Arctic Air AAIJET-MC4

Arctic Air Ice Jet Personal Air Cooler User Manual

Model: AAIJET-MC4 | Brand: Arctic Air

INTRODUCTION

The Arctic Air Ice Jet Personal Air Cooler is designed to provide a refreshing jet stream of cool air, transforming hot air into a more comfortable environment. This portable and compact device is suitable for various personal spaces, offering customizable cooling with its three-speed fan and multi-directional air vent. It also features an integrated LED nightlight with multiple color options to enhance ambiance.

Lightweight & Portable

Quiet Operation

Key features of the Arctic Air Ice Jet, including built-in ice packs, three-speed settings, multi-directional air vent, LED night light, lightweight design, and quiet operation.

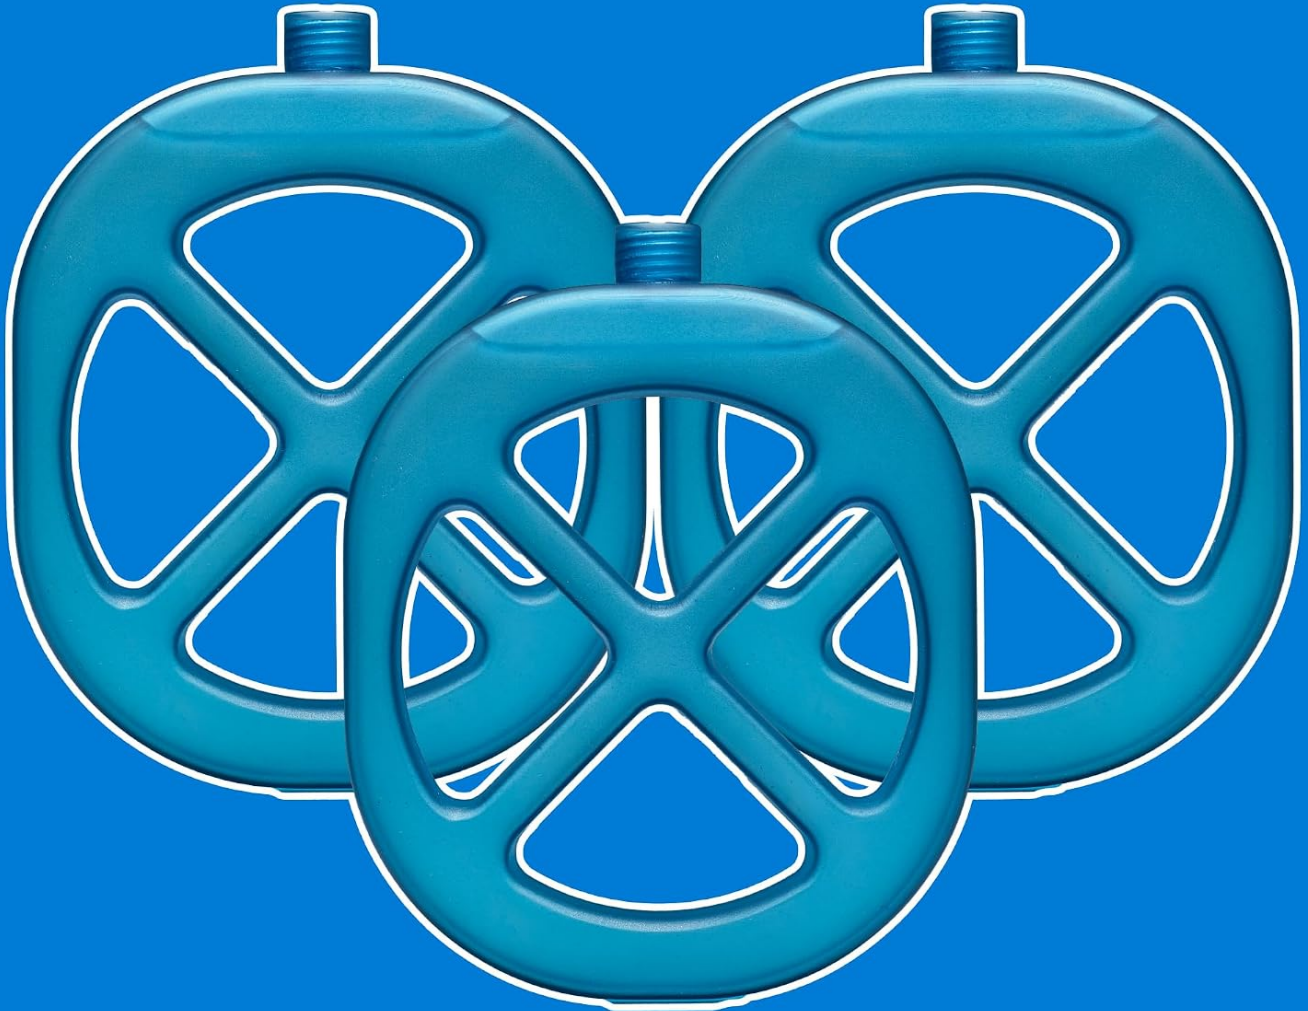

SETUP

Before first use, and whenever the cooling effect diminishes, prepare the reusable chill packs:

1. Locate the three reusable chill packs included with your Arctic Air Ice Jet.
2. If the chill packs are empty, carefully open the fill port on each pack and fill with water. Securely close the fill port.
3. Place the filled chill packs in a freezer for a minimum of one hour, or until completely frozen.
4. Once frozen, insert the chill packs into the designated cooling chambers of the Arctic Air Ice Jet.
5. Ensure the drain plug on the bottom of the unit is securely closed to prevent leaks.

Built-In Arctic Ice

Cools Up to 4 Hours

The reusable Arctic Ice packs, designed to cool for up to 4 hours.

OPERATING INSTRUCTIONS

To operate your Arctic Air Ice Jet:

1. Connect the USB-C power cable to the unit and a compatible power source.
2. Press the power button located on the bottom of the unit to turn it on.
3. Adjust the fan speed by pressing the power button repeatedly to cycle through low, medium, and high settings.
4. To activate the LED nightlight, press the dedicated light button on the side of the unit. Pressing this button again will cycle through the 7 available color options.
5. Direct the airflow using the multi-directional air vent to suit your personal cooling needs.

The Perfect Size for In-Home Cooling

The Arctic Air Ice Jet provides personal cooling, ideal for in-home use.

Cool, Chilled Air Anywhere You Go!

Enjoy cool, chilled air anywhere you go, such as at your office desk.

Soothing Night Light

**Lights up in the dark with 7 different light effects.
This feature can be turned off.**

The soothing night light feature with 7 different light effects, which can also be turned off.

MAINTENANCE

To ensure optimal performance and longevity of your Arctic Air Ice Jet:

- Regularly clean the exterior of the unit with a soft, damp cloth.
- For long-term storage, remove the ice packs and allow the unit to run for approximately two hours without ice packs to ensure any internal moisture evaporates completely. This prevents mold or mildew buildup.
- Store the unit and ice packs in a cool, dry place when not in use.

TROUBLESHOOTING

If you encounter issues with your Arctic Air Ice Jet, consider the following common solutions:

- **No Power:** Ensure the power cable is securely connected to both the unit and a working power outlet.
- **Insufficient Cooling:** Verify that the reusable chill packs are completely frozen and properly inserted into the cooling

chambers.

- **Water Leakage:** Check that the drain plug on the bottom of the unit is securely closed.
- **Reduced Airflow:** Ensure the air intake and output vents are not obstructed.

For persistent issues not resolved by these steps, please refer to the warranty and support information.

SPECIFICATIONS

Brand	Arctic Air
Model Name	Arctic Air Ice Jet
Item Model Number	AAIJET-MC4
Mounting Type	Tabletop Mount
Special Feature	Adjustable Speed
Color	White
Controls Type	Button
Recommended Uses	Residential
Included Components	Arctic Air Ice Jet
Number of Speeds	3
Product Dimensions	5.91"D x 6.89"W x 6.3"H
Voltage	12 Volts
Item Weight	1.2 pounds
