# VIJIM MT-79 Extendable Photography Light Stand User Manual

Model: MT-79

## 1. INTRODUCTION

---

The VIJIM MT-79 is a versatile, extendable photography light stand designed for various applications, including use as a light stand, camera tripod, or selfie stick. Its compact and portable design makes it suitable for both indoor and outdoor use. This manual provides instructions for the proper setup, operation, and maintenance of your MT-79 light stand.

Figure 1: The VIJIM MT-79 light stand shown in its extended tripod configuration with a light attached, and in its compact handheld form.

## 2. PRODUCT OVERVIEW

---

### 2.1 Package Contents

The product package includes the following item:

- MT-79 Extendable Light Stand Tripod

### 2.2 Key Features

- **Extendable Design:** 7 levels of height adjustment, extending up to 81 inches (204 cm).
- **Compact Portability:** Retracts to 14.4 inches (36.5 cm) and weighs 550g for easy transport.
- **Standard 1/4" Screw:** Compatible with a wide range of photographic accessories.
- **180° Adjustable Ball Head:** Allows for flexible positioning of attached devices.
- **Stable Construction:** Crafted from aluminum alloy with foldable long legs and anti-slip foot pads.

# Multiple Stabilization

Giving You More Peace of Mind

Figure 2: Detailed view of the MT-79's stabilization features and components.

## 3. SETUP INSTRUCTIONS

### 3.1 Unfolding the Tripod Legs

1. Hold the main body of the stand.
2. Gently pull the legs outwards until they are fully extended and stable. The leg opening angle can be adjusted as needed for different shooting requirements.
3. Ensure the tripod locking knob (if present) is tightened clockwise to secure the leg position.

### 3.2 Adjusting Height

1. Loosen the tripod locking knob by turning it counter-clockwise.
2. Extend the telescopic sections of the stand to the desired height. The stand offers 7 levels of height adjustment, up to 81 inches (204 cm).
3. Once the desired height is reached, tighten the tripod locking knob clockwise to secure the extended sections.

# 7 Level Adjustable Height

Locking knob design for quick retraction and adjustment.

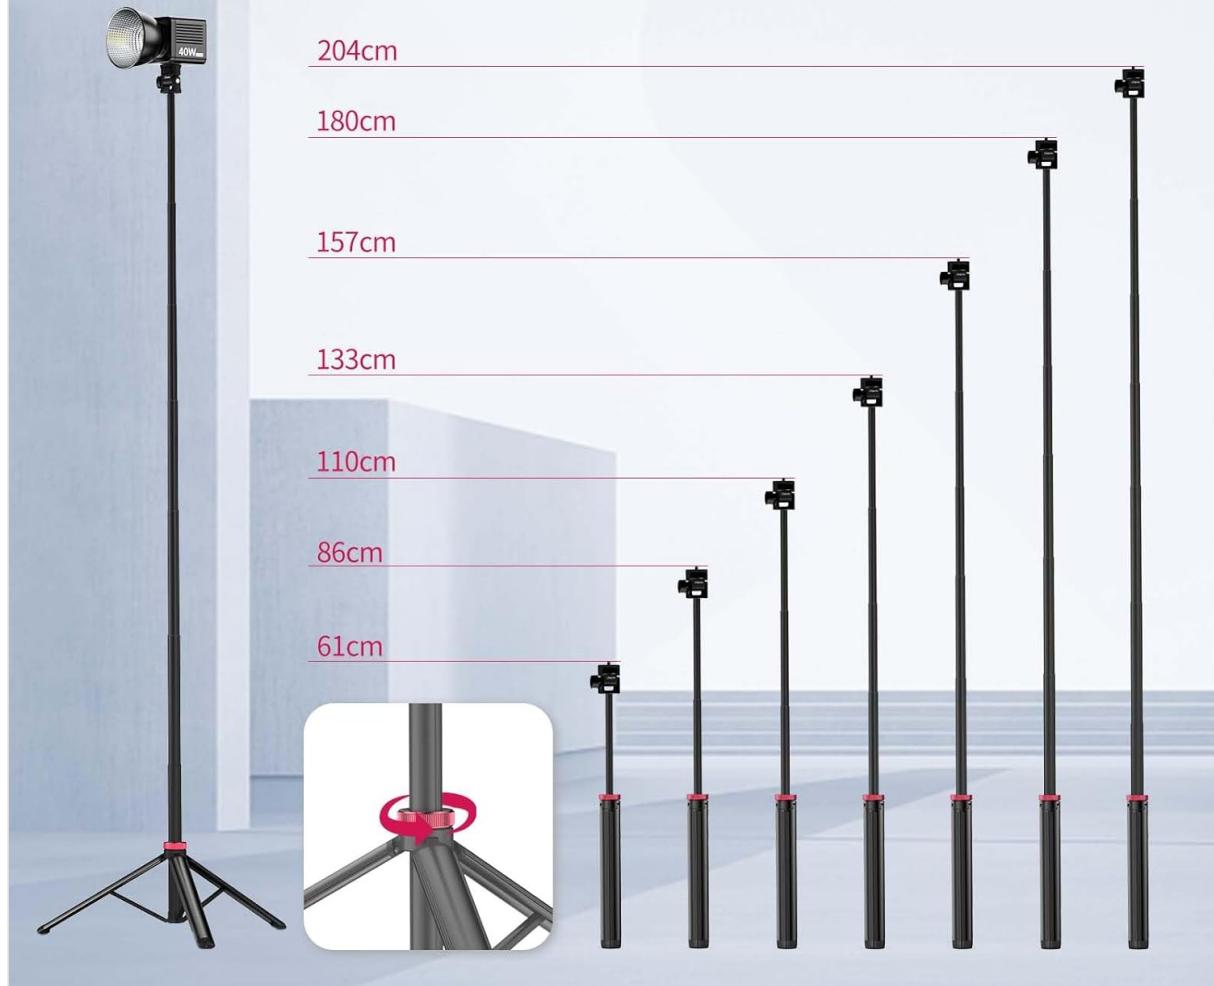

Figure 3: Height adjustment mechanism and available height levels.

## 3.3 Attaching Devices

1. The top of the stand features a standard 1/4" screw connector.
2. Align your device (e.g., camera, video light, ring light, webcam) with the 1/4" screw.
3. Rotate your device clockwise onto the screw until it is securely fastened. Do not overtighten.

# Standard 1/4" Screw

Compatible with photography equipment such as gimbals, cameras, smartphones, reflectors, soft boxes, LED lights, reflective umbrellas, reflectors, etc.

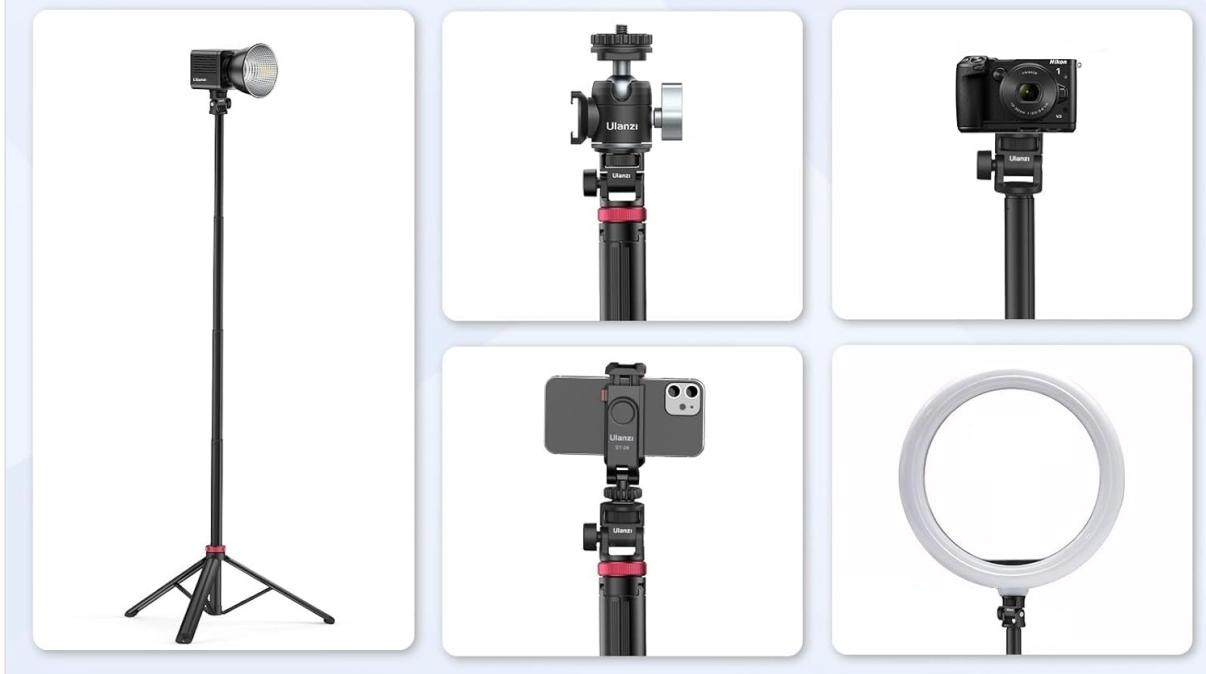

Figure 4: Standard 1/4" screw compatibility with various devices.

## 4. OPERATING THE STAND

### 4.1 Adjusting the Ball Head Angle

1. Locate the ball head locking knob on the side of the ball head.
2. Turn the knob counter-clockwise to loosen the ball head.
3. Adjust the attached device to the desired angle (up to 180 degrees front and back).
4. Turn the knob clockwise to secure the ball head in place.

# 180° Angle Adjustable

0-180 adjustable angle to meet different needs

Figure 5: Ball head angle adjustment.

## 4.2 Using as a Handheld Device

When the legs are folded, the MT-79 can be used as an extendable handheld device, similar to a selfie stick. Ensure all sections are securely locked when extending for handheld use.

### Multiple scenarios, multiple uses

1/4" screw, can be connected to fill lights, cameras, mobile phone clips, action cameras and other equipment

\*Product only includes light stand, and the recommended load capacity is 1kg

Figure 6: Examples of the MT-79 in different usage scenarios.

## 5. MAINTENANCE

---

- **Cleaning:** Wipe the stand with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Storage:** Store the stand in a dry, cool place when not in use. Retract all sections and fold the legs for compact storage.
- **Inspection:** Periodically check all locking mechanisms and screws to ensure they are functioning correctly and securely tightened.

## 6. TROUBLESHOOTING

---

- **Instability:** Ensure the tripod legs are fully extended and the tripod locking knob is tightened. For heavier loads, ensure the center of gravity is balanced. Avoid use in windy conditions without additional stabilization.
- **Device Not Secure:** Verify that the 1/4" screw is fully engaged with your device and tightened appropriately.
- **Difficulty Adjusting Height:** Check if the tripod locking knob is fully loosened before attempting to extend or retract sections.

## 7. SPECIFICATIONS

---

Feature	Specification
Model Name	MT-79
Material	Aluminum Alloy
Maximum Height	204 cm (81 inches)
Retracted Length	36.5 cm (14.4 inches)
Item Weight	550g (1.21 lbs)
