VonHaus 2500955

VonHaus Air Cooler Instruction Manual

Model: 2500955

Brand: VonHaus

INTRODUCTION

Thank you for choosing the VonHaus Air Cooler. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Ensure the power supply matches the voltage specified on the appliance rating label.
- Do not operate the appliance with a damaged cord or plug.
- Keep the appliance away from water and moisture. Do not immerse in water.
- Unplug the appliance from the power outlet when not in use, before cleaning, or before performing any maintenance.
- Do not block air inlets or outlets. Ensure adequate ventilation around the unit.
- Keep out of reach of children and pets.
- Use only as described in this manual.

PRODUCT OVERVIEW

The VonHaus Air Cooler is designed to provide efficient cooling through evaporative technology. It features multiple modes, speeds, a timer, and convenient controls.

Image: The VonHaus Air Cooler, a tall, white unit with a dark front grille, is shown with cool air emanating from it. A remote control is positioned next to the unit. This image provides a general view of the product and its primary accessory.

Key Features:

- **Advanced Cooling Technology:** Utilizes evaporation for energy-efficient cooling.
- **Multiple Modes:** Includes Nature, Normal, and Night modes for varied cooling experiences.
- **Three Speed Settings:** Adjust airflow intensity to your preference.
- **7-Hour Timer:** Allows for pre-setting operation duration for convenience and energy saving.
- **6L Water Tank:** Large capacity for extended cooling without frequent refills.
- **4 Ice Packs Included:** Enhances cooling performance.
- **Remote Control & Touch Buttons:** Easy operation from a distance or directly on the unit.
- **Adjustable Louvres & 60° Oscillation:** Directs airflow effectively across the room.
- **Castor Wheels:** For easy portability between rooms.

Castor Wheels.

For transporting from room to room with ease.

Image: The air cooler is shown in a living room setting, highlighting its compact size and key specifications: 80W power, 1.7m cable, 6kg weight, 7-hour timer, and adjustable louvres. The image also emphasizes the castor wheels for easy movement.

SETUP

- 1. Unpacking:** Carefully remove the air cooler and all accessories from the packaging. Retain packaging for future storage or transport.
- 2. Placement:** Place the air cooler on a flat, stable surface. Ensure there is adequate space around the unit for proper airflow.
- 3. Fill Water Tank:**
 - Pull out the water tank from the bottom rear of the unit.
 - Fill the tank with clean, cool water up to the MAX level indicator. Do not overfill.
 - For enhanced cooling, place two of the frozen ice packs into the water tank.
 - Slide the water tank back into the unit until it clicks into place.

How It Works.

Image: This diagram illustrates the evaporative cooling process: warm air is drawn in, passes through a water-soaked absorption pad, and cool air is dispersed. Below, a close-up shows the 6L water tank with two blue ice boxes inserted, demonstrating how to prepare the unit for cooling.

4. **Power Connection:** Plug the power cable into a suitable electrical outlet.

OPERATING INSTRUCTIONS

Your VonHaus Air Cooler can be operated using the touch control panel on top of the unit or the included remote control.

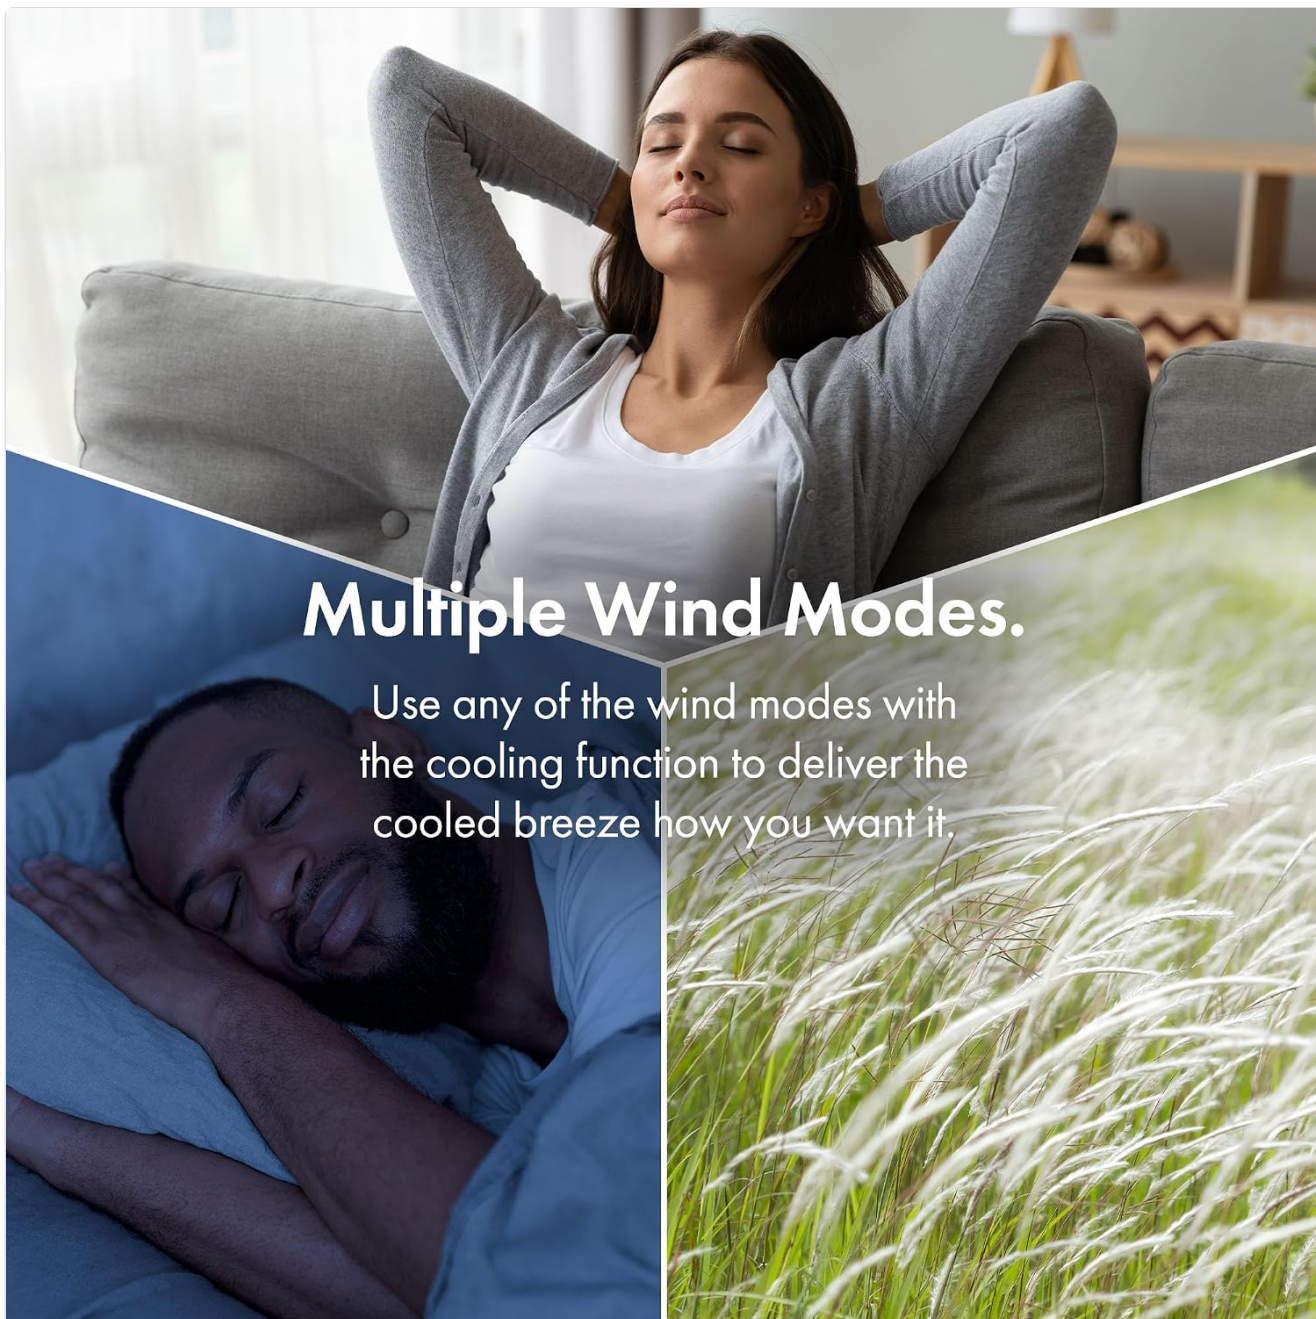

Convenient Control.

Effortlessly adjust all settings with the touch buttons and remote control.

Image: A close-up view of the air cooler's top control panel, showing touch buttons for various functions like Cooler, Swing, Timer, Wind, Speed, and On/Off. The remote control is also displayed, mirroring these functions for convenient operation.

Control Panel & Remote Functions:

- **ON/OFF:** Press to turn the unit on or off.
- **SPEED:** Cycles through three fan speeds: Low, Medium, High.
- **WIND:** Selects between different wind modes:
 - **Normal:** Constant airflow.
 - **Nature:** Simulates natural breeze with varying fan speeds.
 - **Sleep:** Operates quietly with reduced fan speed for comfortable sleep.

Multiple Wind Modes.

Use any of the wind modes with the cooling function to deliver the cooled breeze how you want it.

Image: This composite image illustrates the versatility of the air cooler's wind modes. It shows a person relaxing on a couch (Normal mode), a person sleeping peacefully (Sleep mode), and a field of wheat (Nature mode), visually representing the different airflow experiences.

- **SWING:** Activates or deactivates the 60° oscillation function, allowing the louvres to move horizontally to distribute cool air more widely.

Direct Cooling Air.

Set the vents to automatically direct cool air left and right. You can also direct cool air up or down manually.

Adjustable
Louvres.

Image: Two people are relaxing on a sofa while the air cooler directs cool air towards them. An inset diagram shows the adjustable louvres and indicates a 60-degree swing for wide air distribution.

- **COOLER:** Activates the evaporative cooling function. Ensure the water tank is filled and ice packs are in place for optimal performance.
- **TIMER:** Sets the operating time from 1 to 7 hours. The unit will automatically turn off once the set time expires.

Night Mode & Timer.

The cooler will operate more quietly during night mode. You can also set a timer for it to turn off (up to 7 hours).

VonHaus Air Cooler
Noise Level: 50dB

Other Air Coolers
Noise Level: 55dB+

Image: A person is sleeping in a bedroom, with the air cooler operating quietly in Night Mode. Text highlights the 7-hour timer function and the low noise level of 50dB, comparing it to other air coolers that are 55dB+.

Video: This official product video demonstrates the key features and benefits of the VonHaus Air Cooler, including its evaporative cooling mechanism, multiple modes, remote control operation, and portability. It provides a visual guide to setting up and using the appliance effectively.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air cooler.

- **Cleaning the Exterior:** Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Cleaning the Water Tank:**
 - Empty any remaining water from the tank.
 - Clean the tank with mild soap and water. Rinse thoroughly to remove any residue.

- Allow the tank to air dry completely before reinserting.
- **Cleaning the Cooling Pad:** The cooling pad (absorption pad) should be cleaned periodically to prevent mineral buildup. Refer to the diagram in the "How It Works" section for its location.
 - Carefully remove the cooling pad from the unit.
 - Rinse it under clean running water. For stubborn deposits, a soft brush may be used.
 - Ensure the pad is completely dry before reinserting it into the unit.
- **Storage:** If storing the unit for an extended period, ensure the water tank is empty and dry, and the cooling pad is clean and dry. Store in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	No power supply; power cord not plugged in; power button not pressed.	Check power outlet; ensure power cord is securely plugged in; press the ON/OFF button.
No cool air.	Water tank empty; Cooler function not activated; cooling pad dirty.	Fill water tank; press the COOLER button; clean the cooling pad.
Weak airflow.	Fan speed set too low; air inlets/outlets blocked.	Increase fan speed; ensure no obstructions around the unit.
Unusual noise.	Unit not on a flat surface; foreign object inside; water pump issue.	Place on a flat surface; check for and remove any foreign objects (unplug first); if noise persists, contact customer support.

SPECIFICATIONS

- **Model Number:** 2500955
- **Power:** 80W
- **Voltage:** 230V
- **Water Tank Capacity:** 6 Litres
- **Product Dimensions:** 27 x 27.5 x 68 cm (L x W x H)
- **Item Weight:** 6 kg
- **Sound Level:** 50dB (Night Mode), up to 65dB (Max Speed)
- **Cable Length:** 1.7m
- **Room Area Coverage:** Approximately 15m²

WARRANTY AND SUPPORT

For warranty information, technical support, or to purchase replacement parts, please contact VonHaus customer service. Details can typically be found on the VonHaus official website or through your retailer. Please have your model number (2500955) and purchase date ready when contacting support.
