Scosche MFMS22-XCES0

Scosche MagicMount Flask User Manual

Model: MFMS22-XCES0

1. PRODUCT OVERVIEW

The Scosche MagicMount Flask is a versatile 22 oz stainless steel water bottle designed with an integrated MagSafe-compatible phone mount. It allows users to stay hydrated while keeping their smartphone securely positioned for hands-free viewing, recording, or communication. This insulated flask maintains beverage temperatures for extended periods and offers broad compatibility with various phone models.

2. KEY FEATURES

- **Integrated Magnetic Phone Mount:** Features a built-in MagSafe-compatible mount on the lid, allowing secure attachment of iPhone 12 and newer models.

- **Double-Wall Insulation:** Constructed from double-wall stainless steel to keep drinks cold for up to 24 hours and hot for up to 12 hours.

- **360° Rotating Mount Head:** The phone mount offers a 360-degree rotation for easy transitions between portrait and landscape viewing modes.

- **Broad Phone Compatibility:** Includes a MagicRing adapter to ensure compatibility with Android devices and older iPhone models that are not MagSafe-compatible.

- **Strong Neodymium Magnets:** Equipped with powerful rare-earth neodymium magnets for a reliable and secure hold, capable of supporting up to 3.5 lbs.

- **Anti-Slip Silicone Base:** Provides stability and can be removed to function as a portable water bowl or cup.

- **Leak-Proof Design:** Features a leak-proof cap with a quick-flip straw for convenient hydration.

3. SETUP

3.1 Initial Cleaning

Before first use, wash the bottle thoroughly. The bottle is dishwasher safe, but the cap should be hand washed to preserve its components.

3.2 Straw Assembly

Insert the removable straw firmly into the quick-flip straw mechanism located on the underside of the cap.

3.3 MagicRing Adapter Installation (for non-MagSafe phones)

If your phone is not MagSafe-compatible (e.g., Android devices or older iPhones), use the included MagicRing adapter. Clean the back of your phone or phone case. Peel off the adhesive backing from the MagicRing and center it on the back of your device. Press firmly for optimal adhesion. This ring provides a magnetic surface for the MagicMount Flask.

Image: Demonstrating MagSafe compatibility and MagicRing adapter use for other phones.

4. OPERATING INSTRUCTIONS

4.1 Filling the Flask

Unscrew the cap and fill the flask with your desired beverage. Ensure not to overfill to prevent spills when closing the cap. For best insulation, pre-chill or pre-heat the flask with water before adding your drink.

4.2 Using the Straw Cap

Flip open the quick-flip straw for easy sipping. When not in use, press the straw back down to seal the cap and prevent leaks.

4.3 Attaching Your Phone

Align your MagSafe-compatible iPhone (or phone with MagicRing adapter) with the magnetic surface on the flask's lid. The powerful magnets will securely hold your device in place. The mount head can be rotated 360 degrees to adjust your phone's orientation (portrait or landscape) as needed.

4.4 Versatile Placement

The MagicMount Flask is designed for use in various environments:

- **Gym:** Attach your phone to the flask for hands-free viewing of workout routines or recording exercises. The flask can also be mounted to steel gym equipment.
- **Office/Desk:** Use it as a convenient phone stand for video calls or multitasking.

- **Kitchen:** Follow recipes or watch tutorials while cooking.
- **Car:** Fits in most car cup holders, providing a stable phone mount for navigation or entertainment (ensure safe and legal use while driving).
- **Outdoors:** Ideal for travel, sports, or any outdoor activity where a stable phone mount is beneficial.

4.5 Using the Built-in Pet Bowl

The protective silicone base can be easily removed from the bottom of the flask and used as a temporary water bowl for pets or as an extra cup.

5. MAINTENANCE AND CARE

- **Bottle Cleaning:** The stainless steel bottle is dishwasher safe.

- **Cap Cleaning:** The cap, straw, and magnetic mount components should be hand washed with warm, soapy water. Do not place the cap in the dishwasher to prevent damage to the magnetic and hinge mechanisms.

- **Drying:** Ensure all parts are thoroughly dry before reassembling and storing to prevent odor or mildew.
- **Magnetic Mount Care:** Keep the magnetic surface clean and free of debris to ensure optimal magnetic adhesion. Avoid exposing the magnetic mount to extreme temperatures or harsh chemicals.

6. TROUBLESHOOTING

- **Phone Not Attaching Securely:**
  - Ensure your iPhone is MagSafe-compatible (iPhone 12 or newer) or that the MagicRing adapter is properly installed and centered on your non-MagSafe phone/case.
  - Check for any obstructions or debris on the magnetic surface of the flask or your phone/MagicRing.
  - Verify that the phone case (if used) is not too thick or interfering with the magnetic connection.

- **Leakage from Cap:**
  - Ensure the cap is screwed on tightly and correctly aligned with the bottle threads.
  - Confirm the quick-flip straw is fully closed and sealed.
  - Check the silicone gasket inside the cap for proper placement and any signs of damage.

- **Reduced Insulation Performance:**
  - Ensure the cap is fully sealed to maintain temperature.
  - Avoid leaving the flask in direct sunlight or extreme heat/cold for prolonged periods.

7. SPECIFICATIONS

Brand	Scosche
Model Name	MagicMount Flask 22oz
Item Model Number	MFMS22-XCES0
Capacity	22 Ounces
Color	Black
Material	Stainless Steel
