8. MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your Oclean Electric Toothbrush.

- **Rinse Brush Head:** After each use, rinse the brush head thoroughly under running water to remove any toothpaste residue and debris.
- **Clean Handle:** Wipe the toothbrush handle with a damp cloth as needed. The toothbrush is IPX7 waterproof, allowing for safe rinsing.
- **Replace Brush Heads:** For optimal cleaning performance and hygiene, replace the toothbrush head every 3 to 6 months, or sooner if the bristles appear frayed.
- **Storage:** When not in use, store the toothbrush in a dry place. Use the provided travel case for convenient and hygienic storage during travel.

9. TROUBLESHOOTING

If you encounter any issues with your Oclean Electric Toothbrush, please consider the following common solutions:

- Toothbrush Not Turning On:** Ensure the toothbrush is fully charged. Connect it to the charger and allow sufficient time for charging.
- Weak Vibrations:** This may indicate a low battery. Recharge the toothbrush. If the issue persists after charging, the brush head might need replacement.
- Unusual Noise:** Check if the brush head is securely attached. If not, remove and reattach it firmly.
- Charging Issues:** Ensure the USB-C cable is properly connected to both the toothbrush and a power source. Try a different USB port or adapter.
