## Lamshaw IDW17, IDW20, IDW21, IDW23, IDW25, IDW26

# Lamshaw Smart Watch Charger User Manual

Magnetic USB Replacement Charging Cable

## 1. INTRODUCTION

Thank you for choosing the Lamshaw Smart Watch Charger. This magnetic USB charging cable is designed to provide a convenient and efficient charging solution for your compatible smartwatches. Please read this manual carefully to ensure proper use and maintenance of your charging cable.

---

## 2. COMPATIBILITY

This charging cable is specifically designed for the following Smart Watch models:

- IDW17
- IDW20
- IDW21
- IDW23
- IDW25
- IDW26

Please verify your watch model before use to ensure compatibility.

# Compatible with Model

TOOBUR IDW17

KEEPOFIT IDW21

TOOBUR IDW23

WNH IDW25

Faweio IDW26

Figure 2.1: Compatible Smartwatch Models. This image displays several smartwatch models (IDW17, IDW21, IDW23, IDW25, IDW26) that are compatible with this charging cable, illustrating the variety of devices it supports.

## 3. KEY FEATURES

- **Magnetic Connection:** Ensures a secure and stable connection for efficient charging.
- **Durable Construction:** Made with ABS+PC materials for the probe and a flexible PVC cable for longevity and easy storage.
- **Fast Charging:** Designed for high-speed charging, capable of fully charging your device in approximately 2.5 hours with a 1A output current.
- **Portable Design:** Lightweight and compact, making it easy to carry in your bag for use at home, office, car, or during travel.

**Pure Copper Probe**

Rapid and stable conduction

**ABS+PC**

Durable

**Flexible PVC Cable**

Easy to roll ,convenient for storage

3.3 feet / 1 M

Figure 3.1: Cable Construction Details. This image details the construction of the charging cable, pointing out the pure copper probe for rapid conduction, durable ABS+PC material, and the flexible PVC cable designed for easy rolling and convenient storage.

# ORIGINAL HIGH-SPEED CHARGING

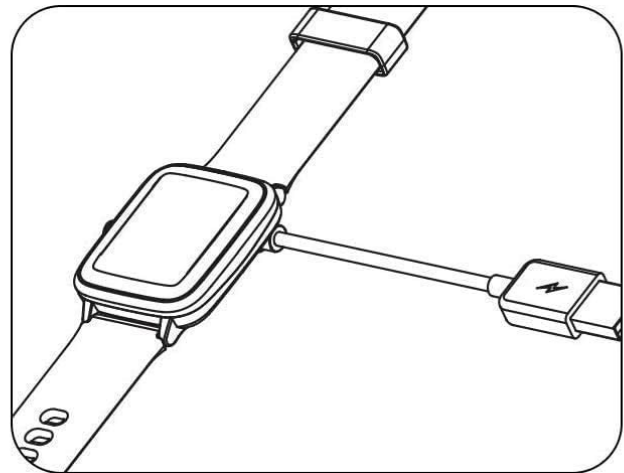

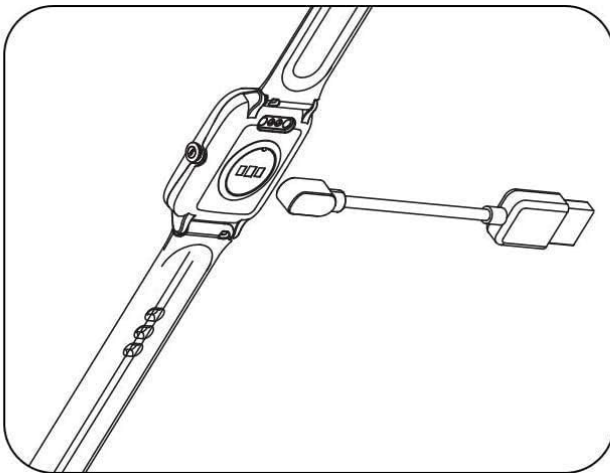

Figure 3.2: High-Speed Charging. This image demonstrates the charger's high-speed charging feature, indicating that a full charge can be achieved in approximately 2.5 hours when using a 1A output current.

## 4. SETUP: CHARGING YOUR SMARTWATCH

### 4.1 Connecting the Charger

1. Ensure your smartwatch is clean and dry around the charging contacts.
2. Align the magnetic charging pins of the cable with the charging contacts on the back of your smartwatch. The magnets will automatically snap into place.
3. Verify that the magnetic attraction is strong and the connection is secure. If the magnets repel, the device will not charge.

# Magnetic Charging Interface

If the charging magnets repel, the device will not charge.

You can charge correctly if the magnets attract whilst charging,

While charging

Figure 4.1: Magnetic Charging Interface. This diagram illustrates the proper way to connect the magnetic charger to your smartwatch. It clearly shows that if the magnets repel, the device will not charge, but if they attract, the connection is correct and charging will begin.

## 4.2 Charging Methods

Once the charging cable is securely connected to your smartwatch, plug the USB-A end of the cable into a compatible power source:

- **USB Wall Charger:** Use a standard USB wall adapter (recommended 5V/1A output).
- **Computer/Laptop USB Port:** Connect to an available USB port on your computer or laptop.
- **Power Bank:** Use a portable power bank for on-the-go charging.

Figure 4.2: Charging from a Laptop. This image shows a smartwatch being charged by connecting the USB cable to a laptop's USB port, demonstrating one of the convenient charging methods.

Figure 4.3: Multiple Charging Options. This image visually represents various power sources that can be used to charge the smartwatch, including a power bank, a laptop, and a standard wall charger, highlighting the versatility of the charging cable.

## 5. OPERATING

The Lamshaw Smart Watch Charger operates automatically once connected to a power source and your compatible smartwatch. The smartwatch display will typically indicate that it is charging (e.g., a battery icon with a lightning bolt or a charging percentage). Disconnect the charger once your smartwatch is fully charged.

Figure 5.1: Charger in Operation. This image shows the Lamshaw magnetic USB charging cable actively connected to a smartwatch, demonstrating the charging process. The smartwatch display indicates the time, date, and battery percentage, confirming the device is receiving power.

## 6. MAINTENANCE AND CARE

- **Cleaning:** Gently wipe the charging contacts on both the cable and your smartwatch with a dry, soft cloth to remove any dust or debris. Do not use liquid cleaners.
- **Storage:** When not in use, store the cable in a cool, dry place, away from direct sunlight and extreme temperatures. The flexible PVC cable is designed for easy rolling and convenient storage.
- **Handling:** Avoid bending the cable sharply or pulling it by the cord. Always grasp the plug when disconnecting from a power source or your smartwatch.
- **Water Exposure:** This charger is not waterproof. Avoid exposing it to water or other liquids.

## 7. TROUBLESHOOTING

| Issue                   | Possible Cause                       | Solution                                                                                                             |
|-------------------------|--------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| Smartwatch not charging | Incorrect magnetic alignment         | Ensure the magnetic pins are correctly aligned and attract strongly to the smartwatch contacts. Refer to Figure 4.1. |
| Smartwatch not charging | Dirty charging contacts              | Clean the charging contacts on both the cable and smartwatch with a dry, soft cloth.                                 |
| Smartwatch not charging | Faulty power source                  | Try plugging the USB cable into a different USB port or wall adapter.                                                |
| Slow charging           | Low power output from source         | Use a power source with at least 1A output (e.g., a dedicated wall charger) for optimal charging speed.              |
| Cable appears damaged   | Physical stress or improper handling | Discontinue use and replace the cable. Avoid sharp bends or pulling the cable by the cord.                           |

## 8. PRODUCT SPECIFICATIONS

| Specification              | Detail                                                 |
|----------------------------|--------------------------------------------------------|
| Brand                      | Lamshaw                                                |
| Model Compatibility        | IDW17, IDW20, IDW21, IDW23, IDW25, IDW26 Smart Watches |
| Connector Type             | Magnetic (Smartwatch end), USB-A (Power source end)    |
| Cable Length               | Approximately 3.3 feet (1 meter)                       |
| Material                   | Aluminum, Plastic (ABS+PC, PVC)                        |
| Color                      | Black                                                  |
| Power Output (Recommended) | 5V/1A                                                  |
| Charging Time              | Approx. 2.5 hours (for full charge with 1A output)     |
| Product Weight             | 17 g                                                   |

## 9. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the purchase platform or contact the seller directly. Keep your purchase receipt as proof of purchase.

If you encounter any issues not covered in this manual, please reach out to Lamshaw customer service for assistance.

## ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
