Air-Scent WD-Smokey-Black

AirScent Wireless Essential Oil Diffuser Instruction Manual

Brand: Air-Scent

Model: WD-Smokey-Black

INTRODUCTION

The AirScent Wireless Essential Oil Diffuser is designed to provide a waterless aromatherapy experience, efficiently dispersing essential oils throughout your space. Its compact and portable design, combined with a long-lasting battery, allows for flexible placement in various environments such as homes, offices, and hotels. This manual provides detailed instructions for the proper setup, operation, and maintenance of your diffuser to ensure optimal performance and longevity.

The AirScent Wireless Essential Oil Diffuser in Smokey Black, shown with its accompanying remote control.

IMPORTANT SAFETY INFORMATION

Please read all safety instructions carefully before using the diffuser. Failure to follow these instructions may result in electric shock, fire, or other injuries.

- Use only the provided charging cable and a compatible USB power adapter.
- Do not use water or any water-based solutions in the diffuser. This is a waterless diffuser designed exclusively

for pure essential oils.

- Keep the diffuser out of reach of children and pets.
- Do not disassemble, repair, or modify the diffuser yourself. Contact customer support for assistance.
- Ensure the diffuser is placed on a stable, flat surface away from direct sunlight, heat sources, and flammable materials.
- Avoid direct contact with essential oils, as they can be corrosive to certain surfaces. Clean up any spills immediately.
- Unplug the diffuser when not in use for extended periods or during cleaning.

PACKAGE CONTENTS

Verify that all items are present in your package:

- AirScent Wireless Essential Oil Diffuser
- Remote Control
- USB Charging Cable
- Empty 100mL Essential Oil Bottle (pre-installed or separate)
- User Manual (this document)

PRODUCT OVERVIEW

Components

- **Diffuser Unit:** Main body containing the nebulizer and battery.
- **Control Panel:** Buttons for High, Med, Low diffusion settings, and Power.
- **Indicator Lights:** Display battery status and current diffusion level.
- **Essential Oil Bottle Compartment:** Located at the top, where the oil bottle is screwed in.
- **Remote Control:** For convenient operation from a distance.

The AirScent diffuser and its remote control positioned on a wooden surface, highlighting its sleek design.

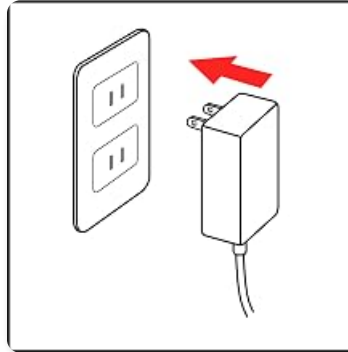

A detailed view of the remote control, showing buttons for power, diffusion intensity, and timer settings.

SETUP

Initial Charging

Before first use, fully charge the diffuser for approximately 12 hours. The blue indicator light will blink during charging and stop blinking when fully charged.

1. Connect the USB charging cable to the charging port at the base of the diffuser.
2. Plug the other end of the USB cable into a compatible USB power adapter (not included) and then into a wall outlet.
3. Allow the diffuser to charge until the blue indicator light stops blinking.

Ensure the diffuser is properly plugged into a power source for charging.

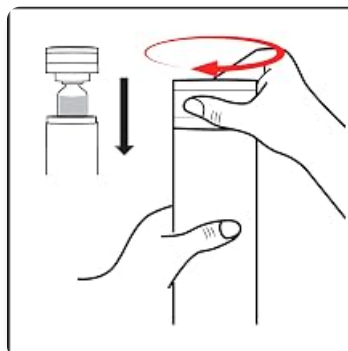

Filling the Diffuser

The AirScent diffuser is a waterless system. Only use pure essential oils. Do not add water.

1. Unscrew the empty 100mL essential oil bottle from the diffuser unit.
2. Carefully fill the bottle with your desired pure essential oil. Do not overfill; the capacity is 100mL (approximately 1 oz).
3. Screw the filled essential oil bottle back into the diffuser unit, ensuring it is tight to prevent leaks.

This diffuser is waterless; only pure essential oils should be used.

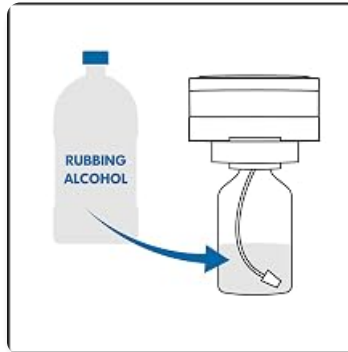

Fill the provided bottle with your preferred essential oil.

Assembling the Diffuser

Once the oil bottle is filled, securely attach it to the diffuser unit.

1. Insert the filled essential oil bottle into the designated compartment at the top of the diffuser.
2. Turn the bottle clockwise until it is tightly secured. Ensure it is not overtightened, but firm enough to prevent leaks.

Screw the essential oil bottle tightly into the diffuser unit.

OPERATING INSTRUCTIONS

Powering On/Off

The diffuser can be powered on or off using the button on the unit or the remote control.

- **To Power On:** Press the power button on the diffuser or the 'ON' button on the remote control. The indicator lights will illuminate.
- **To Power Off:** Press the power button on the diffuser or the 'OFF' button on the remote control. The indicator lights will turn off.

Adjusting Diffusion Settings

The diffuser offers multiple intensity levels and timer settings to customize your aromatherapy experience.

- **Intensity Levels:** Use the 'HIGH', 'MED', or 'LOW' buttons on the diffuser or remote to select the desired scent intensity. Higher settings will disperse more oil and cover a larger area.
- **Timer Settings:** Use the timer buttons on the remote control (2H, 4H, 8H, 12H) to set the operating duration. The diffuser will automatically shut off after the selected time.

The diffuser seamlessly integrates into various home environments, providing consistent scent dispersal.

Using the Remote Control

The remote control provides convenient access to all diffuser functions from a distance.

- **Power:** 'ON' and 'OFF' buttons.
- **Intensity:** 'HIGH', 'MED', 'LOW' buttons.
- **Timer:** '2H', '4H', '8H', '12H' buttons for setting automatic shut-off.
- **Light Control:** Button with sun icon to control the LED light feature (if applicable).

The diffuser's design allows it to blend with various decorative items.

MAINTENANCE

Cleaning

Regular cleaning is essential to maintain optimal performance and prevent oil residue buildup.

1. Ensure the diffuser is powered off and unplugged before cleaning.
2. Unscrew the essential oil bottle from the unit.
3. Pour out any remaining essential oil from the bottle.
4. Add a small amount of rubbing alcohol to the empty essential oil bottle (approximately 5-10mL).
5. Screw the bottle with rubbing alcohol back into the diffuser unit.
6. Run the diffuser on a low setting for 10-15 minutes to clean the nebulizer.

7. Remove the bottle, discard the rubbing alcohol, and allow the bottle and nebulizer to air dry completely before refilling with essential oil.
8. Wipe the exterior of the diffuser with a soft, dry cloth. Do not use abrasive cleaners or immerse the unit in water.

Use rubbing alcohol for effective cleaning of the diffuser's internal components.

Storage

When storing the diffuser for an extended period:

- Ensure the diffuser is clean and completely dry.
- Remove the essential oil bottle and store it separately, or ensure it is empty and clean.
- Store the diffuser in a cool, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your AirScent diffuser, please refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Diffuser does not power on.	Low battery or charging issue.	Ensure the diffuser is fully charged (charge for 12 hours initially). Check if the charging cable and USB power adapter are working correctly. Try a different USB power adapter.
No mist or very weak mist.	Essential oil bottle not screwed in tightly, bottle empty, or nebulizer clogged.	Ensure the essential oil bottle is screwed in tightly. Check if there is enough essential oil in the bottle. Perform a cleaning cycle with rubbing alcohol as described in the Maintenance section.
Diffuser is making unusual noise.	Normal operating sound or internal issue.	A slight humming or buzzing sound during operation is normal for nebulizing diffusers. If the noise is excessive or unusual, ensure the diffuser is on a stable surface and the oil bottle is securely attached. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Scent is too strong or too weak.	Incorrect intensity setting.	Adjust the diffusion intensity using the 'HIGH', 'MED', or 'LOW' buttons on the diffuser or remote control. Consider the size of your room and the type of essential oil used.
