GGM Gastro PTKSBL600

GGM Gastro PTKSBL600 Plastic-Coated Support Grid Instruction Manual

INTRODUCTION

This instruction manual provides essential information for the proper use and maintenance of your GGM Gastro PTKSBL600 Plastic-Coated Support Grid. Please read this manual thoroughly before installation and operation to ensure safe and efficient use of the product. This grid is designed for professional use in commercial kitchen environments, specifically compatible with GGM Gastro KSBL600 and TKSBL600 refrigeration units.

PRODUCT OVERVIEW

The GGM Gastro PTKSBL600 is a durable plastic-coated support grid, measuring 653x513mm. It is specifically designed to fit GGM Gastro KSBL600 and TKSBL600 models, providing an additional shelf or storage surface within these units. The plastic coating offers enhanced durability and resistance to corrosion, making it suitable for various food storage applications.

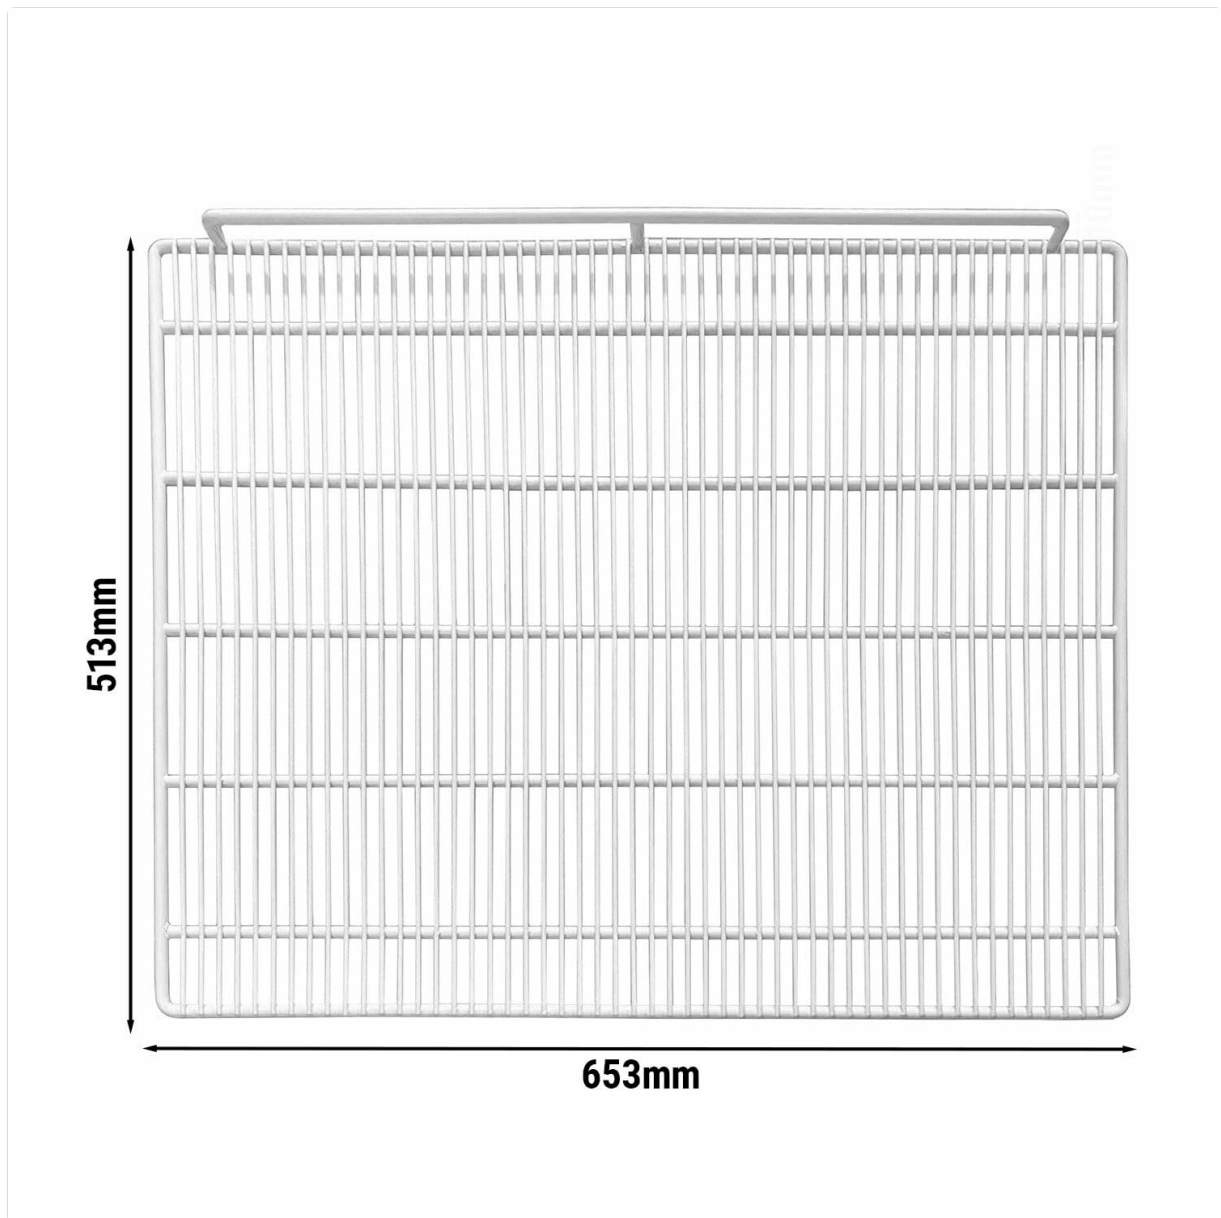

Image 1: Front view of the GGM Gastro PTKSBL600 Plastic-Coated Support Grid, clearly showing its dimensions of 653mm in width and 513mm in depth. This grid is designed for optimal storage within compatible refrigeration units.

SETUP

1. **Unpacking:** Carefully remove the support grid from its packaging. Inspect for any signs of damage during transit.
2. **Initial Cleaning:** Before first use, clean the grid thoroughly with a mild detergent and warm water. Rinse completely and dry with a soft cloth. Refer to the Maintenance section for detailed cleaning instructions.
3. **Installation:**
 - Ensure the compatible refrigeration unit (KSBL600 or TKSBL600) is turned off and unplugged for safety, if applicable.
 - Locate the shelf supports or runners inside the refrigeration unit where the grid is to be placed.
 - Carefully slide the PTKSBL600 support grid onto the designated runners, ensuring it is level and securely seated.
 - Verify that the grid is stable and can support the intended load without tilting or dislodging.

OPERATING INSTRUCTIONS

The GGM Gastro PTKSBL600 support grid is designed for passive use as a storage surface. No active operation is required.

- **Loading:** Place items evenly on the grid to distribute weight. Avoid overloading the grid beyond the capacity of the refrigeration unit's shelf supports.
- **Placement:** Ensure items placed on the grid do not obstruct air circulation within the refrigeration unit, which is crucial for maintaining consistent temperatures.
- **Compatibility:** This grid is specifically designed for GGM Gastro KSBL600 and TKSBL600 models. Using it in incompatible units may lead to instability or damage.

MAINTENANCE

Regular cleaning and inspection will prolong the life of your support grid and ensure hygienic operation.

1. Daily Cleaning:

- Remove all items from the grid.
- Wipe the grid with a soft cloth or sponge dampened with warm water and a mild, food-safe detergent.
- Rinse thoroughly with clean water to remove all detergent residue.
- Dry the grid completely with a clean, soft cloth to prevent water spots and potential corrosion.

2. **Avoid Abrasives:** Do not use abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the plastic coating and lead to corrosion.

3. **Inspection:** Periodically inspect the grid for any signs of wear, damage to the plastic coating, or rust. Replace the grid if significant damage is observed to maintain hygiene and structural integrity.

TROUBLESHOOTING

• Grid is unstable:

- Ensure the grid is correctly seated on all shelf runners or supports within the refrigeration unit.
- Check if the grid is compatible with your specific GGM Gastro unit model (KSBL600 or TKSBL600).
- Verify that the load is evenly distributed and not exceeding the unit's recommended shelf capacity.

• Signs of rust or coating damage:

- This indicates the plastic coating may be compromised. Ensure proper cleaning procedures are followed, avoiding harsh chemicals or abrasive tools.
- If rust is present, the grid should be replaced to maintain hygiene standards in a commercial kitchen.

SPECIFICATIONS

Model:	PTKSBL600
Brand:	GGM Gastro
Dimensions (W x D):	653 mm x 513 mm
Material:	Plastic-coated metal
Compatibility:	GGM Gastro KSBL600, GGM Gastro TKSBL600
Application:	Commercial refrigeration units

WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the documentation provided with your GGM Gastro refrigeration unit (KSBL600 or TKSBL600) or contact GGM Gastro customer service directly. Keep your purchase receipt as proof of purchase for any warranty claims.
