BoxWave ClearTouch Crystal Privacy (2-Pack) for Trexonic TR-X1480 (13.3 in)

BoxWave ClearTouch Crystal Privacy Screen Protector User Manual

Compatible with Trexonic TR-X1480 (13.3 in)

1. PRODUCT OVERVIEW

The BoxWave ClearTouch Crystal Privacy Screen Protector is designed to safeguard your Trexonic TR-X1480 (13.3 in) device screen while providing enhanced privacy. This 2-pack includes flexible film protectors that offer privacy from side views, maintain crystal clear visibility when viewed directly, and protect against scratches and cracks.

Image 1.1: BoxWave ClearTouch Crystal Privacy Screen Protector packaging and included items.

Key Features:

- **Privacy Protection:** Obstructs view from angles beyond 25 degrees, ensuring your screen content remains private.

- **Crystal Clear Visibility:** Provides 99% visibility and maintains original screen clarity when viewed directly.

- **Flexible and Durable:** Made from next-generation material that is strong, flexible, and resistant to chipping and cracking.

- **Scratch Resistance:** Guards your screen from daily scratches and abrasions.

- **Easy Installation:** Features a glueless adhesive that automatically clings to the screen after proper cleaning and alignment.

- **Perfect Fit:** Precisely designed to fit the Trexonic TR-X1480 (13.3 in) device, ensuring full accessibility to all ports and buttons.

2. Package Contents

Verify that all items are present in your package:

- 2 x BoxWave ClearTouch Crystal Privacy Screen Protectors
- 1 x Microfiber Cleaning Cloth
- 1 x Applicator Card (for smoothing bubbles)

Image 2.1: Contents of the BoxWave ClearTouch Crystal Privacy 2-Pack.

3. Setup (Installation Guide)

Follow these steps carefully for optimal installation and to prevent dust or bubbles.

1. **Prepare Your Workspace:** Choose a clean, dust-free environment. Wash your hands thoroughly to avoid transferring oils to the screen or protector.

2. **Clean the Device Screen:** Use the included microfiber cloth to thoroughly clean the screen of your Trexonic TR-X1480.

Ensure there are no dust particles, smudges, or fingerprints. For stubborn marks, a screen cleaner designed for electronics can be used sparingly, followed by drying with the microfiber cloth.

3. **Align the Screen Protector:** Carefully peel back a small portion of the protective film from the adhesive side (usually marked as '1' or 'Back'). Align the screen protector with the edges of your device screen. Pay close attention to cutouts for cameras or sensors to ensure a perfect fit.

4. **Apply the Protector:** Once aligned, slowly peel off the remaining protective film while simultaneously lowering the screen protector onto the device screen. The glueless adhesive will automatically cling to the screen.

5. **Remove Bubbles:** Use the applicator card (or a credit card wrapped in the microfiber cloth) to gently push out any air bubbles towards the edges of the screen protector. Start from the center and work your way outwards.

6. **Final Touches:** Once all bubbles are removed, gently peel off the top protective film (usually marked as '2' or 'Front'). Give the screen a final wipe with the microfiber cloth.

COLOR BRILLIANCE
High-quality optical film that optimizes color rendition.

CLARITY
Your vibrant screens don't deserve blur or bland. 99% transparency means perfect clarity. No loss of color. No loss of resolution.

PRECISION
Precision cut. Precision Accuracy. Cut exactly for your device for increased

Image 3.1: Features and design of the ClearTouch Crystal Privacy protector, highlighting its precise cut and clarity.

4. OPERATING (USAGE)

The ClearTouch Crystal Privacy screen protector functions by altering its optical properties based on the viewing angle.

- **Direct View:** When viewing your device screen straight on (within approximately 0-25 degrees from the center), the screen protector allows for 99% visual transparency, ensuring your display remains clear and vibrant.
- **Side View Privacy:** If someone attempts to view your screen from an angle of 25 degrees or more from either side, the screen protector will automatically obstruct their view, making the screen appear dark or unreadable to them. This ensures your sensitive information remains private.

Anti-Spy Privacy Protection

Visible to you directly in front of the screen. Prevents others from viewing from the sides.

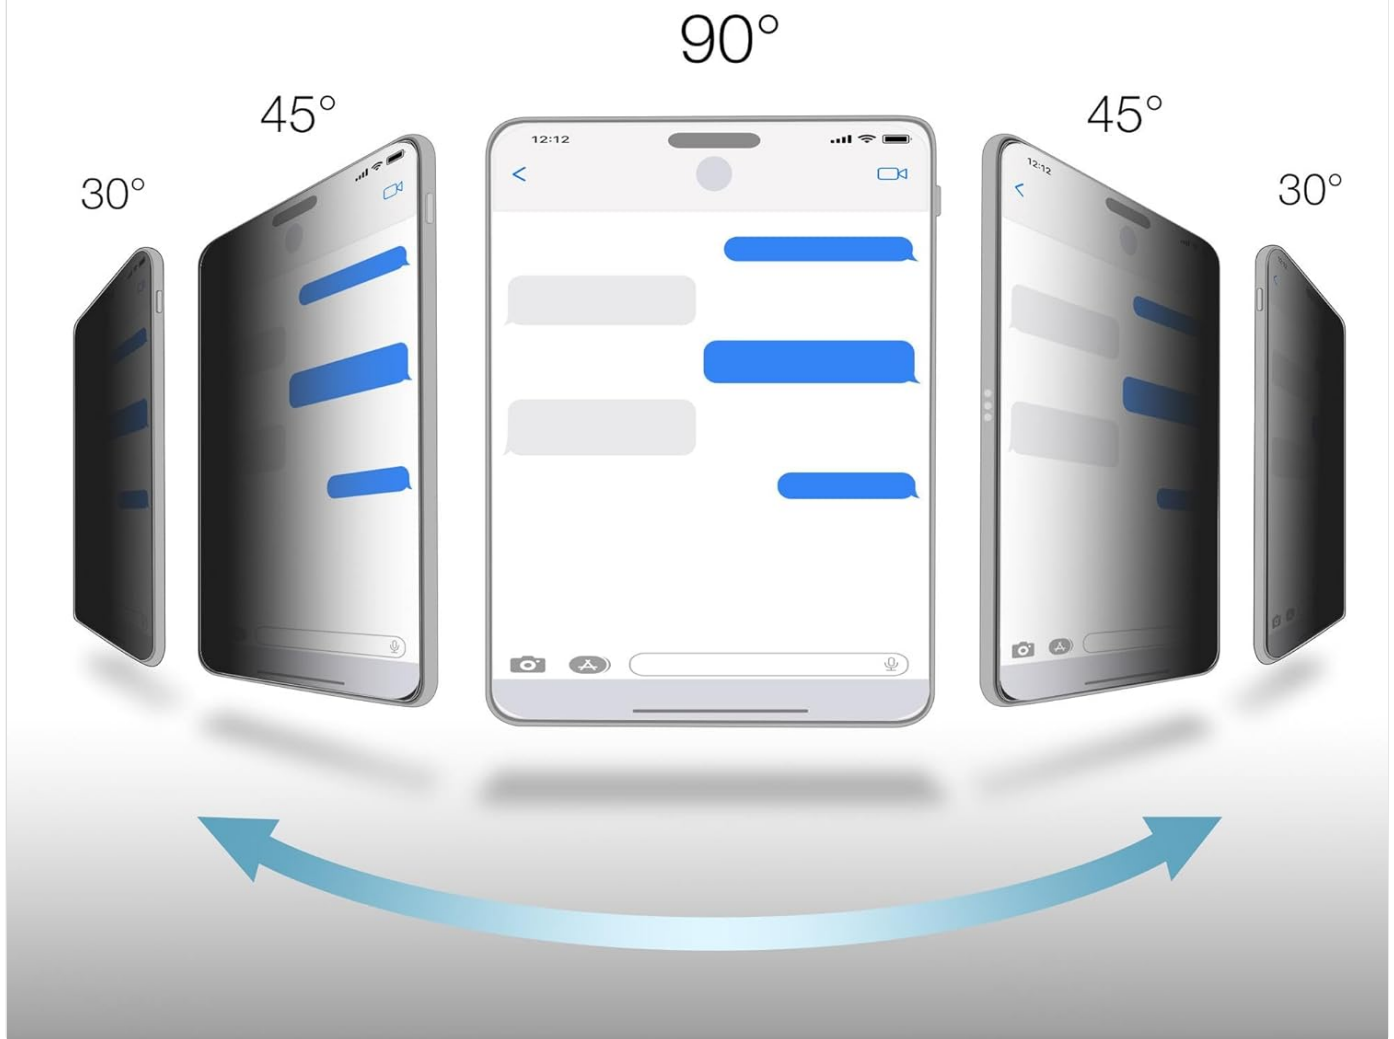

Image 4.1: Demonstration of the privacy feature at various viewing angles.

Image 4.2: High definition clarity of the screen protector when viewed directly.

5. MAINTENANCE

To maintain the clarity and effectiveness of your screen protector:

- **Cleaning:** Regularly wipe the screen protector with the provided microfiber cloth to remove dust, fingerprints, and smudges. For more persistent marks, lightly dampen the microfiber cloth with water or a screen cleaner specifically designed for electronics, then wipe gently. Avoid harsh chemicals or abrasive materials.
- **Protection:** While the protector is scratch-resistant, avoid placing your device face down on rough surfaces or exposing it to sharp objects that could potentially damage the film.
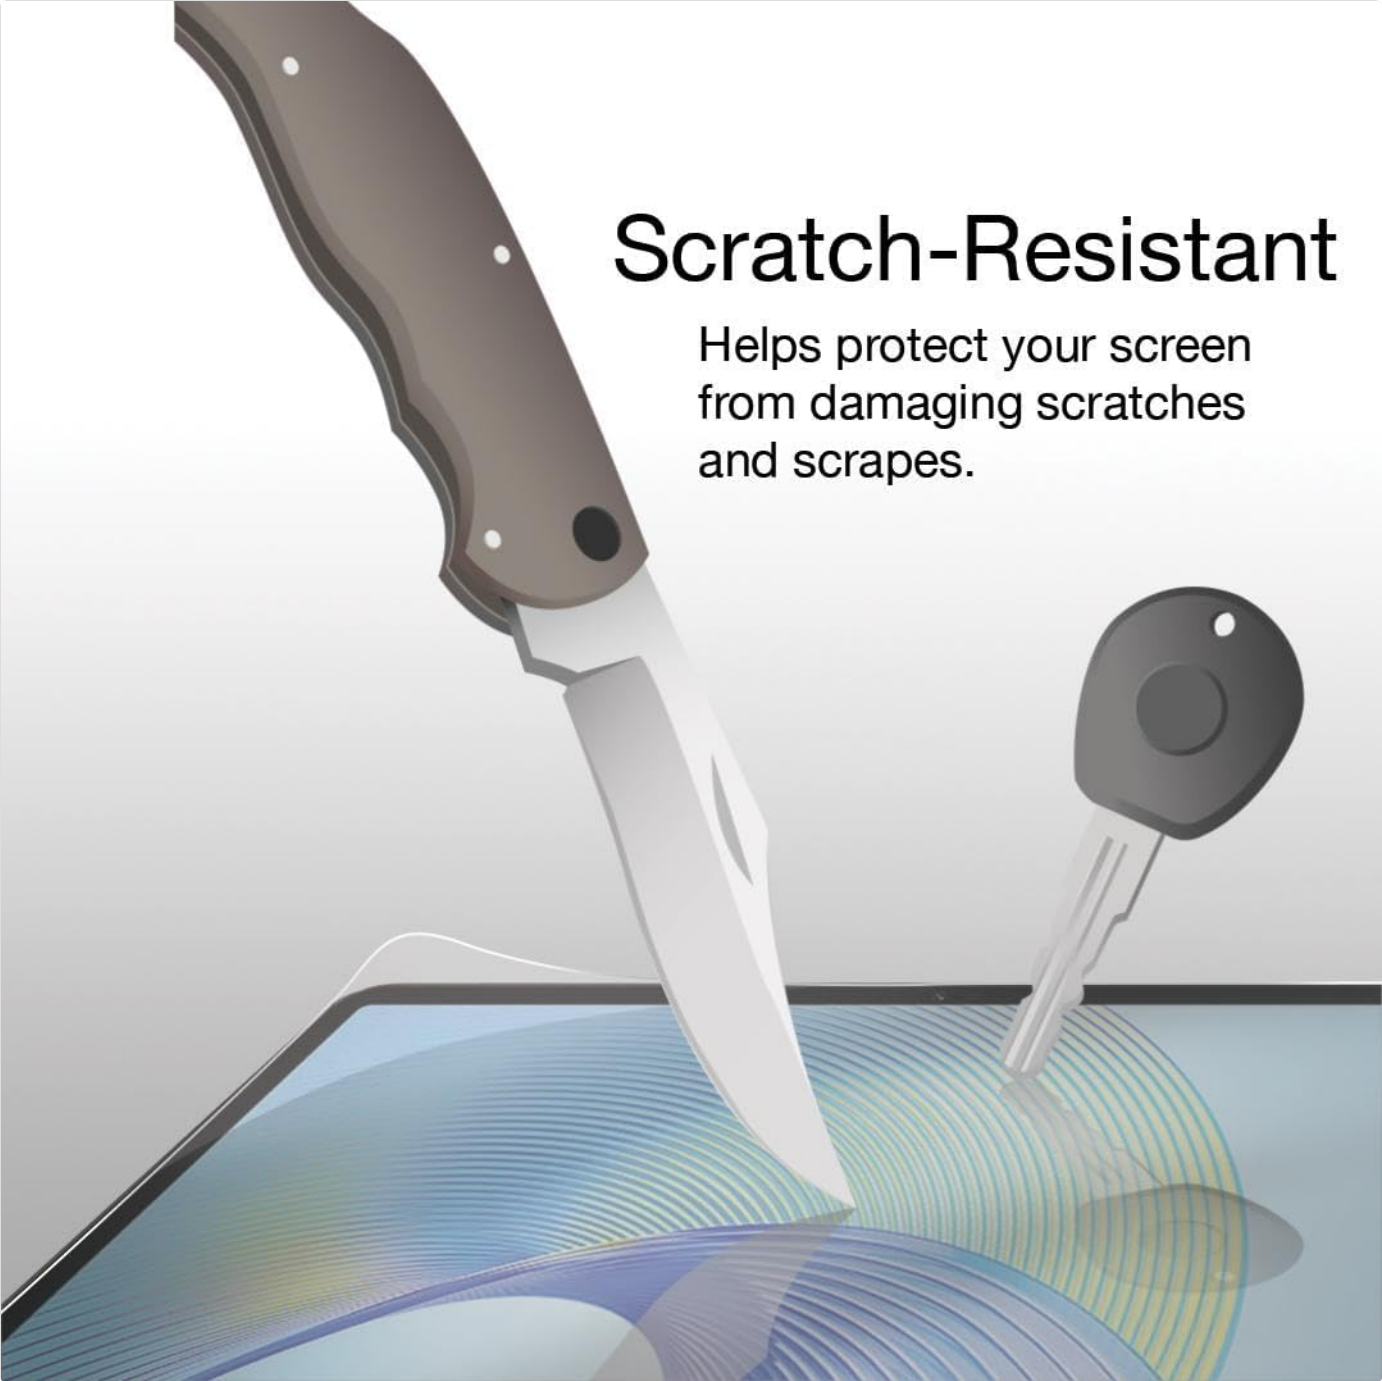

Image 5.1: Illustration of the screen protector's scratch-resistant capabilities.

6. TROUBLESHOOTING

Common issues and their solutions:

Problem	Possible Cause	Solution
Bubbles under the protector	Dust particles or trapped air during installation.	Gently lift the nearest edge of the protector and use the applicator card to push the bubble towards the lifted edge. Ensure no new dust enters. For persistent bubbles, re-clean the screen and reapply.
Protector not adhering properly	Screen not clean enough, or protector was touched on the adhesive side.	Carefully remove the protector, clean both the device screen and the adhesive side of the protector (if possible, with a lint-free cloth and distilled water, then air dry), and reapply.

| Problem	Possible Cause	Solution
Privacy effect seems weak	Incorrect viewing angle expectation or protector not fully seated.	Ensure you are viewing from the intended privacy angles (25 degrees or more from the side). Verify the protector is fully adhered without gaps.

7. SPECIFICATIONS
