## 3.2. App Installation and Pairing

1. **Download the App:** Scan the QR code provided in the watch's quick start guide or search for the official companion app (e.g., "FitCloudPro" or similar, check packaging for exact name) in the Apple App Store (for iOS) or Google Play Store (for Android).
2. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App:** Launch the installed app and follow the on-screen instructions to create an account or log in.
4. **Add Device:** Within the app, navigate to the "Device" or "Add Device" section. The app will search for available Bluetooth devices. Select "L81" or the corresponding device name when it appears.
5. **Confirm Pairing:** A pairing request may appear on your watch and phone. Confirm the pairing on both devices.
6. **Grant Permissions:** Allow necessary permissions (e.g., notifications, location, contacts) for the app to function correctly.

The watch is compatible with Android 5.1 and above, and iOS 10.0 and above.

## 3.3. Initial Settings and Language

After successful pairing, the watch should automatically synchronize time and language settings with your phone. If the watch displays an incorrect language, navigate to the watch's settings menu (usually by swiping down from the main screen or pressing the side button to access the app list, then finding the 'Settings' icon). Look for 'Language' or 'System' settings to change it to English or your preferred language.
