- Reversing Control Cable
- RCA Cable
- Frame Removal Tool

G+G Full Fit Ultra Clear Screen

Adopting seamless bonding technology of sensor glass+ tempered glass cover plate (G+G) The screen and body are seamlessly integrated, greatly enhancing the sense of luxury

full lamination

- ✓ Full cover body, Integrated
- ✓ Better transparency
- ✓ Clear screen display
- ✓ Fully fitted without dust

Non full fit

- ✗ Long time can easily lead to dust ingress
- ✗ Easy to reflect light

Image 2.1: All components included in the AINAVIGO car stereo package.

3. SETUP & INSTALLATION

Professional installation is recommended. If performing self-installation, ensure the vehicle's battery is disconnected before starting. Refer to your vehicle's service manual for specific dashboard removal procedures.

3.1 Pre-Installation Check

- Confirm the stereo's compatibility with your Toyota Tacoma (2005-2015).
- Unpack all components and verify against the 'What's Included' list.

3.2 Wiring Connections

1. **Disconnect Battery:** Always disconnect the negative terminal of your vehicle's battery before beginning any electrical work.
2. **Remove Old Unit:** Carefully remove the factory radio and dashboard trim using the provided frame removal tool.
3. **Connect Main Harness:** Connect the special harness (Power Cable & CANbus Decoder) to the vehicle's wiring. Ensure all connections are secure.
4. **Connect GPS Module:** Attach the GPS module and route its cable to a location with a clear view of the sky (e.g., dashboard corner).
5. **Connect USB Cables:** Route the USB cables to a convenient location, such as the glove compartment or center console.
6. **Connect External Microphone:** Plug in the external microphone and position it for optimal voice pickup (e.g., near the sun visor).
7. **Connect RCA Cables:** If using external amplifiers or other audio/video accessories, connect the RCA cables as needed.

3.3 Backup Camera Installation

- Mount Camera:** Install the AHD 1080P rear view camera at the rear of your vehicle, ensuring a clear view.
- Route Cable:** Carefully route the camera's video cable from the rear to the dashboard area.
- Connect Video Input:** Connect the camera's video output to the designated 'CAM IN' input on the stereo.
- Connect Trigger Wire:** Connect the camera's reverse trigger wire (often labeled 'BACK' or 'REVERSE') to the vehicle's reverse light power wire. This signals the stereo to display the camera feed when reversing.

3.4 Final Mounting

- Test Connections:** Before fully securing the unit, temporarily reconnect the battery and power on the stereo to test basic functions (power, audio, camera, GPS).
- Secure Unit:** Once tested, carefully install the head unit and custom frame into the dashboard opening.
- Reconnect Battery:** Reconnect the vehicle's battery.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

Press and hold the power button (usually located on the front panel) to turn the unit on or off. A short press typically mutes or unmutes the audio.

4.2 Android 12 System Navigation

The 9-inch IPS touchscreen allows for intuitive navigation. Swipe, tap, and pinch to interact with apps and settings, similar to a tablet device.

4.3 Wireless CarPlay & Android Auto

Connect your compatible smartphone to access CarPlay or Android Auto features wirelessly or via USB.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the stereo, select the CarPlay or Android Auto application.
3. Follow the on-screen prompts to pair your phone.
4. Once connected, you can use your phone's navigation, make calls, send messages, and play music through the stereo interface.

Image 4.1: Wireless CarPlay and Android Auto interface on the stereo.

4.4 GPS Navigation

The unit comes with pre-installed North American maps. For real-time traffic and updated maps, connect to Wi-Fi and download your preferred online navigation apps.

- Ensure the GPS antenna is properly connected and positioned.
- Open the navigation application from the main menu.
- Enter your destination to receive turn-by-turn directions.

Image 4.2: GPS navigation interface showing map data.

4.5 Bluetooth 5.0 Connectivity

Pair your smartphone via Bluetooth for hands-free calls and audio streaming.

1. Go to the Bluetooth settings on the stereo.
2. Enable Bluetooth on your smartphone and search for available devices.
3. Select the stereo's Bluetooth name (e.g., 'AINAVIGO') from your phone's list and pair.
4. Once paired, you can make/receive calls and play music wirelessly.

4.6 FM/RDS Radio

Access the FM Radio application to listen to local broadcasts. RDS (Radio Data System) provides station information where available.

- Open the 'Radio' app.
- Use the scan function to find available stations or manually tune to a frequency.

4.7 Steering Wheel Control

The unit supports integration with your vehicle's existing steering wheel controls.

- Navigate to the 'Steering Wheel Control' settings in the system menu.
- Follow the on-screen instructions to program each button to its desired function (e.g., volume up/down, track skip, mode).

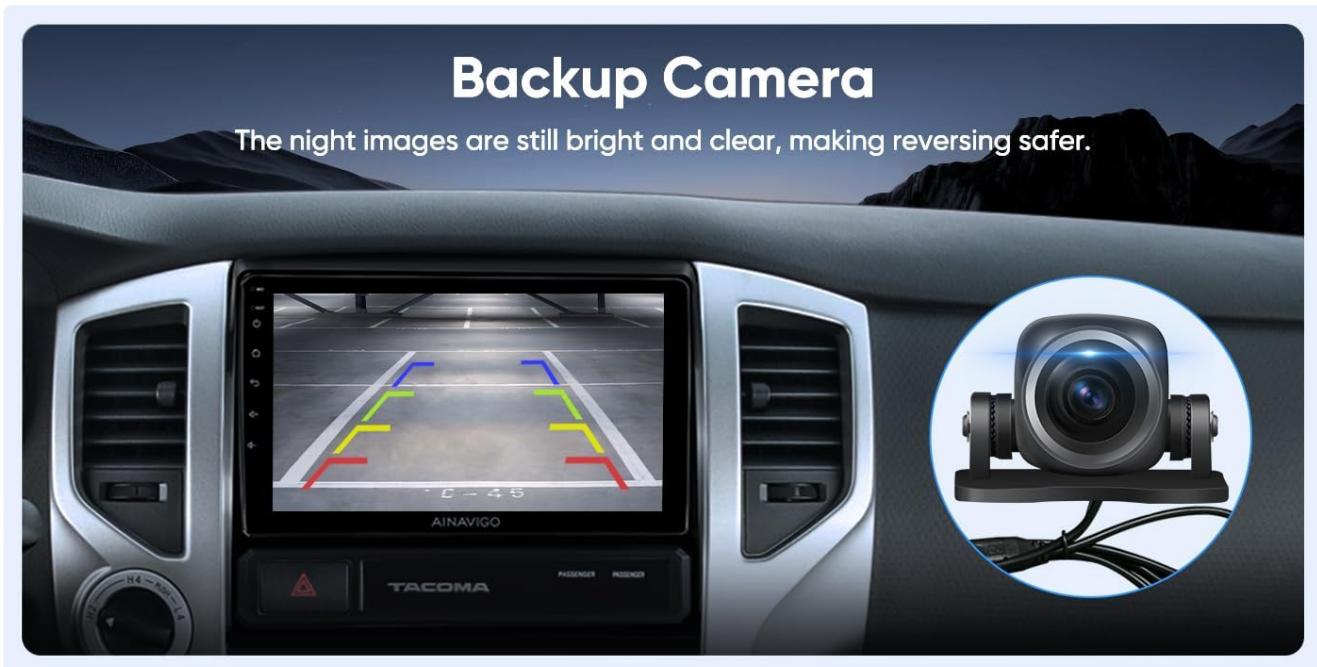

Image 4.3: Steering wheel control interface and backup camera view.

4.8 Backup Camera Display

When the vehicle is shifted into reverse, the stereo will automatically display the feed from the connected AHD 1080P rear view camera, aiding in safer parking and maneuvering.

Image 4.4: High-definition backup camera view on the stereo screen.

4.9 5G WiFi & App Installation

Connect the stereo to a mobile hotspot or Wi-Fi network to access online features and download applications.

1. Go to 'Settings' and select 'Wi-Fi'.
2. Choose your desired network and enter the password.
3. Once connected, open the 'Application Store' to download and install Android apps.

4.10 Split Screen Function

The split-screen feature allows you to run two applications simultaneously, such as navigation and music playback.

- Open the first application.
- Press and hold the 'Recent Apps' button or swipe up from the bottom (depending on system configuration) to enter split-screen mode.
- Select the second application to display alongside the first.

4.11 Voice Control

Utilize voice commands for hands-free operation of various functions.

- Activate the voice assistant (e.g., 'Hey Siri' or 'Hey Google Assistant') through a dedicated button or voice command.
- Speak commands for navigation, music playback, calls, and more.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your car stereo.

5.1 Screen Cleaning

- Use a soft, lint-free microfiber cloth to gently wipe the screen.
- For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals, abrasives, or excessive moisture.

5.2 Software Updates

- Periodically check for available software updates through the system settings.
- Installing updates can improve performance, add new features, and resolve bugs.

5.3 General Care

- Keep the unit free from excessive dust and debris.
- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.
- Ensure all cables are securely connected and not pinched.

6. TROUBLESHOOTING

If you encounter issues, refer to the following common problems and solutions before contacting support.

6.1 No Power

- **Check Connections:** Ensure all power cables are securely connected to the stereo and the vehicle's wiring harness.
- **Ignition:** Verify that the vehicle's ignition is on.
- **Fuse:** Check the vehicle's fuse box and the stereo's inline fuse for any blown fuses.

6.2 Poor Microphone Quality

- **Positioning:** Ensure the external microphone is properly connected and positioned in a clear area, away from vents or obstructions.
- **Settings:** Check microphone input levels in the stereo's audio settings.

6.3 Bluetooth Disconnection

- **Enable Bluetooth:** Confirm Bluetooth is active on both the stereo and your smartphone.
- **Re-pair Device:** Delete the stereo from your phone's Bluetooth list and re-pair.
- **Interference:** Move away from other Bluetooth devices that might cause interference.

6.4 CarPlay/Android Auto Connectivity Issues

- **Software Update:** Ensure your smartphone's operating system is up to date.
- **Connection Type:** Try both wired (if applicable) and wireless connections.
- **Restart:** Restart both the stereo and your smartphone.

6.5 Backup Camera Not Displaying

- **Connections:** Verify the backup camera's power and video connections are secure.
- **Trigger Wire:** Ensure the reverse trigger wire is correctly connected to the vehicle's reverse light signal.

6.6 Steering Wheel Controls Not Working

- **Wiring:** Check the wiring connections for the steering wheel control interface.
- **Configuration:** Reconfigure the controls in the stereo's settings menu.

6.7 Unit Freezes/Unresponsive

- **Soft Reset:** Locate the small reset pinhole on the unit (often requires a paperclip) and press it briefly.
- **Power Cycle:** Disconnect the vehicle's battery for a few minutes, then reconnect.

7. SPECIFICATIONS

Screen Size	9 Inches
Screen Resolution	1280*720 (IPS), 1080p (Video Playback)
