**YESYAMO YESYAMO**

# YESYAMO 5MP+3TB Wireless Surveillance Camera System User Manual

Model: YESYAMO

## Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your YESYAMO 5MP+3TB Wireless Surveillance Camera System. This comprehensive security solution includes a 12-inch NVR monitor, four 5MP wireless cameras with color night vision, and a pre-installed 3TB hard drive for continuous recording. Designed for both indoor and outdoor use, the system features AI human detection, two-way audio, and IP66 weather resistance to ensure reliable protection for your property.

## Product Overview

The YESYAMO surveillance system is engineered for ease of use and robust performance. Below are the main components and their key features:

### Key Features

- **5MP Ultra HD Resolution:** Each camera captures video at 2560 x 1920, providing 2.5 times sharper images than 1080p.
- **Integrated 12-inch LCD Monitor NVR:** All-in-one video recorder with a built-in 3TB hard drive, saving the need for an external screen.
- **24/7 Continuous Recording:** Supports continuous recording for all cameras with H.265+ compression and automatic overwrite technology.
- **Intelligent AI Human Detection:** Distinguishes humans from pets and other objects, reducing false alarms. Features spotlight and siren warnings.
- **Two-Way Audio:** Built-in speaker on outdoor cameras allows clear communication via the app.
- **IP66 Weatherproof:** Wireless cameras are waterproof and dustproof, suitable for all weather conditions (-10°C to 50°C).
- **Expandable System:** The 4-camera set can be expanded to support up to 10 surveillance cameras.

### System Components

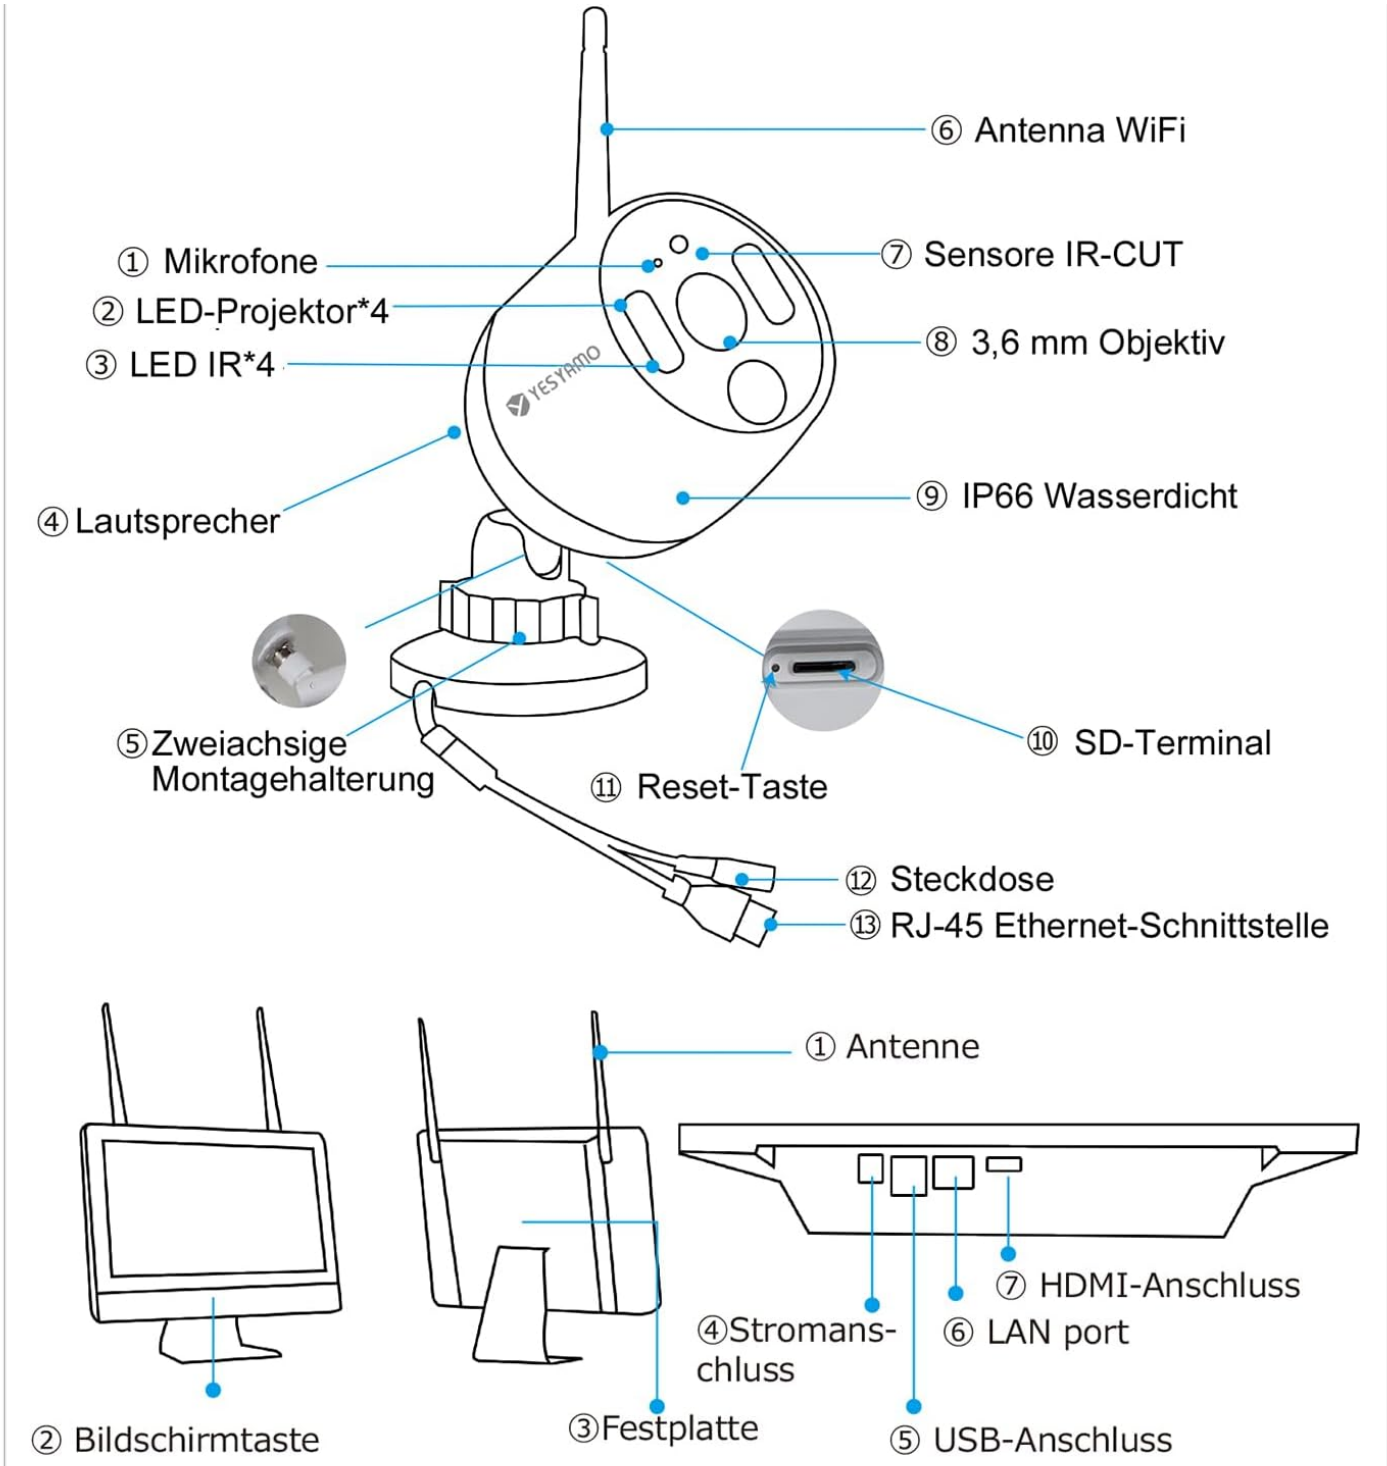

*The complete YESYAMO 5MP+3TB Wireless Surveillance Camera System, featuring the 12-inch NVR monitor and four high-resolution outdoor cameras.*

*This image displays all items included in the YESYAMO surveillance camera system package, such as the NVR monitor, four WLAN cameras, power adapters, 3TB hard drive, USB mouse, warning stickers, and the multi-language user manual.*

## Component Diagram

*Detailed diagram illustrating the various parts and connections of both the YESYAMO camera and the NVR monitor for easy identification and setup.*

## Setup and Installation

The YESYAMO system is designed for quick and easy installation. Follow these steps to get your system up and running.

### 1. Initial Setup (Plug and Play)

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Connect NVR:** Plug the NVR monitor's power adapter into a power outlet. The monitor will power on automatically.
3. **Connect Cameras:** Plug each camera's power adapter into a power outlet. The cameras will automatically pair with the NVR.
4. **Automatic Pairing:** The cameras are pre-paired with the NVR at the factory. Once powered, they will automatically connect and display video on the NVR monitor.

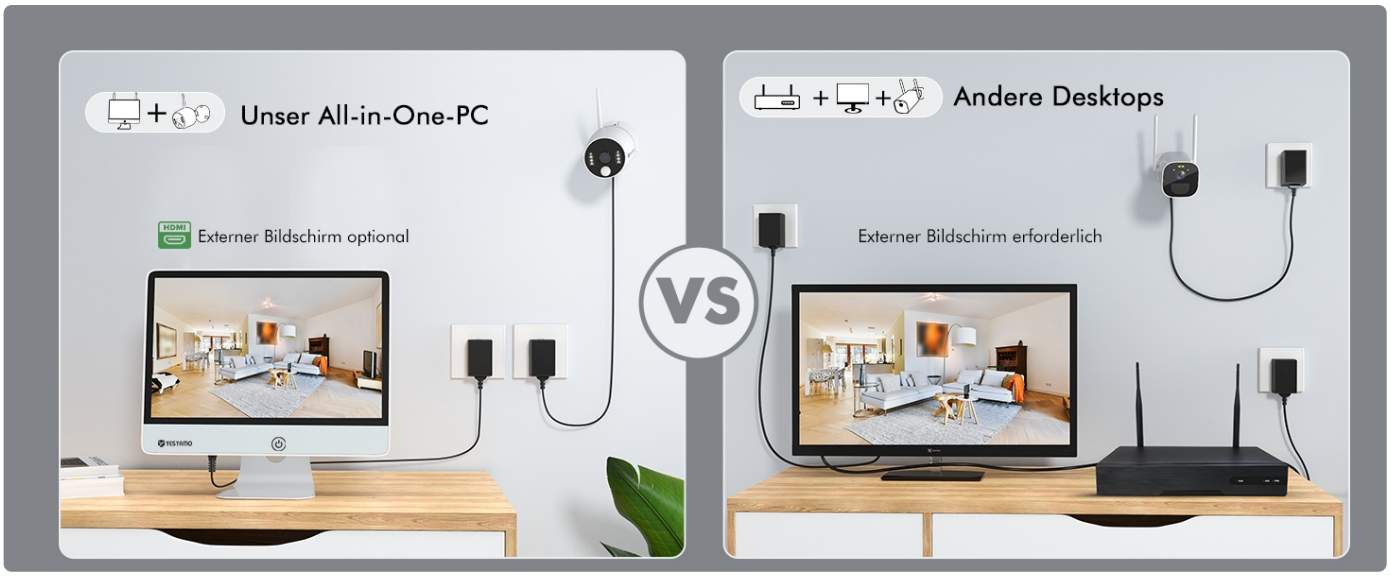

*This diagram illustrates the simple plug-and-play setup, where cameras automatically connect to the NVR upon power-up.*

## 2. Optional Network Connection for Remote Viewing

While the system operates locally without a network, connecting it to your home network enables remote viewing via the mobile app or PC software.

- **Connect NVR to Router:** Use an Ethernet cable to connect the NVR's RJ-45 port to your internet router.
- **Download App:** Download the official YESYAMO app (e.g., "EseeCloud" or similar, check manual for exact name) from your smartphone's app store (iOS/Android).
- **Add Device:** Follow the in-app instructions to add your NVR system. This usually involves scanning a QR code displayed on the NVR monitor or entering a device ID.
- **PC Software:** Software for Windows and Mac OS is also available for remote viewing on computers.

*Remote viewing is possible across multiple devices once the NVR is connected to the internet.*

## Operating Instructions

### 1. Video Monitoring and Recording

- **Live View:** The 12-inch NVR monitor displays live feeds from all connected cameras. You can switch between single-camera view and multi-camera grid view using the NVR controls (via USB mouse).
- **5MP Ultra HD & Color Night Vision:** The built-in spotlight enables full-color night vision, capturing more detail in low-light conditions.
- **24/7 Recording:** The system continuously records footage to the pre-installed 3TB hard drive. Older footage is automatically overwritten when the disk is full.
- **Playback:** Access recorded footage directly from the NVR monitor or via the mobile app/PC software.

# 5MP Ultra HD-Qualität

*The image demonstrates the clarity of 5MP Ultra HD resolution during the day and the vibrant color night vision provided by the camera's spotlight.*

*This graphic highlights the system's versatile recording options, including continuous 24/7 recording, scheduled recording, and event-triggered recording.*

## 2. Smart Detection and Alerts

- **AI Human Detection:** The system uses artificial intelligence to accurately detect human figures, minimizing false alarms from animals or swaying branches.
- **Alarm Methods:** Upon detecting a human, the cameras can activate a spotlight, trigger a siren, and send instant push notifications to your mobile app and email alerts.

*The camera's AI human detection system identifies intruders and activates visual and audible alarms, sending notifications to your phone.*

## 3. Two-Way Audio Communication

- Each outdoor camera is equipped with a built-in microphone and speaker.
- Use the mobile app to speak through the camera, allowing you to communicate with visitors or deter unwanted individuals from anywhere.

*The two-way audio feature allows for real-time communication through the camera via the mobile application.*

## 4. System Expansion

- The NVR supports up to 10 cameras. You can add up to 6 additional YESYAMO wireless cameras to your existing 4-camera setup.
- Refer to the additional camera's manual for pairing instructions, if different from the initial setup.

*The system is expandable, allowing you to add more cameras for broader coverage, up to a total of 10.*

## Maintenance

Proper maintenance ensures the longevity and optimal performance of your YESYAMO surveillance system.

### 1. Weather Resistance

- The cameras are IP66 rated, meaning they are fully protected against dust and can withstand powerful water jets. They are suitable for outdoor use in various weather conditions.
- Ensure all cable connections are secure and protected from direct exposure to extreme elements to prevent water ingress.

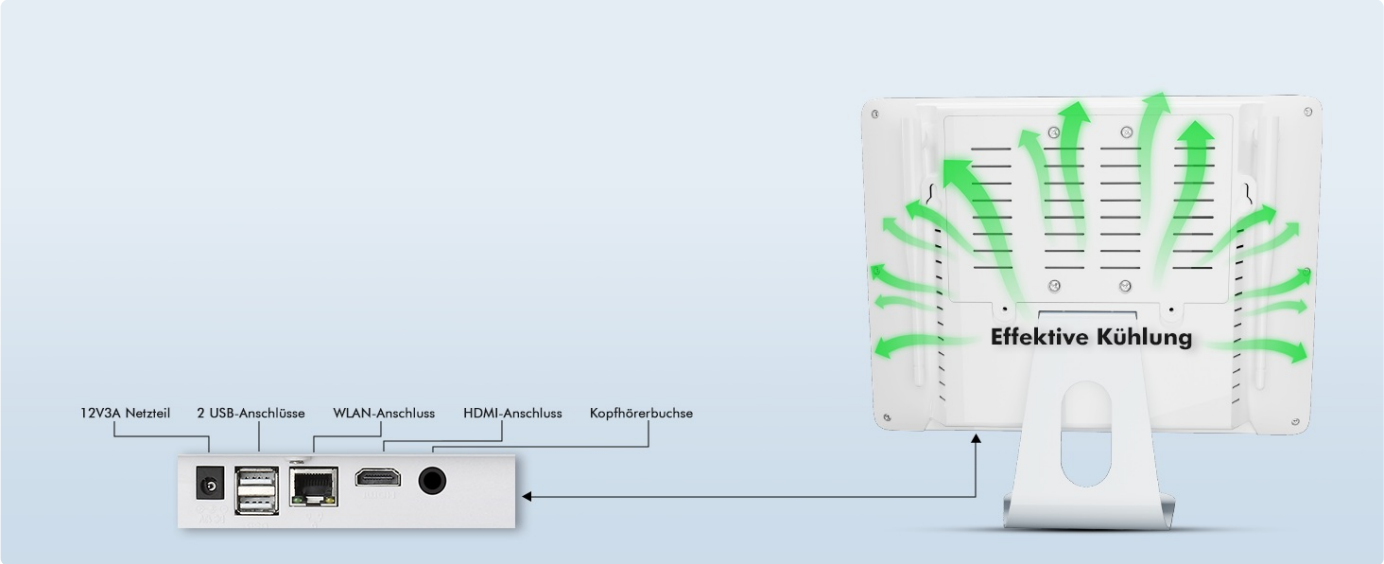

*The IP66 rating ensures the cameras are robust and can operate effectively in diverse outdoor environments, from -10°C to 50°C.*

### 2. Hard Drive Management

- The NVR comes with a 3TB hard drive for ample storage. Thanks to H.265+ compression, more footage can be stored compared to older H.264 systems.
- The system supports automatic overwriting, meaning the oldest footage is deleted to make space for new recordings once the hard drive is full.

- The hard drive can be upgraded to 6TB if more storage is required. Consult the NVR's internal settings for hard drive status and management options.

*H.265+ compression technology significantly optimizes storage space on the 3TB hard drive, allowing for longer recording periods.*

## 3. Data Privacy and Security

- The system utilizes advanced AES-256 bit encryption technology to protect your data.
- Regular software updates are provided to enhance security and privacy.
- Cloud services, if used, are also encrypted to ensure the complete security and privacy of your home.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your YESYAMO surveillance system.

| Problem | Possible Cause | Solution |
|---|---|---|
| No image on NVR monitor. | NVR or camera not powered; camera out of range; camera not paired. | Ensure NVR and all cameras are properly plugged in. Move cameras closer to NVR. If necessary, manually pair cameras (refer to full manual for pairing steps). |
| Poor image quality at night. | Infrared/spotlight obstruction; camera lens dirty; camera too far from subject. | Clear any obstructions in front of the camera. Clean the camera lens gently. Ensure the camera is positioned within effective night vision range. |
| Frequent false alarms. | Sensitivity too high; non-human objects triggering detection. | Adjust the motion detection sensitivity settings in the NVR menu or mobile app. Utilize the AI human detection feature to filter out non-human movements. |
| Cannot connect to system via mobile app. | NVR not connected to internet; incorrect app settings; network issues. | Ensure the NVR is connected to your router via Ethernet. Verify your phone has internet access. Double-check device ID/QR code entry in the app. Restart NVR and router. |
| NVR monitor fan noise. | Normal operation; dust accumulation. | A slight fan noise is normal for cooling. Ensure the NVR is placed in a well-ventilated area. Clean dust from vents periodically. |

For further assistance, please refer to the comprehensive user manual included in your package or contact YESYAMO customer support.

## Specifications

| Feature | Detail |
|---|---|
| Product Dimensions | 32 x 25 x 25 cm; 4.75 Kilograms |
| Model Number | YESYAMO |
| Power Source | 12V Adapter |
| Special Features | Two-Way Audio, Motion Sensor, Siren Alarm, Weatherproof, Night Vision |
| Connectivity Technology | Wireless |
| Video Capture Resolution | 2592 x 1944 (5MP) |
| Number of Channels | 4 (expandable to 10) |
| NVR Monitor Size | 12-inch LCD |
| Hard Drive Capacity | 3TB (expandable to 6TB) |
| Operating Temperature | -10°C to 50°C |

## Warranty and Support

YESYAMO is committed to providing high-quality products and customer satisfaction.

- **Warranty:** Your YESYAMO surveillance camera system comes with a 1-year warranty from the date of purchase.
- **Returns:** Enjoy a 30-day free return policy.
- **Technical Support:** Lifetime technical support is available. If you require assistance with installation, operation, or troubleshooting, please contact YESYAMO customer service through the contact information provided in your product packaging or on the official YESYAMO website.
