# AlkiVision 2K Light Bulb Security Camera User Manual

Model: DP01 | Brand: AlkiVision

## INTRODUCTION

The AlkiVision 2K Light Bulb Security Camera provides advanced surveillance for both indoor and outdoor environments. Designed for easy installation into standard E27/E26 light sockets, this camera features 2K HD resolution, 360° motion detection with auto-tracking, full-color night vision, and two-way audio communication. It offers comprehensive monitoring with siren alarm capabilities and flexible storage options.

The AlkiVision 2K Light Bulb Security Camera offers comprehensive home surveillance, integrating seamlessly into standard light sockets.

## PACKAGE CONTENTS

---

- AlkiVision 2K Light Bulb Security Camera(s)
- Instruction Manual
- Mounting Accessories (if applicable)

## SETUP

---

### 1. Installation

The AlkiVision camera is designed for simple installation. Screw the camera into a standard E27 or E26 light socket (110V~240V) just like a regular light bulb. Ensure the socket is powered on.

# Easy Installation

Applicable to E27/E26 interface, it can be easily installed with most bulb socket

The camera is designed for easy installation into standard E27/E26 light sockets, requiring no complex wiring.

## 2. App Download and Connection

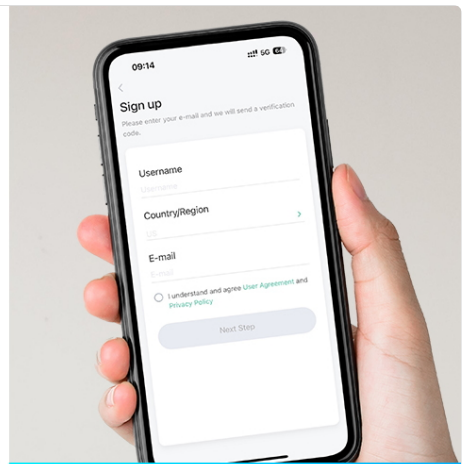

To operate your camera, download the "VicoHome" app from your device's app store. Once installed, open the app and register an account. Press the reset button on the camera for 2-3 seconds to turn it on. The app will then guide you through the connection process, which may involve Bluetooth pairing or scanning a QR code displayed on your phone with the camera.

1. Download the APP named "VicoHome" in APP Store or scan the code in the instruction, then register your account to sign in.

2. Install the camera in the E27/E26 bulb socket, then long press the reset for 2-3 seconds, it will start up.

3. Turn on your phone's Bluetooth, the APP will search for the device name, just click to connect. (If your phone Bluetooth is not available, the APP will pop up a QR code, please use the security camera to scan the code to connect)

The setup involves downloading the 'VicoHome' app, screwing the camera into an E27/E26 socket, and following in-app instructions for connection, including Bluetooth pairing or QR code scanning.

## OPERATING INSTRUCTIONS

### Motion Detection and Tracking

The camera features a built-in precision sensor for accurate motion detection. It supports 355° horizontal pan and 90° vertical tilt, allowing for comprehensive area coverage. The auto-tracking function enables the camera to follow detected objects within its range. Advanced AI motion detection can identify people and pets, and you can set specific detection areas to minimize unwanted alerts. Notifications can be summarized to reduce frequent pushes.

# Motion Tracking

Returning to the present position after motion detection tracking

**355° Pan, 90° Tilt Wide Range**

The camera offers 355° horizontal and 90° vertical rotation for wide area coverage, with automatic motion tracking.

# Pets, Humans, AI Detection

With AI detection and smart summary notification function, it can simultaneously push notifications for multiple motion monitoring results of the same time period, reducing frequent alarms.

AI Detection

Smart Notification

Advanced AI motion detection can differentiate between humans and pets, reducing false alarms and providing smart notifications.

Your browser does not support the video tag.

This video demonstrates the AlkiVision Smart Security Camera's key features, including 2K vision, night vision, full-range motion control, simple installation, and two-way audio.

## Night Vision

The camera delivers 2K quality video and images day and night. It supports color, smart, and infrared night vision modes. With exclusive Magicpix technology, night vision performance is significantly enhanced, providing clearer and more detailed images in low-light conditions.

Experience clear surveillance even in low-light conditions with 2K HD color night vision, enhanced by Magicpix technology.

### Two-Way Audio

Equipped with a built-in microphone and speaker, the camera allows for seamless two-way communication. You can speak to visitors, delivery personnel, or deter unwanted individuals directly through the app.

## Two-way Audio & Multi-Device User Share

The integrated microphone and speaker enable real-time two-way communication, allowing interaction with visitors or deterring intruders.

### Storage Options

The camera supports 24/7 recording. It offers free rolling 3-day cycle cloud storage for convenient access to recent footage. Additionally, you can insert an SD card (up to 128GB, not included) for local storage, ensuring continuous recording even without an internet connection.

# 24/7 Recording

Protect your home all day and record any important moment.

Cloud

SD Cloud  
(not included)

The camera supports continuous 24/7 recording with free 3-day rolling cloud storage and local storage via an SD card (up to 128GB, not included).

## MAINTENANCE

- **Cleaning:** Regularly wipe the camera lens with a soft, dry cloth to ensure clear image quality. Avoid using harsh chemicals.
- **Firmware Updates:** Check the VicoHome app periodically for firmware updates. Keeping the firmware updated ensures optimal performance and access to new features.
- **Connectivity Check:** Ensure your Wi-Fi network is stable and within range of the camera for consistent performance. The camera operates on 2.4GHz Wi-Fi only.

## TROUBLESHOOTING

Issue	Possible Cause / Solution
Camera is offline or not powering on.	Ensure the light socket has power and is switched on. Check if the camera is securely screwed into the socket. Press the reset button for 2-3 seconds to restart the camera.
Poor video quality or blurry images.	Clean the camera lens with a soft cloth. Ensure adequate lighting, especially for night vision. Check your Wi-Fi signal strength; a weak signal can affect video streaming.
Motion detection not working or too many false alarms.	Adjust motion sensitivity settings in the VicoHome app. Define specific detection zones to exclude irrelevant areas. Ensure AI detection for humans/pets is enabled if desired.
Two-way audio is unclear or not working.	Check the volume settings on your smartphone and in the app. Ensure there are no obstructions blocking the camera's microphone or speaker. Verify stable internet connection for real-time audio transmission.
Cannot connect to Wi-Fi.	The camera only supports 2.4GHz Wi-Fi. Ensure your router is broadcasting a 2.4GHz signal and your phone is connected to it during setup. Check Wi-Fi password for accuracy. Move the camera closer to the Wi-Fi router.

## SPECIFICATIONS

Feature	Detail
Model Number	DP01
Indoor/Outdoor Usage	Outdoor
Connectivity Protocol	Wi-Fi (2.4GHz only)
Video Capture Resolution	1920p (2K HD)
Motion Detection	AI Motion Detection, Auto Tracking
Night Vision	Color, Smart, Infrared (Magicpix Technology)
Pan/Tilt Range	355° Horizontal, 90° Vertical
Audio	Two-Way Audio (Built-in Mic & Speaker)
Storage Options	Free 3-Day Rolling Cloud Storage, SD Card (up to 128GB, not included)
Power Source	Corded Electric (E27/E26 Light Socket)
Dimensions (L x W x H)	6.3 x 3.14 x 6.3 inches
Item Weight	1.21 pounds
