- **Touch Mode:** Ideal for two-person conversations. Each participant wears an earbud and touches it before speaking to initiate translation.
- **Speaker Mode:** One person wears an earbud, and the other speaks into the phone's microphone. The translation is played through the earbud and can also be displayed on the phone screen.

- **Offline Mode:** Provides translation without an internet connection for 8 major languages: Chinese, English, Japanese, Korean, Russian, German, French, and Spanish. This feature requires no subscription.
- **Photo Translation:** Use the app to take a picture of text (e.g., signs, menus), and the app will translate the text.
