RoHS, FCC, and ETL, it includes overload protection, short-circuit protection, over-current protection, over-voltage protection, and overheating protection.

7 in 1 Small Power Strip

Cruise Approved

3 Side Design

7-in-1 Design: Illustrates the configuration of the 4 AC outlets (2x 3-pin, 2x 2-pin), 2 USB-C ports, and 1 USB-A port, along with the 2.3-inch wide spacing and 6-foot cord length.

Ultra-Thin Flat Plug

Suitable for use behind furniture

Flat Plug Advantage: A visual comparison showing how the 0.35-inch ultra-thin flat plug allows furniture to sit closer to the wall compared to standard 2.0-inch plugs.

Designed for Travel

Extremely Small Size, easy to carry

Travel-Friendly Design: Displays the compact dimensions (4.5 x 1.1 x 1.8 inches) of the power strip, highlighting its portability and suitability for travel by showing it packed in luggage.

USB Power Strip

Compatible with most USB devices

Compatibility

USB-C
5V/3A MAX

USB-A
5V/2.4A MAX

USB Charging: Shows various devices (phone, tablet, laptop) being charged via the USB-C (5V/3A Max) and USB-A (5V/2.4A Max) ports, demonstrating broad compatibility.

Cruise Must Haves

Power Strip with No Surge Protection for Cruise Ship and Travel

Cruise Ship
Approved

Non
Surge Protection

ETL Listed

Cruise Ship Compatibility: Emphasizes the power strip's suitability for cruise ships due to its non-surge protection feature, along with ETL listing.

SETUP

1. **Unpack:** Carefully remove the power strip from its packaging.
2. **Inspect:** Check the power strip and cord for any signs of damage. Do not use if damaged.
3. **Placement:** Choose a dry indoor location away from water sources, heat, and direct sunlight. Ensure the cord is not pinched or run under carpets.

4. **Plug In:** Insert the flat plug into a standard 125V AC wall outlet. The indicator light on the power strip will illuminate, confirming it is powered.

OPERATING INSTRUCTIONS

The BESHON Flat Extension Cord Power Strip is designed for simple plug-and-play operation.

- **AC Outlets:** Plug your devices (e.g., laptops, lamps, small appliances) into the 4 AC outlets. Ensure the total power consumption does not exceed 1875W (15A at 125V).
- **USB-C Ports:** Connect your USB-C compatible devices (e.g., smartphones, tablets, certain laptops) to the USB-C ports for fast charging up to 5V/3A.
- **USB-A Port:** Connect your USB-A compatible devices (e.g., older smartphones, smartwatches, power banks) to the USB-A port for charging up to 5V/2.4A.
- **Combined USB Output:** The total output for all USB ports combined is 5V/3.1A.

SAFETY INFORMATION

To ensure safe operation and prevent damage, please adhere to the following safety guidelines:

- **Indoor Use Only:** This power strip is designed for indoor use in dry locations. Do not expose to moisture or use in wet environments.
- **No Surge Protection:** This device does NOT provide surge protection. Do not use it with sensitive electronics that require surge protection. It is specifically designed without surge protection for compatibility with cruise ship regulations.
- **Overload Protection:** Do not exceed the maximum load of 1875W (15A at 125V). Overloading can cause overheating and potential fire hazards.
- **Proper Grounding:** Ensure the wall outlet is properly grounded.
- **Avoid Daisy-Chaining:** Do not plug one power strip into another.
- **Cord Care:** Do not bend, crimp, or place heavy objects on the power cord. Avoid running the cord under rugs or furniture where it could be damaged.
- **Children and Pets:** Keep out of reach of children and pets.
- **Disconnection:** Always grasp the plug, not the cord, when disconnecting from the wall outlet.

MAINTENANCE

The BESHON Flat Extension Cord Power Strip requires minimal maintenance.

- **Cleaning:** Disconnect the power strip from the wall outlet before cleaning. Wipe the exterior with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the power strip in a cool, dry place, away from direct sunlight and moisture.
- **Inspection:** Periodically inspect the cord and plug for any signs of wear or damage.

TROUBLESHOOTING

If you encounter issues with your power strip, refer to the following table:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No power to devices.	Power strip not plugged in; wall outlet not active; overloaded circuit.	Ensure power strip is fully plugged in. Test wall outlet with another device. Reduce the number of connected devices to prevent overload.
USB ports not charging.	Device not compatible; cable faulty; total USB output exceeded.	Check device compatibility. Try a different USB cable. Ensure total USB current draw does not exceed 3.1A.
Power strip feels warm.	Normal operation under load; excessive load.	Slight warmth is normal. If excessively hot, disconnect devices immediately and reduce load. Ensure proper ventilation.

SPECIFICATIONS

Feature	Detail
Model Number	BS104
Brand	BESHON
AC Outlets	4 (Widely Spaced)
USB-C Ports	2 (5V/3A Max per port)
USB-A Port	1 (5V/2.4A Max)
Total USB Output	5V/3.1A
Voltage	125 Volts
Max Power Rating	1875W / 15A
Cord Length	6 feet
Plug Type	Flat, 45° Right-Angle (0.35 inch thin)
Dimensions (Power Strip)	4.5 x 1.1 x 1.8 inches
Item Weight	9.1 ounces
Certifications	RoHS, FCC, ETL
Surge Protection	None

WARRANTY AND SUPPORT

BESHON products are designed for reliability and performance. For warranty information or technical support, please refer to the contact details provided with your product packaging or visit the official BESHON website. Please have your model number (BS104) and purchase details ready when contacting support.
