**Bluetooth 5.3 & USB Dongle:** The latest Bluetooth 5.3 chip provides seamless and stable connectivity. An included USB dongle offers an alternative connection method for devices without built-in Bluetooth, extending connectivity range up to 33ft/10m.

## 4. SETUP

### 4.1 Charging the Headset

The Vonztek headset is equipped with a 500mAh battery, offering up to 45 hours of talk time. It can be charged via the charging dock or

directly via the USB-C port.

1. **Using the Charging Dock:** Connect the USB-C charging cable to the charging dock and then to a power source (e.g., computer USB port, wall adapter). Place the headset onto the charging dock. The indicator light on the headset will flash red while charging and turn off when fully charged.
2. **Direct Charging:** Connect the USB-C charging cable directly to the USB-C port on the headset and then to a power source.

Image: Illustration showing two charging methods: direct USB-C cable connection to the headset and charging via the included dock.

## 4.2 Connecting the Headset

The headset supports dual connection methods: Bluetooth 5.3 and a USB dongle.

### 1. Bluetooth Connection:

- Turn on the headset by sliding the power switch to the "ON" position.
- To enter pairing mode, slide and hold the power switch in the "ON" position until the indicator light starts flashing blue and red.
- On your device (smartphone, tablet, laptop), enable Bluetooth and search for "Vonztek BT881".
- Select the headset from the list of available devices to pair. Once connected, the indicator light will turn solid blue.

### 2. USB Dongle Connection:

- Plug the USB Audio Dongle into an available USB port on your PC or laptop.
- Turn on the headset. It will automatically connect to the USB dongle. The indicator light on the dongle will turn solid blue once connected.
- This method provides a stable connection without requiring Bluetooth on your computer.

## Two Connection Methods

- 1: You can use bluetooth 5.3 or a usb dongle to connect.
- 2: Connecting two devices at the same time
- 3: The wireless distance achieve far more than 10m/33feet

## 5. OPERATING THE HEADSET

### 5.1 Basic Controls

- **Power On/Off:** Slide the power switch to "ON" or "OFF".
- **Volume Up/Down:** Use the dedicated volume buttons on the ear cup.
- **Play/Pause:** Press the multi-function button (often the main button on the ear cup).
- **Answer/End Call:** Press the multi-function button.
- **Reject Call:** Press and hold the multi-function button.
- **Mute/Unmute Microphone:** Press the mute button located on the microphone arm or ear cup. An audible prompt will confirm "Mute On" or "Mute Off".

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the headset and charging dock. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. When not in use, place it on the

charging dock to keep it organized and charged.

- **Battery Care:** To prolong battery life, avoid fully discharging the headset frequently. Charge it regularly, even if not in constant use.

## 7. TROUBLESHOOTING

Problem	Possible Solution
Headset does not power on.	Ensure the headset is charged. Connect it to the charging dock or directly via USB-C cable.
Cannot pair via Bluetooth.	Ensure the headset is in pairing mode (flashing blue/red light). Check if Bluetooth is enabled on your device. Move the headset closer to the device. Forget previous pairings on your device and try again.
No sound or poor sound quality.	Check the volume levels on both the headset and your connected device. Ensure the headset is selected as the audio output device in your system settings. Recharge the headset if the battery is low.
Microphone not working.	Ensure the microphone is not muted. Check the microphone input settings on your computer/device. Ensure the microphone arm is properly positioned.
USB dongle not connecting.	Ensure the dongle is fully inserted into the USB port. Try a different USB port. Restart your computer.
