Joolz AER+ Lightweight & Compact Travel Stroller Instruction Manual

Model: 440100 | Brand: Joolz

1. INTRODUCTION

Thank you for choosing the Joolz AER+ Lightweight & Compact Travel Stroller. This manual provides essential information for the safe and proper assembly, operation, maintenance, and troubleshooting of your stroller. Designed for children aged 6 months to 4 years (up to 50 lbs), the Joolz AER+ combines convenience, comfort, and portability, making it ideal for active families and travel.

2. SAFETY INFORMATION

SAFETY 1st: Always ensure your child is securely fastened with the 5-point click & go buckle and adjustable harness. The patented seat design is engineered for enhanced child protection. Never leave your child unattended in the stroller. Ensure the stroller is fully unfolded and locked before placing a child inside. Always engage the brake when the stroller is stationary.

3. WHAT'S IN THE Box

Your Joolz AER+ package includes:

- Joolz AER+ Stroller
- Travel Pouch

4. SETUP

The Joolz AER+ stroller comes largely pre-assembled for your convenience. Follow these steps for initial setup:

1. Remove the stroller and travel pouch from the packaging.
2. Place the stroller on a flat, stable surface.
3. Locate the folding mechanism on the handlebar. Press the release button and give a gentle flick to unfold the stroller until it clicks securely into place. Ensure all locking mechanisms are engaged before use.

The Joolz AER+ Stroller in its fully unfolded position, showcasing its ergonomic design and ready-to-use state.

5. OPERATING INSTRUCTIONS

5.1 Folding and Unfolding

The Joolz AER+ features a portable one-hand fold design. To fold, ensure the canopy is retracted. Press the button on the handlebar and push forward until the stroller collapses. It will lock automatically. To unfold, release the lock and give a gentle flick to open.

Official video demonstrating the one-hand folding and unfolding mechanism of the Joolz AER+ stroller, highlighting its compact nature.

10 Year transferable
warranty

The Joolz AER+ stroller in its compact, folded state, ideal for storage and travel.

5.2 Harness System

The stroller is equipped with a 5-point click & go buckle and an adjustable harness. Ensure the harness straps are snug but comfortable around your child. The non-rethreading harness allows for easy height adjustment as your child grows.

5.3 Seat Recline

The ergonomic seat offers an adjustable recline for your child's comfort. To recline the seat, locate the zipper on the back of the seat and unzip it. This allows the seat to extend further back, providing optimal neck and back support, especially for napping. The seat is designed to support children up to 50 lbs.

5.4 Canopy Operation

The XXL Sun Hood provides UPF 50+ protection and features extra ventilation. Extend the canopy fully to shield your child from the sun. The canopy can be retracted when not needed.

5.5 Brake System

The stroller features a flip-flop friendly brake system located near the rear wheels. Press down on the brake pedal to engage the brake and ensure the stroller is stationary. Lift the pedal to release the brake.

5.6 Portability

Weighing only 13.2 lbs, the Joolz AER+ is exceptionally lightweight. It includes a shoulder strap and a travel pouch for easy transportation. Its compact folded size (17.7 x 21 x 8.5 Inches) makes it compatible with most airplane overhead bins, simplifying travel.

10 Year transferable
warranty

The Joolz AER+ stroller is designed for travel, with a compact size that fits in most airplane overhead bins.

6. MAINTENANCE

To keep your Joolz AER+ stroller in optimal condition, regularly clean the frame with a damp cloth. The fabrics are hand-washable for easy maintenance. Refer to the care label on the fabric for specific washing instructions. Periodically check all moving parts, wheels, and locking mechanisms for proper function and wear.

7. TROUBLESHOOTING

If you encounter any issues with your Joolz AER+ stroller, please refer to the following general advice:

- Stroller not unfolding/folding smoothly:** Ensure all previous locks are disengaged and no fabric is caught in the mechanism. Apply gentle, even pressure.
- Wheels not moving freely:** Check for debris or hair caught in the wheel axles. Clean as necessary.
- Harness difficult to buckle/unbuckle:** Ensure all buckle components are aligned correctly and free of obstructions.

For persistent issues or concerns not addressed here, please contact Joolz customer support.
