2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of injury and property damage, read all instructions and warnings before assembling, installing, and operating this water dispenser.

- Always connect the dispenser to a grounded electrical outlet.
- Do not operate the dispenser if the power cord is damaged.
- Keep the dispenser away from direct sunlight and heat sources.
- Ensure proper ventilation around the unit.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- The dispenser features a child safety lock for the hot water spout.

3. PRODUCT FEATURES

The SOOPYK FYT530-1-FBM water cooler dispenser offers several advanced features for convenience and water quality:

- **Bottleless Design:** Connects directly to your water line, eliminating the need for heavy water bottles.
- **Tri-Temperature Dispense:** Provides hot, room temperature, and cold water on demand.
- **4-Stage Filtration System:** Includes PP, CTO, UF, and CTO filters to reduce contaminants and improve taste.
- **Self-Cleaning Feature:** An automated sanitization process ensures clean water.
- **Child Safety Lock:** Prevents accidental hot water dispensing.
- **Built-in Nightlight:** Illuminates the dispensing area for easy use in low light conditions.
- **Durable Construction:** Features a stainless steel hot water tank.

4. PACKAGE CONTENTS

Please check the package for the following items:

- SOOPYK FYT530-1-FBM Water Cooler Dispenser
- 1/4" Tubing
- Integrated Valve with 1/4" PT Taper Pipe
- PTFE Tape
- User Manual (this document)
- 4-Stage Filter Set (pre-installed or separate)

5. SETUP AND INSTALLATION

Follow these steps to set up your water cooler dispenser:

1. **Unpacking:** Carefully remove the dispenser from its packaging. Retain packaging for future transport or

storage.

2. **Placement:** Place the dispenser on a flat, stable countertop surface. Ensure there is adequate space around the unit for ventilation (refer to dimensions).

Image 5.1: Dispenser dimensions for proper placement on a countertop.

3. Water Line Connection:

- Locate a cold water supply line (e.g., under your sink).
- Turn off the main water supply.
- Install the integrated valve onto the cold water line using PTFE tape for a watertight seal.
- Connect the 1/4" tubing from the integrated valve to the water inlet on the back of the dispenser. Ensure connections are secure.

4. **Filter Installation (if not pre-installed):** Open the filter compartment (usually at the back or side) and install the 4-stage filters according to the markings. Refer to Image 5.2 for an internal view of the filter setup.

Image 5.2: Internal view showing the 4-stage filtration system and water tubing.

5. **Power Connection:** Plug the power cord into a grounded 115V~ 60Hz electrical outlet.
6. **Initial Flush:** Before first use, dispense several cups of water from each temperature spout to flush the system and filters. Discard this water.

6. OPERATING INSTRUCTIONS

Your SOOPYK water dispenser is designed for easy operation:

1. **Power On:** Locate the ON/OFF switches at the back of the unit (refer to Image 6.1). Turn on the switches for heating and cooling functions as desired.

Image 6.1: Rear view of the dispenser showing power switches and specification label.

2. Dispensing Water:

- Place a cup under the desired spout.
- For cold or room temperature water, press the corresponding dispense button.
- For hot water, engage the child safety lock (if applicable, usually a button or lever) and then press the hot water dispense button.

3. **Nightlight Function:** The built-in nightlight automatically illuminates the dispensing area for convenience in low-light conditions.

The Nightlight Is Designed For Easy Use

Image 6.3: The dispenser's nightlight feature in operation.

7. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your dispenser.

7.1. Self-Cleaning Feature

The dispenser is equipped with an automated self-cleaning function. Refer to the control panel for activation instructions. This feature sanitizes and purifies the internal water paths.

UV Light

An automated disinfecting device that automatically sanitizes your Soopyk water cooler, giving you peace of mind that you 'll always have access to cleanest water

304 Stainless Steel Hot Water Tank

The corrosion-resistant 304 stainless steel finish creates a sleek, modern, and durable design

Image 7.1: Illustration of the UV light for sanitization and the stainless steel hot water tank.

7.2. Filter Replacement

The 4-stage filtration system requires periodic replacement to maintain water quality. The filter stages are PP, CTO, UF, and CTO.

4-Stage Filtration System PP+CTP+UF+CTO

Stage 1

PP Filter

Reduces dust, mud, sand, and rust.

Stage 2

CTO Filter

Reduces chlorine, tastes, cloudiness, and taste.

Stage 3

UF Filter

Reduces most of harmful substances.

Intercepts impurities as small as 0.01 microns.

Stage 4

CTO Filter

Reduces chlorine, tastes, cloudiness, and taste.

Image 7.2: Detailed breakdown of the 4-stage filtration process.

1. Turn off the water supply to the dispenser and unplug the unit.
2. Open the filter compartment.
3. Remove the old filters by twisting or unscrewing them.
4. Insert new filters, ensuring they are securely seated.
5. Close the filter compartment.
6. Turn on the water supply and plug in the unit.
7. Flush the system by dispensing several cups of water from each spout.

7.3. Cleaning the Drip Tray

The removable drip tray should be emptied and cleaned regularly to prevent overflow and maintain hygiene.

1. Carefully pull out the drip tray from the front of the dispenser.
2. Empty any collected water.
3. Wash the tray with mild soap and water, then rinse thoroughly.

4. Dry the tray completely before reinserting it into the dispenser.

8. TROUBLESHOOTING

If you encounter issues with your dispenser, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
No water dispensing.	Water supply off, clogged filter, kinked water line.	Check water supply valve. Replace filters. Inspect water line for kinks.
Water not hot/cold enough.	Heating/cooling switch off, insufficient time to reach temperature, unit overloaded.	Ensure heating/cooling switches are on. Allow 15-30 minutes for water to reach desired temperature. Avoid continuous dispensing of large volumes.
Leaking from unit.	Loose connections, cracked tubing, full drip tray.	Check all water line connections. Inspect tubing for damage. Empty and clean drip tray.
Unusual noise.	Compressor operation (normal), loose components.	A humming sound from the compressor is normal. If noise is excessive or unusual, contact customer support.

If the problem persists after attempting these solutions, please contact SOOPYK customer support.

9. SPECIFICATIONS

Feature	Detail
Brand	SOOPYK
Model Number	FYT530-1-FBM
Color	Black
Product Dimensions (L x W x H)	39.12 x 30.48 x 53.34 cm (15.4 x 12 x 21 inches approx.)
Material	Polypropylene (PP), Stainless Steel
Rated Voltage	115V~
Rated Frequency	60Hz
Heating Power	500W
Cooling Power	85W
Hot Water Output	≥90°C, 5 L/h
Cold Water Output	≤10°C, 2 L/h
Coolant	R134a/28g
Relative Humidity	≤90%
Protection Class	Ⅰ (Anti-Electric-Shock)

Feature	Detail
Installation Type	Countertop

10. WARRANTY AND SUPPORT

Specific warranty details are not provided in this manual. Please refer to the product packaging or contact SOOPYK customer service for warranty information and support inquiries.

For technical assistance or to purchase replacement parts/filters, please visit the official SOOPYK website or contact their customer support line.
