Kuulaa KL-YD60

Kuulaa 10000mAh Magnetic Power Bank User Manual

Model: KL-YD60 | Brand: Kuulaa

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Kuulaa 10000mAh Magnetic Power Bank. Designed for convenience and portability, this power bank offers both magnetic wireless charging and wired fast charging capabilities, along with a built-in stand for enhanced usability. Please read this manual thoroughly before using the product.

2. KEY FEATURES

- **Strong Magnetic Hold:** Features a powerful magnetic snap for instant and secure alignment with MagSafe-compatible iPhones (iPhone 12 series or newer), ensuring stable charging without fumbling with cables.

Multi-Use Ring Holder

Figure 2: Secure magnetic attachment to compatible devices.

- **PD 20W Fast Charging + Dual Modes:** Supports both wireless and wired charging. The USB-C port provides 20W Power Delivery (PD) fast charging, capable of charging an iPhone 15 up to 50% in approximately 30 minutes. Wireless charging delivers 7.5W for iPhones and up to 15W for compatible Android devices.

- **10000mAh High-Capacity & LED Digital Display:** A portable 10000mAh battery pack that can charge an iPhone 15 Pro Max approximately 1.5 times. The integrated smart LED digital display provides real-time power monitoring, showing the remaining battery percentage. Supports simultaneous charging for up to 3 devices.

3. SETUP AND INITIAL USE

3.1 Charging the Power Bank

Before first use, fully charge your Kuulaa Power Bank. Connect the included USB-C cable to the power bank's USB-C port and the other end to a compatible USB power adapter (not included). The LED digital display will show the charging progress, indicating 100% when fully charged.

3.2 Attaching to Your Device (Magnetic Wireless Charging)

For magnetic wireless charging, ensure your iPhone is MagSafe-compatible (iPhone 12 series or newer) or has a MagSafe-compatible case. Simply align the power bank with the back of your

iPhone. The strong magnets will snap it into place, and wireless charging will begin automatically.

4. OPERATING INSTRUCTIONS

4.1 Wireless Charging

Once magnetically attached, the power bank will automatically initiate wireless charging for your compatible iPhone. The LED display on the power bank will show its remaining battery percentage, and your phone will indicate that it is charging.

Your browser does not support the video tag.

Video 1: Demonstration of the LED display and magnetic attachment for charging.

4.2 Wired Charging

To charge devices via cable, connect your device to the power bank's USB-C port using a compatible cable. The power bank supports 20W PD fast charging for rapid power delivery.

4.3 Using the Foldable Stand

The integrated foldable stand can be deployed by gently pulling it out from the bottom of the power bank. It allows you to prop up your phone in both portrait and landscape orientations for hands-free viewing while charging. This is ideal for watching videos, making video calls, or simply keeping your screen visible on a desk.

4.4 Simultaneous Charging

The power bank supports charging up to three devices simultaneously: one via magnetic wireless charging, one via the USB-C port, and potentially another small device (like AirPods) on the wireless charging pad if space allows and it's compatible.

5. MAINTENANCE

- Keep the power bank clean by wiping it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- Do not expose the power bank to water or excessive moisture.
- Avoid dropping or subjecting the power bank to strong impacts, as this may damage internal components.
- Regularly check the charging ports for dust or debris and clean them gently if necessary.

6. TROUBLESHOOTING

6.1 Device Not Charging

- Ensure the power bank is sufficiently charged. Check the LED display for battery percentage.

- For wireless charging, verify that your device is MagSafe-compatible and properly aligned with the power bank's magnetic area.
- For wired charging, ensure the cable is securely connected to both the power bank and your device. Try a different cable if necessary.
- Check if your device's charging port is clean and free of obstructions.

6.2 Slow Charging

- Ensure you are using a compatible fast-charging cable and adapter for wired charging.
- For wireless charging, ensure there are no foreign objects between the power bank and your device that could interfere with charging efficiency.
- High temperatures can reduce charging speed. Ensure the power bank and device are in a well-ventilated area.

6.3 Power Bank Overheating

- It is normal for the power bank to become slightly warm during charging. However, if it becomes excessively hot, disconnect it immediately.
- Ensure proper ventilation around the power bank during use. Do not cover it with blankets or place it in confined spaces.
- If overheating persists, discontinue use and contact customer support.

7. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	KL-YD60
Battery Capacity	10000mAh (3.85V/38.5Wh)
Product Dimensions	4.11 x 2.72 x 0.57 inches
Item Weight	6.9 ounces
Input (USB-C)	5V-3A, 9V-2A, 12V-1.5A
Output (USB-C)	5V-3A, 9V-2.22A, 12V-1.67A
Wireless Charging (iOS)	7.5W
Wireless Charging (Android)	15W
Special Features	Digital Display, Auto Shut-Off, Lightweight, Fast Charging, Pocket Size
Manufacturer	Shenzhen Kula Technology Co.,LTD
Country of Origin	China

8. WHAT'S INCLUDED

Your package should contain the following items:

- 1 x Kuulaa 10000mAh Magnetic Power Bank
- 1 x USB-A to USB-C Charging Cable
- 1 x User Manual
- 1 x Packaging Color Box

9. WARRANTY AND SUPPORT

Kuulaa products are manufactured to the highest quality standards. For warranty information, technical support, or any inquiries regarding your product, please refer to the contact information provided on the product packaging or visit the official Kuulaa website.
